

Where can I have my well water tested in New Brunswick?

There are many laboratories in the Province that are capable of performing tests on well water. We recommend choosing a laboratory that is accredited by either SCC (Standards Council of Canada) or by CALA (Canadian Association for Laboratory Accreditation).

RPC Analytical Services laboratory is the designated Provincial Analytical Services laboratory in New Brunswick. They have offices in Fredericton and Moncton, and maintain SCC accreditation.

Samples can be dropped off to their offices at the following locations:
