TOWN OF OROMOCTO

Water Treatment Plant Environmental Impact Assessment (Final)

Oromocto, New Brunswick

Table of Contents

1.0	The Proponent	1
1.1	Name of the Proponent.....	1
1.2	Principle Contacts.....	1
2.0	The Undertaking	2
2.1	Project Title	2
2.2	Project Overview	2
2.3	Purpose/Rationale/Need for the Undertaking.....	6
2.4	Project Location.....	6
2.5	Siting Considerations.....	7
2.6	Regulatory Framework.....	8
2.7	Physical Components and Dimensions of the Project.....	8
2.8	Construction Phase Details.....	9
2.8.1	Site Preparation and Civil Works.....	9
2.8.1.1	Clearing and Grubbing.....	9
2.8.1.2	Excavation and Grading.....	10
2.8.1.3	Site Access	10
2.8.1.4	Paving and Gravel Access Roads	10
2.8.2	Facilities Construction	10
2.8.2.1	WTP Building Construction.....	10
2.8.2.2	Concrete and Waterproofing	11
2.8.3	Intake Line Construction	11
2.9	Operation and Maintenance Details	11
2.10	Future Modifications, Extensions, or Abandonment	13
2.11	Accidents and Malfunctions	13
2.11.1	Hazardous Material, Chemical and Fuel Spills.....	13
2.11.1.1	Potential Risk.....	14
2.11.2	Traffic Control and Vehicle Accidents	14
2.11.2.1	Potential Risk.....	14
2.11.3	Discovery of Archaeological Resources or Human Remains	14
2.11.3.1	Potential Risk.....	14
2.11.4	Fire.....	14
2.11.4.1	Potential Risk.....	15

3.0	Existing Environment	16
3.1	Methodology	16
3.1.1	Desktop Review	16
3.1.2	Biophysical Field Surveys.....	17
3.2	Atmospheric Environment	17
3.2.1	Climate.....	18
3.2.2	Ambient Air Quality	21
3.2.2.1	Carbon Monoxide (CO).....	21
3.2.2.2	Nitrogen Dioxide (NO ₂).....	21
3.2.2.3	Fine Particulate Matter (PM _{2.5}).....	22
3.2.2.4	Ground Level Ozone (O ₃)	22
3.2.3	Emissions	22
3.2.4	Greenhouse Gas (GHG) Emissions.....	24
3.2.5	Ambient Sound Quality	24
3.3	Terrestrial Environment	24
3.3.1	Site Topography and Physiography	24
3.3.2	Geology.....	25
3.3.2.1	Description of Surficial Geology	25
3.3.2.2	Description of Regional Bedrock Geology	25
3.3.3	Hydrology and Hydrogeology	25
3.3.4	Environmentally Sensitive Areas	26
3.3.5	Vegetation (Flora) Assessments	27
3.3.5.1	Vegetation (Flora) Surveys	27
3.3.5.2	Vegetation (Flora) at Risk and of Conservation Concern	29
3.3.6	Forest Cover	30
3.3.7	Wildlife (Fauna) and Wildlife Habitat	32
3.3.7.1	Wildlife (Fauna) Species at Risk and of Conservation Concern	32
3.3.8	Birds and Bird Habitat	34
3.3.8.1	Background Data Review.....	34
3.3.8.2	Breeding Bird Assessments	35
3.3.8.3	Bird Species at Risk and of Conservation Concern	36
3.4	Aquatic Environment.....	36
3.4.1	Wetlands	37
3.4.2	Watercourses	37
3.4.2.1	Surface Drainage (WC1) – Field Identified	37

