Methodology

In April 2019, the Department of Education and Early Childhood Development sent all high schools in the province the link to an online version of the *2019 Grade 12 Exit Survey*. This year, schools were asked to distribute the link to all Grade 12 students. Surveying all students in Grade 12 is different from previous years, as previously schools were provided a list of students.

The survey provides graduates the opportunity to share their opinion on various issues such as enrichment opportunities at school, access to new technologies and the school environment. The survey also provides the Department with data on students' plans after high school and their perception of how well their school prepared them for the future.

It should be noted that the objective of this survey is to gather information about students' school experience and is not an evaluation of schools and districts. The survey is part of the Department's ongoing effort to be transparent and accountable, and the data gathered helps inform decision-making.

Sample Design and Selection

The Exit Survey was developed in consultation with various sectors of the Department and district superintendents in 2006. To ensure continuity in reporting, the majority of questions were used in subsequent surveys, and with a few questions being added or revised each year.

This year, schools were asked to distribute the link to all Grade 12 students. The rate of return varied from one school to another, but a total of 2,584 students were surveyed, which represents 46% of the entire Grade 12 student population in the anglophone sector as of March 2019.

Data Analysis

The survey is made up of different questions organized into nine themes (Appendix A). Students were instructed to answer the questions, unless otherwise indicated, as an overview of their high school experience. Only one answer was accepted for each question. Students who did not answer or who answered a question incorrectly are not included in the total sum (n=). Consequently, a specific number 'n' is associated with each question. For some of the questions, an N/A option was available for students to whom the question did not apply (e.g. satisfaction with one or more of the online courses in which the student was enrolled). To get a more representative overview of the results, the "N/A" answers are not included in the analysis.

Since the survey was administered to a sample of students, the results obtained may not be representative of the opinion of all students. Consequently, the term "respondent" is used in this document to refer to the students surveyed.

Detailed Results

Section A – Demographic Information

Table 1 shows the demographic profile of students who participated in the Exit Survey. The number of female respondents was slightly higher at 52%, while male respondents accounted for 47%. Only one percent of students identified as non-binary. English was the language most spoken at home. Ninety-two percent of respondents speak English at home and only 2.3% speak both French and English at home. Less than 0.5% of students speak either Mi'kmaw or Wolastoqey at home, but 4.6% indicated they spoke at least one other language at home.

The vast majority (97%) of respondents were 17 or 18 years old.

Nearly 8% of respondents self-identified as an Indigenous person, including 3.7% living on a First Nation community, and 4.1% not living on a First Nation community. Slightly less than 7% of respondents said they belonged to a visible minority. The vast majority (92%) of the respondents were Canadian citizens born in or outside Canada.

Just over 62% of respondents lived with both parents. Nineteen percent of respondents lived with their mother, but only 4.5% of respondents lived with their father. Seven percent shared time between their parents.

Just over 8% of respondents said they are a person with a diagnosed learning disability, while 8.6% said they follow a Personalized Learning Plan (PLP).

Seventy percent of respondents indicated their parent/mother/guardian had completed post-secondary education, and 58% indicated the same for their parent/father/guardian.

Table 1 – Student Profile					
Gender (n¹=2584)		Citizenship (n=2584)			
Male	46.7%	A landed immigrant in Canada	3.5%		
Female	52.3%	A non-permanent resident of Canada	2.9%		
Non-binary	1.0%	A Canadian citizen born in or outside Canada			
		Other	2.0%

18	45.3%	A visible minority (other than Indigenous)	6.7%		
19	2.6%				
20	0.2%	A person with a diagnosed learning disability (n=2584)			
21 or over	0.2%	Yes	8.3%		
Following a Personalized Learning Plan (PLP) (n=2584)		Parent/guardian post-secondary education (n=2584)			
Yes	8.6%	Parent/mother/guardian	70.0%		
		Parent/father/guardian	58.3%		

Section B – Academic Background

Most Recent Final Marks

Although the academic data varied depending on the subject, the overall proportion of students in each category is similar. Most respondents reported receiving marks in the 80% to 89% range or 90% or more range in most subjects.

Physical Education and Health (89%), Cooperative education (84%) and Skilled trades (84%), Visual Arts (80%) and Music (80%) are the subjects in which marks were the highest (80% or higher). Conversely, Mi'kmaw/Wolastoqey (5.4%), Computer science (any) (4.7%), and Law (4.0%) are the subjects with the highest failure rates (less than 60%). It should be noted that these marks were self-reported and may not represent the actual results achieved.

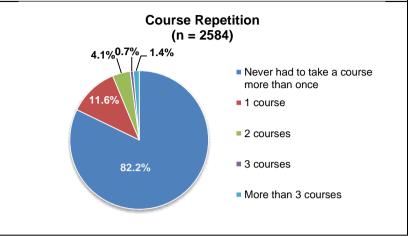

Table 2 – Most Recent Final Marks What were your most recent final marks in the following subject areas?									
	90% or more	80%-89%	70%-79%	60%-69%	Less than 60%	n			
Computer science (any)	34.9%	29.8%	19.6%	11.0%	4.7%	657			
Co-op education	58.6%	25.4%	11.9%	3.1%	1.1%	848			
English	29.7%	38.0%	23.3%	7.8%	1.3%	2447			
French Immersion Language Arts	36.0%	36.3%	18.4%	8.0%	1.3%	1171			
History (any)	38.2%	34.4%	18.4%	7.9%	1.1%	2041			
Law	37.3%	30.7%	19.0%	9.0%	4.0%	758			
Mi'kmaw/Wolastoqey	30.4%	29.5%	23.2%	11.6%	5.4%	112			
Mathematics (any)	28.3%	31.6%	23.1%	14.7%	2.3%	2196

Post-intensive French	44.1%	28.7%	17.7%	8.1%	1.4%	724			
Science (any)	34.3%	35.0%	20.6%	8.2%	1.9%	2185			
Skilled trades (any)	51.7%	32.2%	11.7%	3.5%	0.9%	574			
Visual arts	52.2%	28.0%	13.5%	5.1%	1.2%	1202			

Course Repetition

Four out of five respondents never had to take a Grade 11 or 12 course more than once to receive a passing mark. Twelve percent had to retake one course, and 4.1%, two courses. Only 2.1% of respondents had to retake three or more courses to receive a passing mark.

Figure 1 – Course Repetition

Were you required to take any Grade 11 or 12 courses more than once in order to receive a passing mark; if <u>yes</u>, how many courses?

