INTRODUCTION

This document is intended as a tool to help guide nurse practitioners (NPs) in the shadow billing process. All practitioners who provide insured services to eligible Medicare patients are required by the New Brunswick Department of Health to submit information to Medicare. The Nurse Practitioner Manual has been created using the New Brunswick Physician Manual as a **guide** as similar rules will be applied per the Medicare System.

WHAT IS SHADOW BILLING?

Shadow Billing refers to the process where non-fee-for-service health practitioners submit claims to New Brunswick Medicare for insured services provided to Medicare patients. Claims are paid at zero. This information is used, in conjunction with data collected from fee-for-service physicians, to maintain a consistent patient history. This consistent history is required to ensure accountability, as well as to monitor and to assist with planning for the future of health care in New Brunswick. It has been mandatory for all NPs, regardless of employment setting, to shadow bill since June 2010; however, NPs began shadow billing on a voluntary basis in 2006. The service codes used at this time were uploaded into a database that was separate from the primary Medicare database. In October 2012, NPs began using the same codes as General Practitioners which allowed the information to reach the Medicare database, thereby ensuring greater consistency in continuity of the patient history. In addition, changes to New Brunswick's Public Health Act require the capture of all immunizations in the Medicare system.

ELECTRONIC BILLING SYSTEMS

Medicare offers an electronic billing system, Medicare Claims Entry (MCE), free of charge to all practitioners. The system is web-based and can be accessed through any computer with an up-to-date web browser (Internet Explorer 11+, Google Chrome 40+, Mozilla Firefox 33+, Apple Safari 8+), and an internet connection. Username and password associated with Regional Health Authority account or Government of New Brunswick (GNB) account is required to access MCE. Please contact the MCE Helpdesk at 453-8274 opt. 4 with any questions or to arrange access.

While Medicare does offer the MCE option for billing, the nurse practitioner is able to choose from any third-party billing systems available for New Brunswick Medicare billing. Be sure to verify with office staff what system is being used in that setting.

SHADOW BILLING TRAINING

Medicare Practitioner Liaison Officers offer training on shadow billing and the Medicare Claims Entry (MCE) billing system to all NPs and their billing staff, free of charge. This training is strongly encouraged and can be scheduled by contacting a Practitioner Liaison Officer at (506)457-6441.

"Refresher" training on shadow billing or on the MCE system is also offered as needed.

GENERAL PREAMBLE

Codes specified are for professional services which are medically required for the diagnosis and/or treatment of a patient, and are not excluded by legislation or regulations but do not include claims for drugs, injectable materials or appliances.

If it is not medically necessary for a patient to be personally reassessed prior to prescription renewal, specialty referral, release of laboratory results, etc., claims for these services must not be made to the plan regardless of whether or not a practitioner chooses to see his/her patients personally or speak with them via the telephone.

MEDICARE INFORMATION

General Points

- Only codes listed in this manual may be used by NPs. Claims submitted with codes that are not listed in the NP Manual will automatically be cancelled by the Medicare System.
- Claims must be submitted within 92 days from the date of service.
- All documentation that supports billing must be retained for 7 years.
- “GP” may appear in the service description of codes being used by NPs in billing systems as the codes were negotiated for General Practitioners. Some service codes in the billing systems may appear differently than below but they are still the appropriate codes to use.
- Codes apply to face-to-face visits unless otherwise specified; appropriate physical examination when pertinent to the service; and ongoing monitoring of the patient’s condition during the encounter.
- Electronic Reconciliation Statements will be available online bi-weekly from Medicare and must be reviewed. Some Third Party billing systems offer reconciliation options but the Reconciliation Statements from Medicare must still be reviewed). (See Reconciliation Section).
- Select the most responsible code. In some circumstances, more than one code may be used (refer to Code definitions, Assessment Rules, and Legend in this manual).

Patients

- (a) **In-province Patient** - If a practitioner renders a service to a patient who presents themselves with a valid New Brunswick Medicare Card an electronic “In-Province” shadow billing claim can be submitted.
- (b) **Out-of-Province Patient** - If a practitioner renders a service to a patient who is a resident of a Canadian province/territory, outside of New Brunswick (with the exception of Quebec), who presents themselves with a valid Provincial Healthcare Card, an electronic “Out-of-Province” shadow billing claim can be submitted.