3.4.2.2	Indian Brook (WC2)	39
3.4.2.3	Saint John River (WC3)	40
3.4.2.4	Fish Species of Conservation Concern.....	41
3.5	Archaeological and Cultural Environment.....	42
3.5.1	Cultural Heritage Resources	42
3.5.2	Archaeological and Cultural Features	43
3.6	Socio-Economic Environment	44
3.6.1	Population and Labour Force	44
3.6.2	Local Economy.....	45
3.6.3	Existing and Historic Land Use.....	46
3.6.3.1	Military	46
3.6.3.2	Industrial.....	46
3.6.3.3	Commercial.....	47
3.6.3.4	Residential	47
3.6.3.5	Cultural/Institutional	47
3.6.3.6	Recreational and Tourism	47
3.6.4	Transportation and Transportation Infrastructure	48
3.6.4.1	Highway	48
3.6.4.2	Rail	48
3.6.4.3	Air	48
3.6.4.4	Seaport	48
3.6.5	Aboriginal Communities.....	48
4.0	Assessment of Environmental Impacts	50
4.1	Approach to the Assessment of Environmental Impacts	50
4.2	Approach to Project Components.....	50
4.3	Project Interaction Matrix	51
5.0	Environmental Effects Assessment and Mitigation	53
5.1	Methodology	53
5.1.1	Potential Impact from Interaction.....	53
5.1.2	Impact Effects Boundaries.....	53
5.1.2.1	Spatial and Ecological Boundaries.....	53
5.1.2.2	Temporal Boundaries	54
5.1.3	Effect Prior to Mitigation.....	55
5.1.4	Mitigation	56

5.1.5	Significance of Residual Effect.....	56
5.2	Atmospheric Environment Results.....	56
5.2.1	Construction Phase.....	56
5.2.1.1	Potential Effects	56
5.2.1.2	Effect Prior to Mitigation.....	58
5.2.1.3	Mitigation	58
5.2.1.4	Significance of Residual Effects	59
5.2.2	Operational Phase	59
5.2.2.1	Potential Effects	59
5.2.3	Accidents and Malfunctions	59
5.2.3.1	Potential Effects	59
5.2.3.2	Effect Prior to Mitigation.....	60
5.2.3.3	Mitigation	60
5.2.3.4	Significance of Residual Effects	61
5.3	Terrestrial Environment	61
5.3.1	Construction Phase.....	62
5.3.1.1	Potential Effects	62
5.3.1.2	Effect Prior to Mitigation.....	62
5.3.1.3	Mitigation	62
5.3.1.4	Significance of Residual Effects	63
5.3.2	Operational Phase	63
5.3.2.1	Potential Effects	63
5.3.3	Accidents and Malfunctions	64
5.3.3.1	Potential Effects	64
5.3.3.2	Effect Prior to Mitigation.....	64
5.3.3.3	Mitigation	64
5.3.3.4	Significance of Residual Effects	65
5.4	Aquatic Environment.....	65
5.4.1	Construction Phase.....	66
5.4.1.1	Potential Effects	66
5.4.1.2	Effect Prior to Mitigation.....	66
5.4.1.3	Mitigation	66
5.4.1.4	Significance of Residual Effects	67
5.4.2	Operational Phase	67
5.4.2.1	Potential Effects	67

5.4.3	Accidents and Malfunctions	68
5.4.3.1	Potential Effects	68
5.4.3.2	Effect Prior to Mitigation.....	68
5.4.3.3	Mitigation	68
5.4.3.4	Significance of Residual Effects	70
5.5	Species at Risk	70
5.5.1	Construction Phase.....	71
5.5.1.1	Potential Effects	71
5.5.1.2	Effect Prior to Mitigation.....	71
5.5.1.3	Mitigation	71
5.5.1.4	Significance of Residual Effects	72
5.5.2	Operational Phase	72
5.5.2.1	Potential Effects	72
5.5.2.2	Effect Prior to Mitigation.....	72
5.5.2.3	Mitigation	73
5.5.2.4	Significance of Residual Effects	73
5.5.3	Accidents and Malfunctions	73
5.5.3.1	Potential Effects	73
5.5.3.2	Effect Prior to Mitigation.....	73
5.5.3.3	Mitigation	73
5.5.3.4	Significance of Residual Effects	74
5.6	Cultural and Heritage Resources Environment	74
5.6.1	Accidents and Malfunctions	74
5.6.1.1	Potential Effects	74
5.6.1.2	Mitigation	75
5.6.1.3	Significance of Residual Effects	75
5.7	Socio-Economic Environment	75
5.7.1	Construction Phase.....	76
5.7.1.1	Potential Effects	76
5.7.1.2	Effect Prior to Mitigation.....	76
5.7.1.3	Mitigation	76
5.7.1.4	Significance of Residual Effects	76
5.7.2	Operational Phase	76
5.7.2.1	Potential Effects	76
5.7.2.2	Effect Prior to Mitigation.....	77