Section C - School Environment

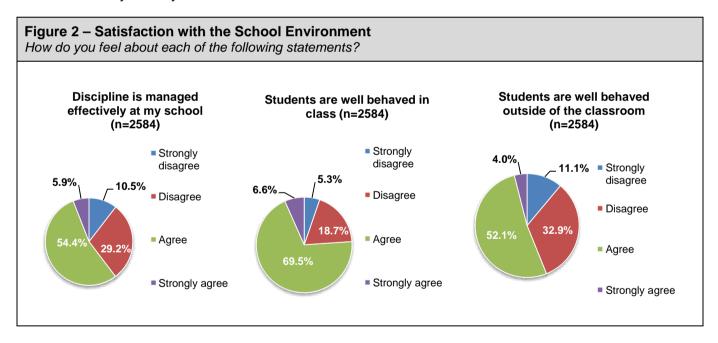

Satisfaction with the School Environment

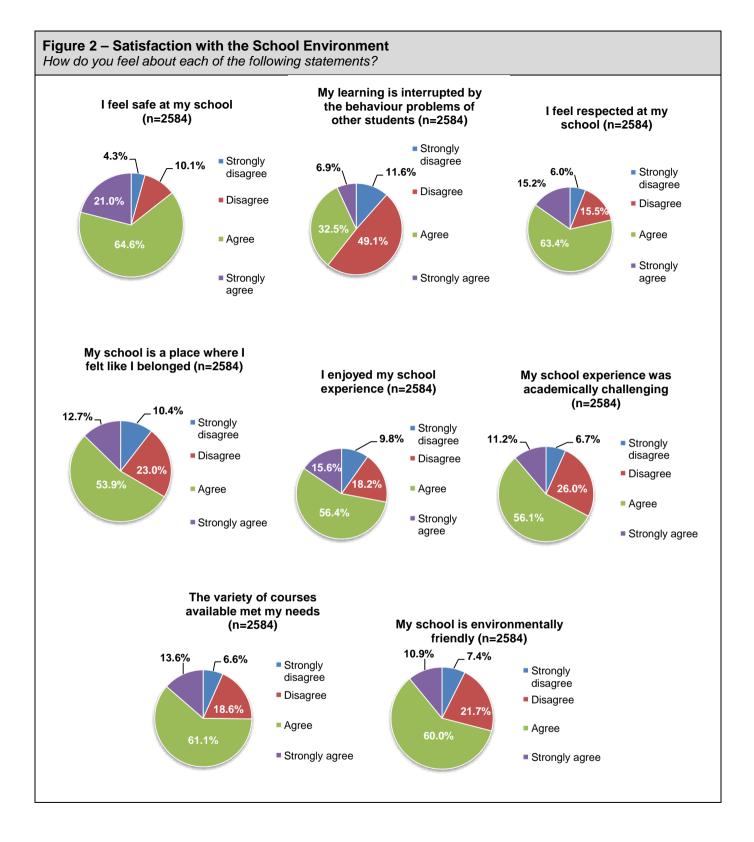

Results show that respondents seemed satisfied with the school environment. Sixty percent of respondents believed that discipline was managed effectively at school. Seventy-six percent of students were well behaved in class but only 56% said students were well behaved outside of the classroom. In all, 61% of respondents did not believe that learning was interrupted by discipline problems.

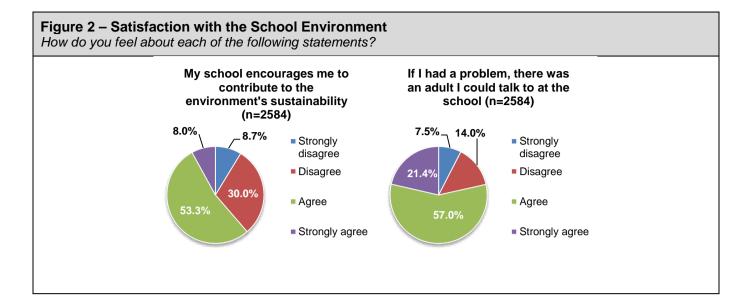

Eighty-six percent of respondents agreed or strongly agreed that they felt safe at their school and 79% agreed or strongly agreed that it was a place where they felt respected. Sixty-seven percent of respondents indicated that school was a place where they felt like they belonged. Seventy-eight percent indicated that if they had a problem, there was an adult they could talk to at school.

Seventy-two percent of respondents enjoyed their school experience, and 67% considered their school experience academically challenging. Seventy-five percent said the variety of courses available met their needs.

Sixty-one percent of respondents indicated that their school encouraged them to contribute to the environment's sustainability. Seventy-one percent of respondents felt their school was environmentally friendly.

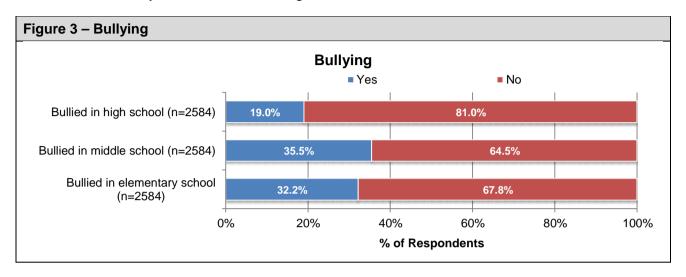

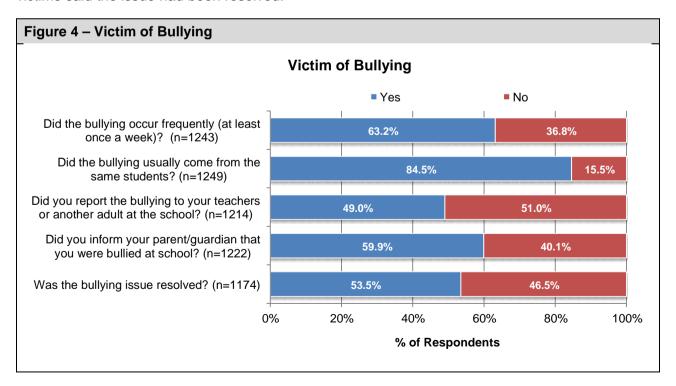

Bullying

Bullying at school was present at all grade levels, but was more prevalent in middle school, where 36% of respondents reported being bullied. Thirty-two percent of respondents reported being bullied in elementary school and 19% in high school.

Victim of Bullying

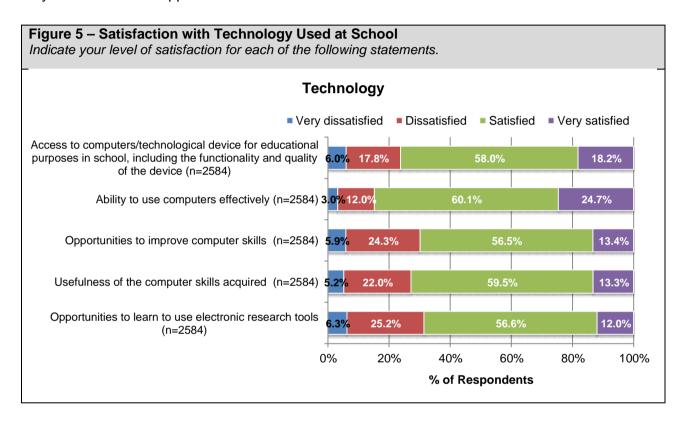

Of the respondents who reported being bullied at school, 63% were bullied frequently and 85% indicated it was by the same people. Forty-nine percent of respondents reported it to their teachers, and 60% reported being a victim of bullying to their parents. In the end, 54% of the victims said the issue had been resolved.

Section D - E-Learning and New Technologies

Satisfaction with Technology Used at School

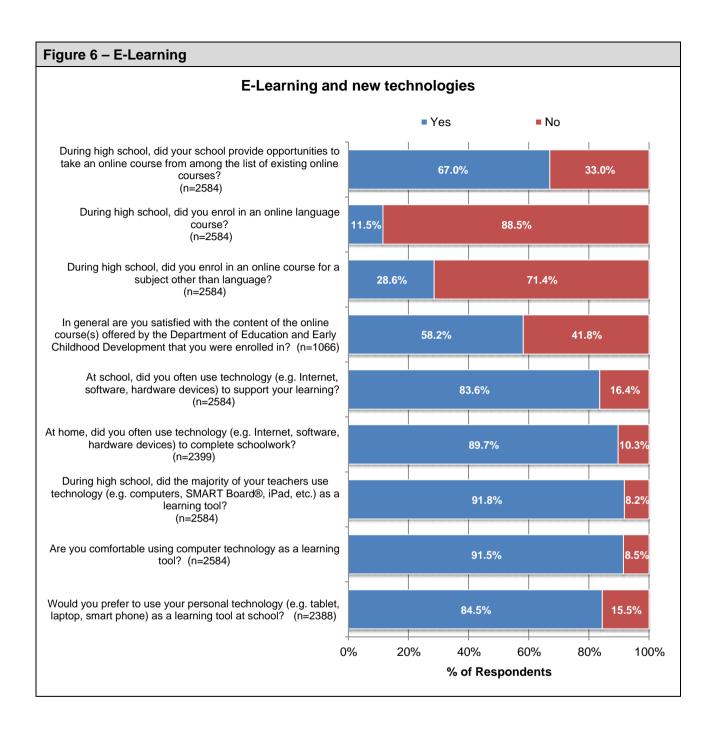

When asked to indicate their level of satisfaction with technology, 76% of respondents were satisfied or very satisfied with their access to computers at school, including the functionality and quality of the device. Seventy-three percent of respondents were satisfied with the usefulness of the computer skills acquired at school. While 85% of respondents were satisfied with their ability to use computers effectively, 30% said they were dissatisfied or very dissatisfied with the opportunities their school gave them to improve their computer skills, and 32% were dissatisfied or very dissatisfied with opportunities to learn to use electronic research tools.

E-Learning and new technologies

Sixty-seven percent of respondents indicated that their school provided opportunities to take an online course from among the list of existing online courses. Fifty-eight percent indicated they were satisfied with the content of the online course offered by the Department of Education and Early Childhood Development. Twenty-nine percent of respondents indicated they were enrolled in an online course other than language during high school and 12% in an online language course.

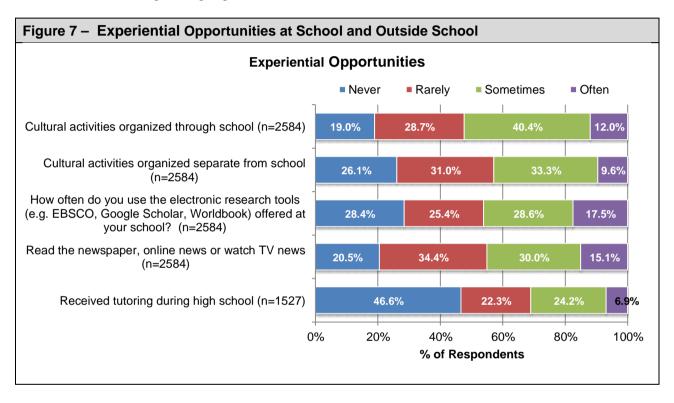

Ninety-two percent of respondents were comfortable using computer technology as a learning tool. Ninety percent said they often used computer technology at home to complete schoolwork and 84% often used technology at school to support learning. Ninety-two percent of respondents said their high school teachers used technology (e.g. computers, SMART Board®, iPad, etc.) as a learning tool. Eighty-five percent of respondents said they would prefer to use their own personal technology (e.g. tablet, laptop, smart phone) as a learning tool at school.

Section E - Experiential Opportunities

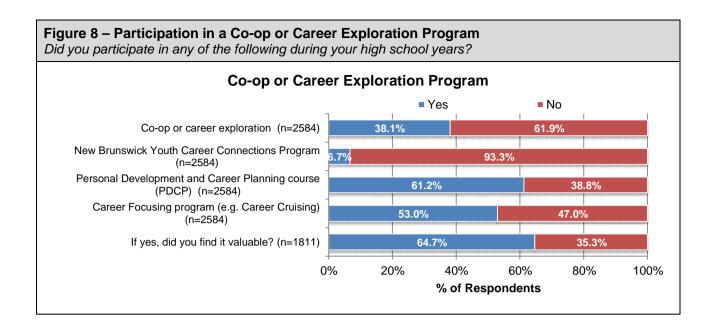

Experiential Opportunities at School and Outside School

When asked to indicate the opportunities they had to participate in experiential activities, 52% of respondents said they often or sometimes had the opportunity to participate in cultural activities organized through school and 43% in cultural activities organized separate from school. About 54% of respondents said they never or rarely used electronic research tools (e.g. EBSCO, Worldbook) offered at school. However, 45% indicated they often or sometimes read the newspaper or online news, or watched TV news. Thirty-one percent of respondents sometimes or often received tutoring during high school.

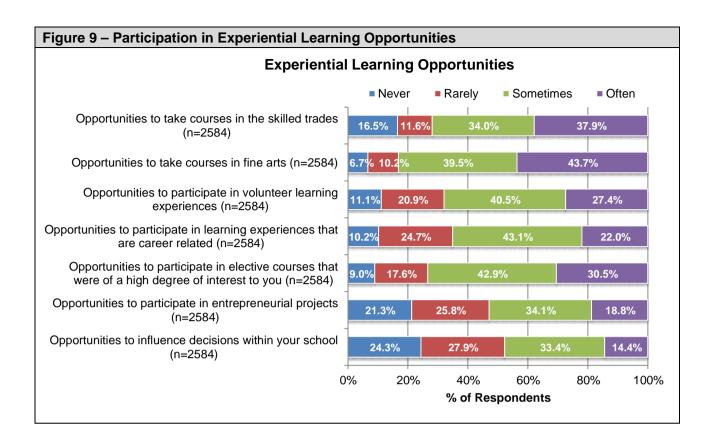

Participation in a Career Exploration Program

In all, 38% of respondents participated in a co-op/career exploration program during high school but just 6.7% in the New Brunswick Youth Career Connections Program. Sixty-one percent participated in a Personal Development and Career Planning course, and 53% in a career focusing program. Of those that did participate in a career focusing program, 65% said they found it valuable.

Experiential Learning Opportunities

When asked to indicate the occasions they had to participate in experiential learning opportunities, 72% of the respondents said they often or sometimes participated in skilled trades courses (e.g. residential finish, power train and chassis, culinary technology), 83% in fine arts courses (e.g. visual arts, music, theatre), and 65% in learning experiences that are career-related. Sixty-eight percent of respondents indicated that they sometimes or often had the opportunity to participate in volunteer learning experiences. Seventy-three percent of respondents said they sometimes or often had the opportunity to participate in elective courses that were of a high degree of interest to them. Fifty-three percent indicated that they had the opportunity to participate in entrepreneurial projects. Forty-eight percent of respondents indicated that they had opportunities to influence decisions within their school.

Hours per Week Spent on Extra-Curricular Activities and Part-Time Employment

Part-time employment (39%), sports organized by the school (8.7%), and extra-curricular activities organized by the school (7.0%) were the top three activities to which respondents devoted more than 10 hours a week.

Forty-two percent of the respondents indicated that they participated in sports activities organized by the school, 39% in sports activities outside the school, and 67% in other extended physical activity outside of school. Fifteen percent spent between 6 and 10 hours a week involved in sports organized by the school, while 8.7% spent more than 10 hours a week. Forty-two percent participated in activities organized by their school at least one hour a week (e.g. drama, clubs, band, student council).

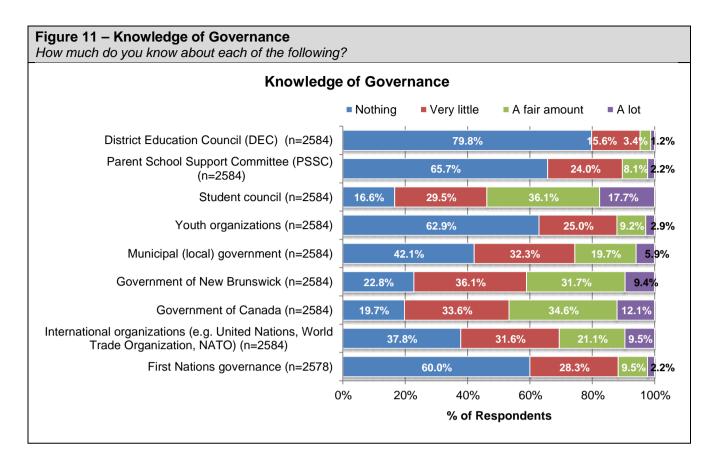

Forty-eight percent of the respondents did at least one hour of volunteer work in the community per week, including 5.0% who volunteered more than 10 hours per week. Seventeen percent of respondents said they tutored another student for at least one hour a week. Nineteen percent of respondents were involved in social action groups for an hour or more per week.