5.7.2.3	Mitigation	77
5.7.2.4	Significance and Residual Effects	77
5.7.3	Accidents and Malfunctions	77
5.7.3.1	Potential Effects	77
5.7.3.2	Effect Prior to Mitigation.....	77
5.7.3.3	Mitigation	78
5.7.3.4	Significance of Residual Effects	78
6.0	Public Consultation	79
	Consultation within DCC/DND	79
	Consultation with Other Departments.....	79
	Consultation with First Nations	79
7.0	Conclusions	81
8.0	Closure	82

Figures

Figure 2-1: Proposed Project Site Location.....	4
Figure 2-2: Site Location Aerial View	5
Figure 2-3: Generalized WTP process	12
Figure 3-1: Protected areas, species at risk and species of conservation concern	28
Figure 3-2: Forest habitat and bird point count areas.....	31
Figure 3-3: Aquatic habitat	38
Figure 3-4: Land Use	49
Figure 5-1: Summary of WTP Impact Assessment Process.....	53

Tables

Table 3-1: Average Daily Temperatures Fredericton Airport Climate Station (Environment Canada, 2015)	19
Table 3-2: Average Precipitation Fredericton Airport Climate Station (Environment Canada, 2015)	20
Table 3-3: Average Wind Data for Fredericton Airport Climate Station (Environment Canada, 2015)	21
Table 3-4: Annual average PM _{2.5} Concentration emissions recorded at the Fredericton Station.....	22

Table 3-5: Estimated CAC emissions from New Brunswick.....	23
Table 3-6: Summary of protected and managed Areas located within 5km of the proposed project activities.....	26
Table 3-7: Summary of flora of conservation concern identified during field investigations and by the ACCDC within a 1 km radius of the project footprint	29
Table 3-8: Summary of wildlife (excluding birds) of conservation concern identified by the ACCDC within a 1 km radius of the project footprint.....	33
Table 3-9: Bird June 2014 Point Count Habitat Summary.....	35
Table 3-10: Watercourses within 30 m of the project Area	37
Table 3-11: Summary of electrofishing results at Indian Brook, August 25, 2014	40
Table 3-12: Fish species of conservation concern known to occur within the Saint John and Oromocto River, identified by ACCDC (2014) and DND Environment (2015)	42
Table 3-13: Population statistics for the town of oromocto and nearby oromocto first nation reserve subregion (statistics canada, 2012).....	45
Table 3-14: Employment statistics for the town of oromocto (statistics canada, 2006).....	46
Table 4-1: Project interaction with environmental components.....	52
Table 5-1: Typical Construction Equipment Sound Pressure Levels at a Distance of 4.5 m (15 ft) from the Receptor ¹	58

Appendices

- A Engineering Study for the Wastewater Treatment Plant and Water Treatment Plant at CFB Gagetown (Draft), CBL, 2012
- B Regulatory Environment
- C Atlantic Canada Conservation Data Center (ACCDC) Report
- D Plant Survey and Wetland Plant Information
- E Bird Survey Report, Jim Wilson, August 2014
- F Site Photos
- G Underwater Video Transcript, Dominator Marine Services Inc., July 2014
- H Archaeological Impact Assessment (Final, June 2014 and Archaeological Field Evaluation and Shovel Testing (Draft), Cultural Resource Management, February 2015