Figure 10 – Hours per Week Spent on Extra-Curricular Activities and Part-Time Employment Approximately how many hours per week are you involved in extra-curricular activities and part-time work during the school year? **Extra-Curricular Activities and Part-Time Work** ■ 1-5 hrs ■ 6-10 hrs More than 10 hrs ■ 0 hr Sports organized by the school (n=2584) 18.0% 14.9% 58.3% Sports not organized by the school 61.1% 22.9% 5.5% (n=2584)Other extended physical activity outside of 45.5% 33.2% school (n=2584) Extra-curricular activities organized by the 57.7% 25.5% 9.9% school (n=2584) Organized activities not through the 24.8% 63.1% school (n=2584) Social action groups (n=2584) 80.6% Volunteer work in your community 52.4% 34.3% (n=2584) Tutoring another student (n=2584) 83.3% 1.5% Part-time employment (n=2584) 34.5% 9.5% 17.0% 39.0% 0% 20% 40% 60% 80% 100% % of Respondents

Knowledge of Governance

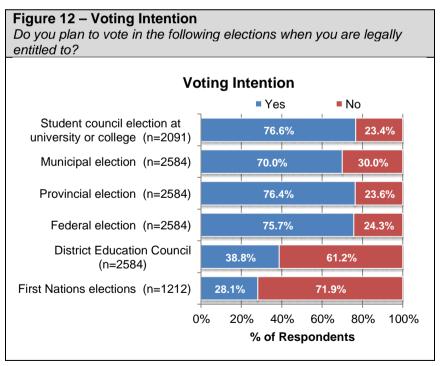

Respondents had limited knowledge of governance at the school and district level. The majority of respondents knew nothing (80%) or very little (16%) about the District Education Council. Just 10% of respondents said they had a fair amount or a lot of knowledge about the Parent School Support Committee. However, 54% said they had a fair amount or a lot of knowledge about the student council. Only 12% said the same about youth organizations (e.g. NBASAA, Youth Matters).

Knowledge of government varied by level. Forty-seven percent of respondents knew a fair amount or a lot about the Government of Canada, while 41% said the same about the Government of New Brunswick and 26% about municipal (local) government. Thirty-one percent of respondents knew a fair amount or a lot about international organizations (e.g. OECD, United Nations). Eighty-eight percent of respondents indicated they knew nothing or very little about First Nations governance.

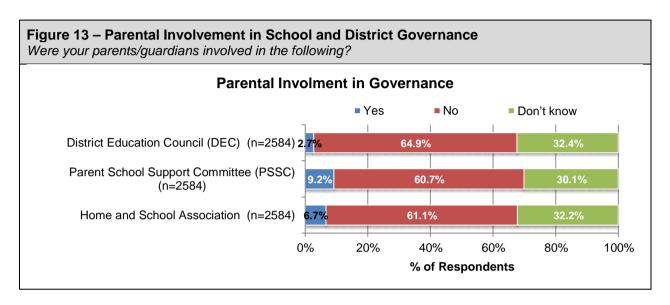

Voting Intention

Seventy-six percent of respondents said they planned to vote in the next federal election and 76% in the next provincial election, when they were legally entitled to vote. Seventy percent planned to vote in a municipal election. The intention to vote in student council elections at university or college was slightly higher at 77%. Only 39% of respondents said they planned to vote in the next District Education Council election. Twenty-eight percent of respondents planned to vote in First Nations elections.

Parental Involvement in School and District Governance

Roughly three in ten respondents did not know whether their parents or guardians were involved in school or district governance. Only 2.7% confirmed that their parents were involved in the District Education Council, 9.2% in the Parent School Support Committee, and 6.7% in the Home and School Association.

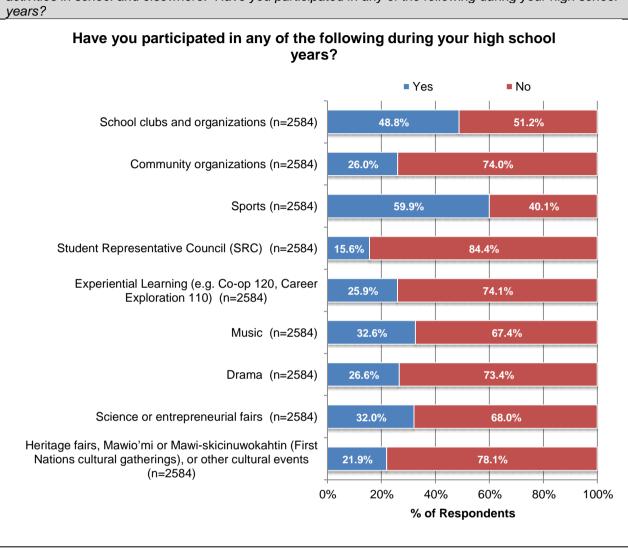

Leadership activities

Leadership can take many different forms, and may involve activities in school and elsewhere. Forty-nine percent of respondents indicated they participated in school clubs and organizations. Community organizations were less popular, with only 26% of respondents participating. Sixty percent indicated they participated in sports, but only 16% on the Student Representative Council (SRC). Twenty-six percent of respondents participated in experiential learning (e.g. Co-op 120, Career Exploration 110). One third (33%) of respondents participated in music, and 27% in drama. About one-third of respondents (32%) took part in science or entrepreneurial fairs. Twenty-two percent of respondents indicated they participated in heritage fairs, Mawio'mi or Mawiskicinuwokahtin (First Nations cultural gatherings), or other cultural events.

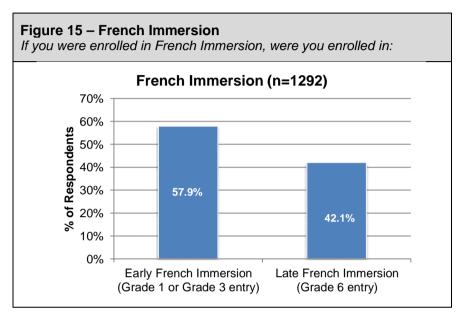

Leadership can take many different forms, including all of the examples below, and may involve activities in school and elsewhere. Have you participated in any of the following during your high school years?

Section F - Language Skills

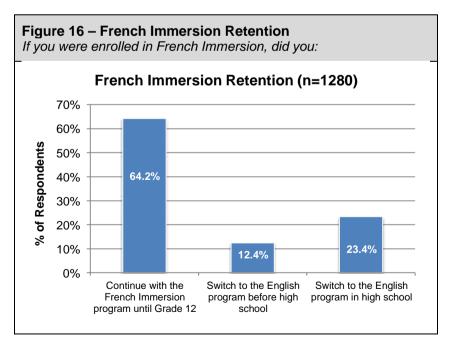

French Immersion

According to respondents, 50% were never enrolled in an immersion program during their studies. Of those enrolled at one point in French Immersion, 58% were enrolled in early immersion and 42% in late immersion.

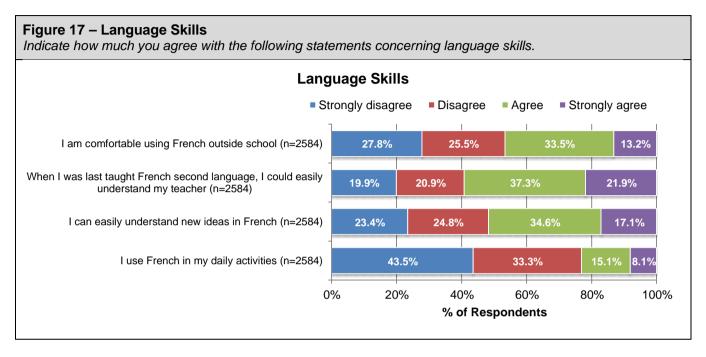

French Immersion Retention

Of those who had been enrolled in French Immersion at one point during their studies, 64% remained in an immersion program, while 23% switched to the English program in high school and 12% switched before high school.

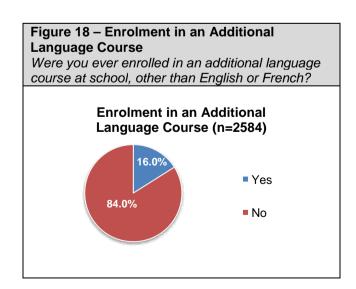

Language Skills

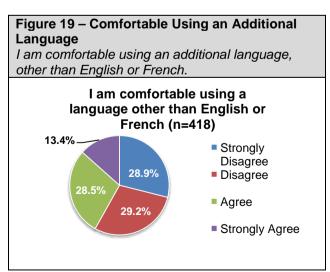

When asked about their language skills, 47% of respondents said they were comfortable using French outside school. However, only 23% indicated using French in their daily activities. When they were taught French as a second language, 59% could easily understand their teacher, and 52% could easily understand new ideas in French.

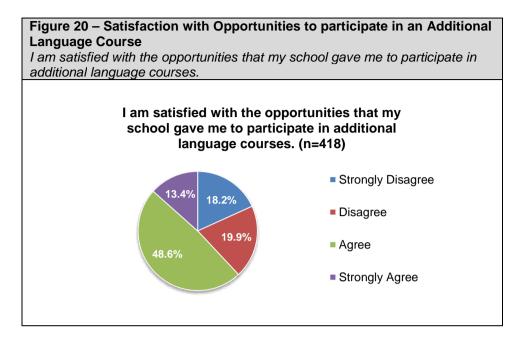

Enrolment in an Additional Language Course

Sixteen percent of respondents indicated they were enrolled in an additional language course, other than English or French, at school, and 42% reported they were comfortable using an additional language.

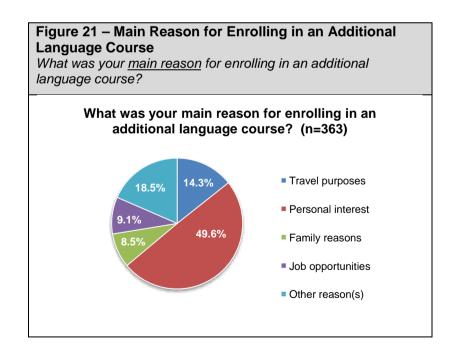

Sixty-two percent of respondents were satisfied with the opportunities their school provided them to participate in additional language courses.

Main Reason for Enrolling in an Additional Language Course

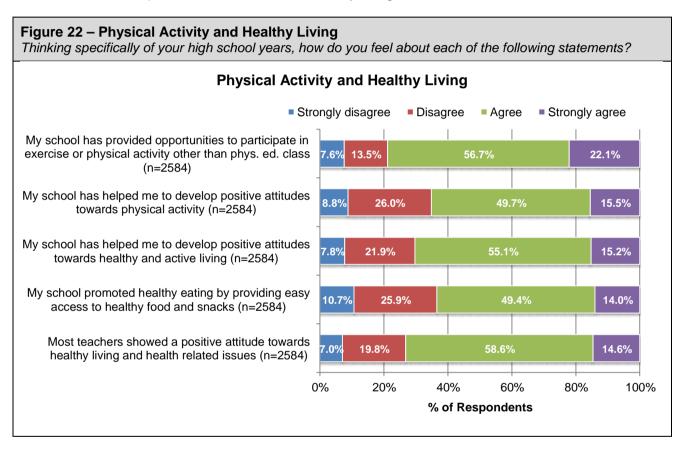

The main reason for learning an additional language, given by 50% of respondents, was personal interest, followed by other reasons (19%), travel purposes (14%), job opportunities (9.1%), and family reasons (8.5%).

Section G - Physical Activity and Healthy Living

Physical Activity and Healthy Living

Most respondents seemed satisfied with the opportunities they were given to participate in, and develop positive attitudes towards, physical activity. Seventy-nine percent said that they had opportunities to participate in activities other than physical education classes, and 65% said their school helped them to develop positive attitudes towards physical activity. Seventy percent of respondents said their school enabled them to develop positive attitudes toward healthy and active living and 63% indicated that their school promoted healthy eating by providing easy access to healthy foods and snacks. Seventy-three percent of respondents agreed or strongly agreed their teachers showed a positive attitude towards healthy living and health related issues.

Section H – Learning Environment

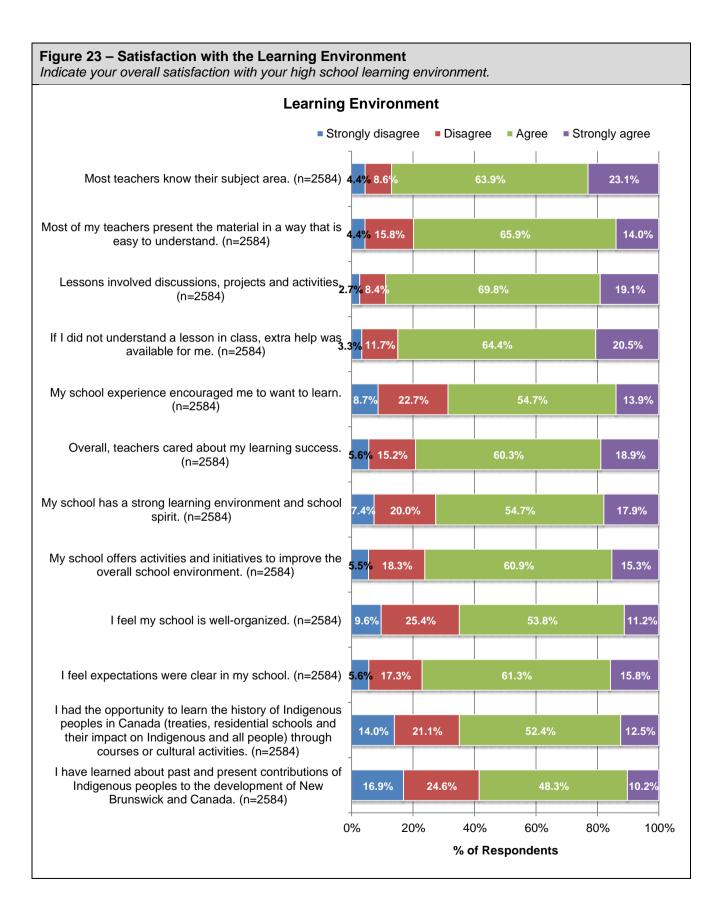

Satisfaction with the Learning Environment

With respect to their high school experience, the majority of respondents were satisfied with the learning environment. Eighty-seven percent agreed or strongly agreed that most teachers knew their subject area, and 80% said their teachers present the material in a way that is easy to understand.

According to 85% of the respondents, extra help was available for them. Sixty-nine percent indicated that their school experience encouraged them to want to learn. Seventy-nine percent of respondents said that their teachers cared about their learning success. Eighty-nine percent said that the lessons involved discussion, projects and activities.

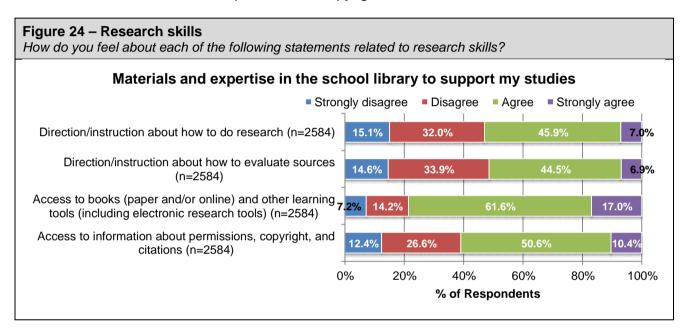

Seventy-three percent of respondents agreed or strongly agreed with the statement that their school had strong learning environment and school spirit. Seventy-six percent said their school offered activities and initiatives to improve the overall school environment, and 65% felt their school was well-organized and 77% felt that expectations were clear.

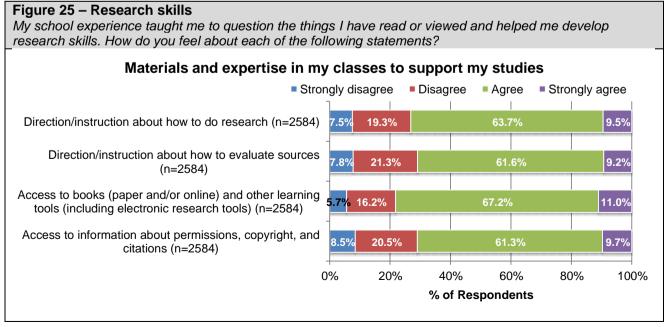

Sixty-five percent indicated that they had the opportunity to learn the history of Indigenous peoples in Canada (treaties, residential schools and their impact on Indigenous and all people) through courses or cultural activities. Fifty-nine percent felt that they learned about past and present contributions of Indigenous peoples to the development of New Brunswick and Canada.

Respondents were asked whether their school experience taught them to question the things they had read or viewed, and if it helped them develop research skills. Fifty-three percent of respondents indicated that the materials and expertise in the school library supported their studies by providing guidance about how to do research, and 51% about how to evaluate sources. Seventy-nine percent indicated that they had access to books (paper and/or online) and other learning tools (including electronic research tools), and 61% indicated that they had access to information about permissions, copyright and citations.

Seventy-three percent of respondents indicated that the materials and expertise in their classes supported their studies by providing guidance about how to do research, and 71% about how to evaluate sources. Seventy-eight percent indicated that they had access to books (paper and/or online) and other learning tools (including electronic research tools), and 71% indicated that they had access to information about permissions, copyright and citations.

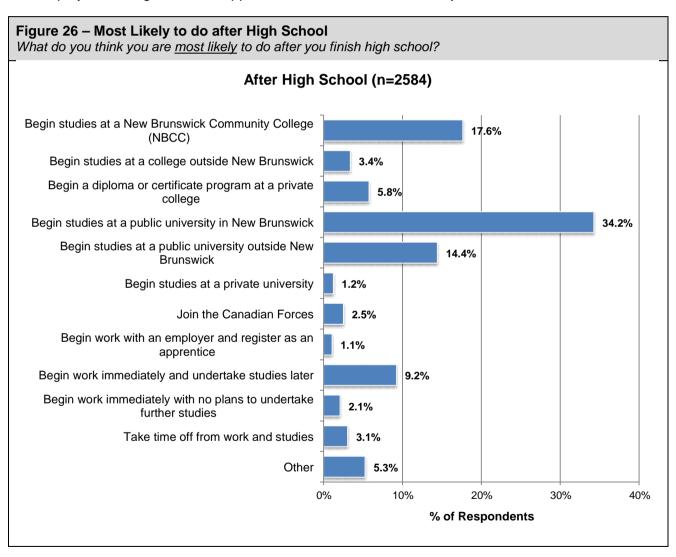

Section I - My Future

Most Likely to do After High School

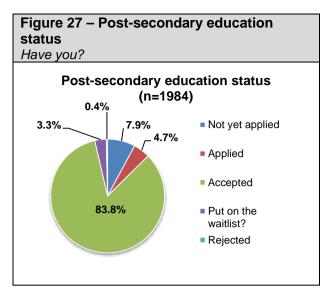

Most respondents intended to pursue their studies after they finished high school. When asked about their future intentions, 34% said they would attend a public university in New Brunswick and 18% at a New Brunswick Community College. A few respondents intended to continue their studies at a university (14%) or a college (3.4%) outside New Brunswick, and a few at a private college (5.8%) or university (1.2%). Nine percent of respondents intended to begin working following high school and pursue their studies at a future date. Only 2.1% of respondents intended to begin working immediately with no plans to undertake further studies, and 3.1% intended to take time off from work and studies altogether. Only 1.1% of respondents intended to begin work with an employer and register as an apprentice, while 2.5% intended to join the Canadian Forces.

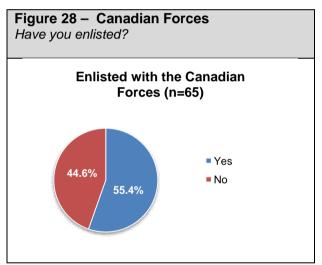

Eighty-four percent of the respondents going on to post-secondary education had been accepted, 4.7% had applied, 3.3% had been put on the waitlist, and 0.4% had been rejected. Eight percent had not yet applied.

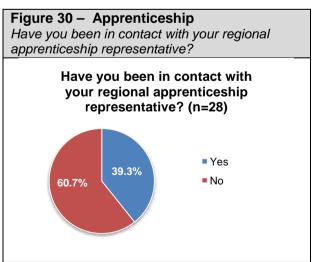

Of the 2.5% of respondents that indicated they intended to join the Canadian Forces, 55% had enlisted.

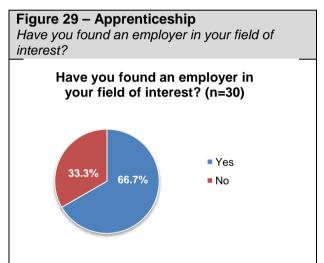

Of the 1.1% of respondents that intended to begin work with an employer and register as an apprentice, 67% had found an employer in their field of interest. Thirty-nine percent had been in contact with their regional apprenticeship representative.

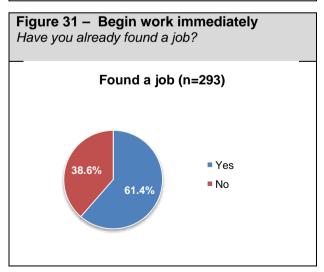

Of the respondents that indicated they were going to begin work immediately and undertake studies later, or begin work with no plans to undertake further studies, 61% indicated that they had already found a job.

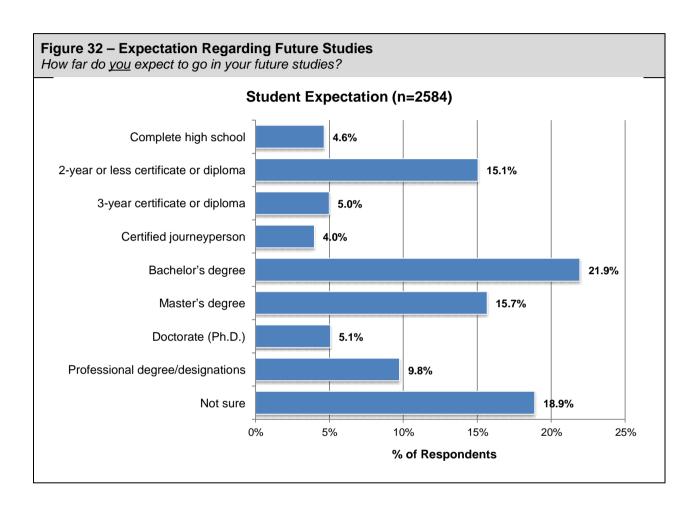

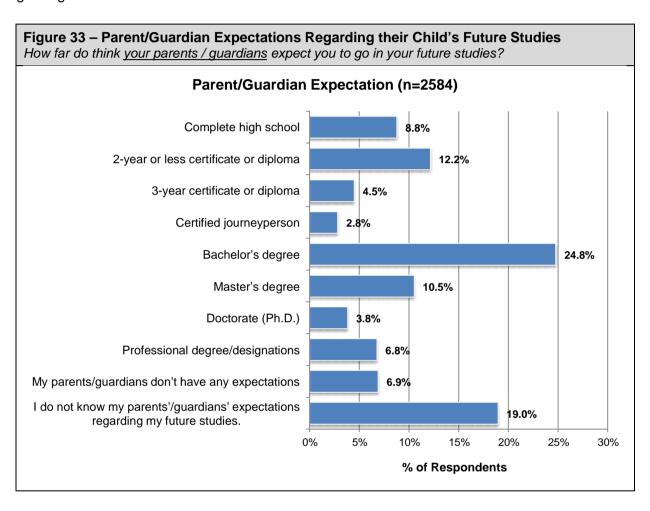

Expectation Regarding Future Studies

Most respondents expected to obtain a university degree (53%) or a certificate/diploma in two years or less (15%). Twenty-two percent of respondents planned to obtain a bachelor's degree, 16% a master's degree, 9.8% a professional degree/designation (lawyer, dentist, etc.), and 5.1% a doctorate. Only 4.0% expected to become a certified journeyperson. Only 4.6% of respondents planned to stop at high school. Interestingly, 19% of respondents indicated they were not sure how far they expected to go in their future studies.

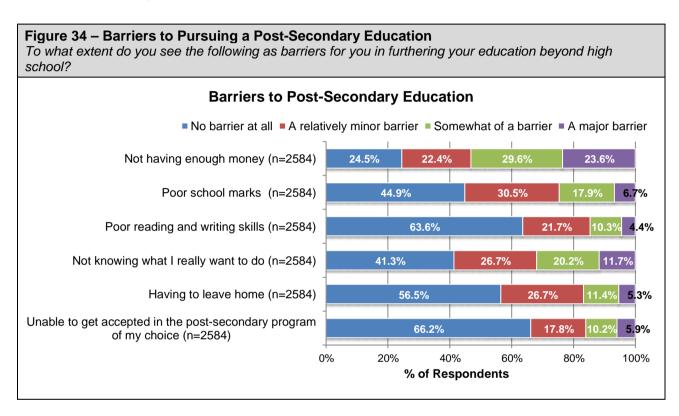

Parent/Guardian Expectations Regarding their Child's Future Studies

According to respondents, obtaining a bachelor's degree (25%), a master's degree (11%), and obtaining a certificate/diploma in two years or less (12%) were the most common levels of education expected by parents. These were followed by receiving a professional degree/designation (6.8%) and completing a doctorate (3.8%). Only 2.8% expected them to become a certified journeyperson. Nineteen percent of respondents did not know what their parents expected, and 6.9% of respondents said their parents did not have any expectations regarding their future studies.

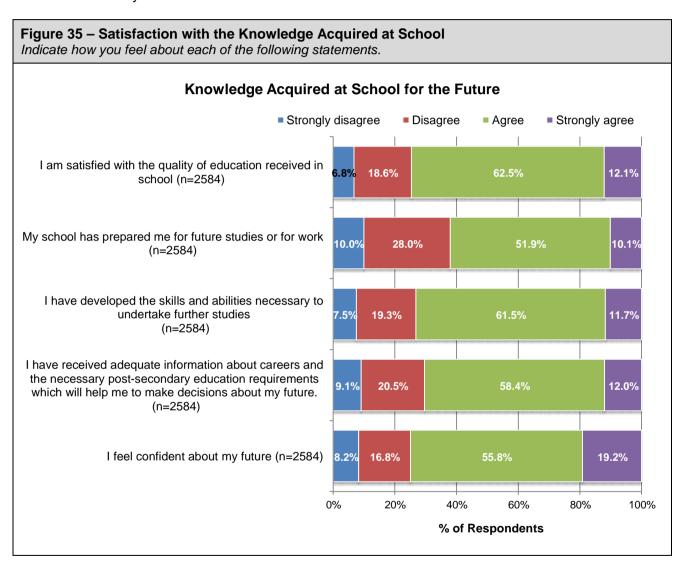

Barriers to Pursuing a Post-Secondary Education

According to 53% of respondents, not having enough money was the main barrier to pursuing a post-secondary education. Twenty-four percent of respondents believed money was a major barrier, and 30%, somewhat of a barrier. Twelve percent said that not knowing what they really want to do was a major barrier, and 20% said it was somewhat of a barrier. Poor marks were somewhat of a barrier or a major barrier for 25% of respondents, while 15% said the same for poor reading and writing skills. Eighty-three percent of respondents did not believe that having to leave home was a barrier. Sixteen percent of respondents said that being unable to get accepted to the post-secondary program of choice was somewhat or a major barrier.

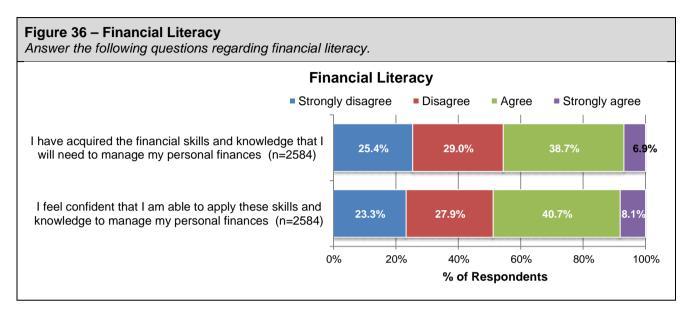

Satisfaction with the Knowledge Acquired at School

Most respondents appeared satisfied with the knowledge they acquired at school. Seventy-five percent of respondents said they were satisfied with the quality of education received in school and 73% believed they had learned the skills and developed the abilities needed to pursue further studies. Sixty-two percent of respondents believed that school prepared them for future studies or for work. Seventy percent of respondents agreed or strongly agreed with the statement that they received adequate information about careers and the necessary post-secondary education requirements to help make decisions about their future. Seventy-five percent of respondents indicated that they felt confident about their future.

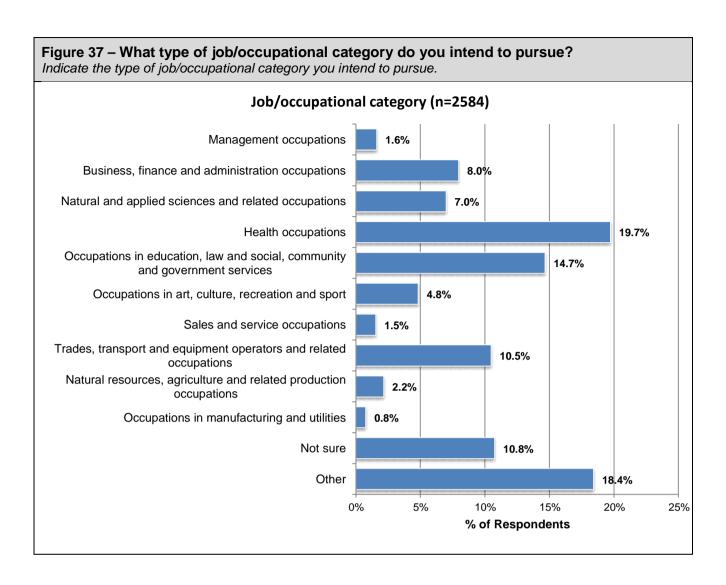

Financial Literacy

Forty-six percent of respondents indicated they had acquired the financial skills and knowledge that they will need to manage their personal finances. Forty-nine percent of respondents felt confident that they are able to apply these skills and knowledge to manage their personal finances.

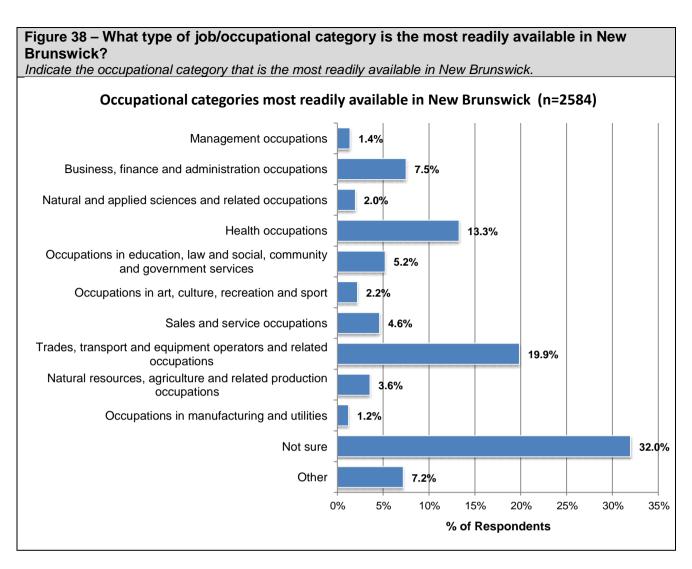

What type of job/occupational category do you intend to pursue?

Respondents were asked what type of job/occupational category they intended to pursue. Almost 20% of respondents indicated they intended to pursue a career in health, 15% indicated occupations in education, law and social, community and government services, and 11% indicated trades, transport and equipment operators and related occupations. Eighteen percent of respondents indicated they were pursuing a job in a category that was not listed, while 11% were not sure what type of occupation they intended to pursue.

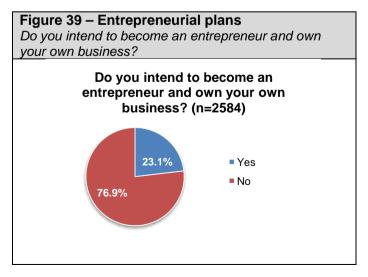

Which of the following occupational categories are currently, in your opinion, the most readily available in New Brunswick?

Thirty-two percent of respondents were not sure what occupational categories were the most readily available in New Brunswick. Twenty percent of respondents indicated that jobs in trades, transport and equipment operators and related occupations were the most readily available, followed by jobs in health occupations (13%) and jobs in business, finance and administration occupations (7.5%).

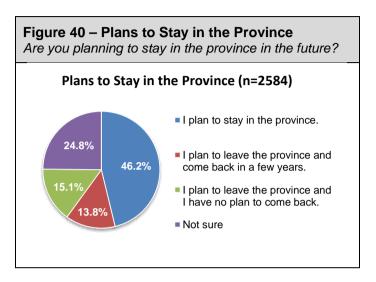

Entrepreneurial plans

Twenty-three percent of respondents indicated they intend to become an entrepreneur and own their own business.

Plans to Stay in the Province

Forty-six percent of respondents planned to stay in the province and 14% planned to leave the province but come back in a few years. Fifteen percent of respondents planned to leave the province with no plan to come back. Twenty-five percent of respondents were not sure if they plan to stay in the province.

Appendix 2019 Grade 12 Exit Survey

Introduction

You have been chosen to participate in a survey of Grade 12 students in order to help your school, your school district and the Department of Education and Early Childhood Development understand your opinions of your school experience, activities and future plans.

Your answers are **confidential** and important.

Thank you for taking the time to participate.

Instructions

Read every question carefully, and then answer each question by filling in the appropriate bubble.

Each bubble must be filled completely.

For example:

Answer each question. If a question does not apply to you, fill in the not applicable (N/A) bubble. Only one answer is accepted for each question.

Unless otherwise indicated, the questions relate to your high school (9-12) experience.

The survey will take approximately 30 minutes to complete.

Please take your time. Begin when you are ready.

SECTION D: E-Learning and New Technologies

D1) Indicate your level of satisfaction for each of the following

		Very dissatisfied	Dissatisfied	Satisfied	Very satisfied
a)	Access to computers/technological device for educational purposes in school, including the functionality and quality of the device.	1	2	3	4
b)	My ability to use computers effectively.	1	2	3	4
c)	Opportunities that my school gave me to improve my computer skills.	1	2	3	4
d)	Usefulness of the computer skills acquired.	1	2	3	4
e)	Opportunities that my school gave me to learn how to use electronic research tools.	1	2	3	4
D2)	Indicate "yes" or "no" to the following question	s regarding e	-learning and n	ew technolo	ogies.
			N/A	Yes	No
a)	During high school, did your school <u>provide opportur</u> an online course from among the list of existing online			1	2
b)	During high school, did you enrol in an online langua	age course?		1	2
c)	During high school, did you <u>enrol</u> in an online course <u>other than</u> language?	e for a subject		1	2
d)	In general are you satisfied with the content of the course(s) offered by the Department of Education are Childhood Development that you were enrolled in? (1) enrol, indicate N/A.)	nd Early	•	1	2
e)	At school, did you often use technology (e.g. Interne hardware devices) to support your learning?	et, software,		1	2
f)	At home, did you often use technology (e.g. Internet hardware devices) to complete schoolwork? (If you do technology at home, indicate N/A.)		•	1	2
g)	During high school, did the majority of your teachers technology (e.g. computers, SMARTBOARD®, iPad, e learning tool?			1	2
h)	Are you comfortable using computer technology as a tool?	a learning		1	2
i)	Would you prefer to use your personal technology (elaptop, smart phone) as a learning tool at school? (If personal technology, indicate N/A.)	,	•	1	2

SECTION E: Experiential Opportunities

E1)	Answer the following questions regarding	ıg experier	ntial opportun	ities.		
		N/A	Never	Rarely	Sometimes	Often
a)	Have you had opportunities in high school to participate in cultural activities organized through your school (e.g. plays, attended a cultural event on a First Nation Community, visits to museums, art galleries, musical groups)?		1	2	3	4
b)	Have you had opportunities in high school to participate in cultural activities not organized by your school (e.g. visited a museum or went to a play with your parents/guardians, attended a cultural event on a First Nation Community)?		①	@	3	4
c)	How often do you use the electronic research tools (e.g. EBSCO, Google Scholar, Worldbook) offered at your school?		①	2	3	4
d)	How often do you read the newspaper, online news or watch TV news?		1	2	3	4
e)	Did you receive tutoring during high school? (If you did not need any, indicate N/A.)	0	1	2	3	4
E2)	Did you participate in any of the following	ng during h	nigh school (th	inking back	as far as Grade	e 9)?
,	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,		3	3		,
					Yes	No
a)	Co-op Education or Career Exploration				1	2
b)	New Brunswick Youth Career Connections Pr	rogram			1	2
c)	Personal Development and Career Planning	course (PDC	CP)		1	2
d)	Career Focusing program (e.g. Career Cruisi	ng)			1	2
	If yes, did you find it valuable?				1	2

E3) Answer the following questions regarding experiential learning opportunities.

		Never	Rarely	Sometimes	Often
a)	Have you had opportunities in high school to take courses in the skilled trades (e.g. Residential Finish, Power Train and Chassis, Culinary Technology)?	1	2	3	4
b)	Have you had opportunities in high school to take courses in fine arts (e.g. visual arts, music, theatre)?	1	2	3	4
c)	Have you had opportunities in high school to participate in volunteer learning experiences (e.g. volunteered as part of a classroom activity or assignment)?	1	2	3	4
d)	Have you had opportunities in high school to participate in career-related learning experiences (e.g. career fairs, Job Fest, post-secondary days)?	1	2	3	4
e)	Have you had opportunities in high school to participate in elective courses that were of a high degree of interest to you?	1	2	3	4
f)	In high school, have you had the opportunity to participate in entrepreneurial projects (creating a product, offering a service, or by organizing an event that responded to a need of the school or the community, projects in which the students were the directors and managers)?	1	2	3	4
g)	In high school, have you had the opportunity to influence decisions within your school?	1	2	3	4

E4) Approximately how many <u>hours</u> per week are you involved in extra-curricular activities and part-time work during the school year?

		0	1-5	6-10	More than 10
a)	Sports organized by the school (e.g. basketball, hockey)	1	2	3	4
b)	Sports <u>not organized</u> by the school (e.g. minor hockey, soccer club)	1	2	3	4
c)	Other extended physical activity outside of school (e.g. running, biking, hiking)	1	2	3	4
d)	Extra-curricular activities organized by the school (e.g. drama, clubs, band, student council, public speaking)	1	2	3	4
e)	Organized activities <u>not through</u> the school (e.g. leadership, youth programs, music lessons)	1	2	3	4
f)	Social action groups (e.g. environment, animal protection, politics)	1	2	3	4
g)	Volunteer work in your community	1	2	3	4