- (c) **Military/ Quebec Residents / Patients seen at third party request** – If a practitioner renders a service to Military personnel, a patient covered by Quebec Provincial Health Care (RAMQ), at the request of a third party (WorkSafeNB, insurance, work/school requirement, etc.), or for an excluded service shadow billing claims **cannot** be submitted for the service as these patients/services are not insured by New Brunswick Medicare.
- (d) **Expired Medicare Card** - If a practitioner renders a service to a patient with an expired Medicare card, they can still shadow bill the service with the Medicare number but will note the following message on the Reconciliation Statement: “Resident not eligible. Patient to contact Medicare.” The claim will still appear on the nurse practitioner’s statistical information. The patient should be advised to go to Service New Brunswick to have coverage reinstated or to contact Medicare directly. **Please note:** Medicare personnel cannot give any patient Medicare information to practitioner’s offices.
- (e) **Patient not registered with Medicare** - If a practitioner renders service to a New Brunswick resident who is not registered with Medicare, he/she can proceed as follows: The practitioner can assist the patient by advising him to go to Service New Brunswick to obtain a registration form. Having been issued an identification number, the patient should then give this information to the practitioner who can submit an electronic shadow billing claim.

Required information – Electronically Submitted Claims

- Patient’s name
- Patient’s Medicare number
- Patient’s date of birth
- Province of healthcare coverage, if applicable;
- Patient’s sex
- Date of service
- Start time, if applicable (time based codes and emergency department visits)
- End time, if applicable (time based codes)
- Valid diagnosis
- Service code
- Referring/collaborating practitioner number when applicable
- Number of services when applicable (otherwise remains at 1)
- Location
- Vaccine lot number – required if immunization is being administered
- Site code - must be provided for services rendered in hospital emergency department, walk-in clinic, nursing home (if not primary location)

Valid Diagnosis

A valid medical diagnosis is required on all shadow billing claims submitted. The Service Code lets Medicare know **what** was done while the diagnosis must indicate **why** the service was provided.

If a diagnosis has not yet been determined R/O (rule out), or NYD (not yet determined) can be used in addition to what is being ruled out or qualifiers can be used i.e. “family history of _____”, “age related risk factor”. Common abbreviations can also be used in the diagnosis field.

The following diagnoses, in relation to “Well man”/“well woman” and/or “well child”, are accepted, providing the qualifiers below are also entered in the diagnosis line, or where applicable, the appropriate service modifiers are used:

Acceptable Diagnosis	Qualifiers for acceptable Diagnosis
well male with prostate + psa	when accompanied by prostate exam / psa tests + reason - (example: age related / family history, etc)
well woman with breast exam + pap	when accompanied by breast exam / PAP + reason - (example: age related / family history, etc)
Well child <i>*(12 months or older)</i>	Periodic medical exam as part of routine childhood immunizations (only) and / or a routine developmental growth check-up. If the sole purpose of the visit is for the immunization, no office visit should be billed in addition. (Please refer to immunizations not payable in addition to same day consultation or office visit fee)

Referral Date

The Referral Date is required when billing a new Consultation for a patient. The Referral Date is the date the patient was seen by the referring practitioner, which should be indicated on the written referral request, not the date it was received, faxed, or the patient was seen in consultation. The referring practitioner must be active on the date indicated as the Referral Date.

Also, if an NP decides to refer a patient to a physician or another NP for consultation following a visit it is important that the Referring Practitioner, Referral Date, and Type (1 – Referred To) be indicated on the visit claim. There is no separate code for referrals.

EXCLUDED SERVICES

Certain services are excluded from the range of insured services under Medicare, namely:

- (a.04) removal of minor skin lesions, except where the lesions are or are suspected to be precancerous
- (b) medicines, drugs, materials, surgical supplies or prosthetic devices;
- (c) vaccines, serums, drugs and biological products listed in sections 106 and 108 of New Brunswick Regulation 88-200 under the *Health Act*;
- (d) advice or prescription renewal by telephone which is not specifically provided for in the Schedule of Fees;

- (e) examinations of medical records or certificates at the request of a third party, or other services required by hospital regulations or medical by-laws;
- (f.1) services that are generally accepted within New Brunswick as experimental or that are provided as applied research;
- (f.2) services that are provided in conjunction with or in relation to the services referred to in paragraph (f.1);
- (h) testimony in a court or before any other tribunal;
- (i) immunization, examinations or certificates for purpose of travel, employment, emigration, insurance, or at the request of any third party;
- (r) complete medical examinations when performed for the purpose of a periodic check-up and not for medically necessary purposes;

ASSESSMENT RULES

Assessment Rules dictate how shadow billing claims will be processed by the Medicare System. Nurse Practitioner claims are subject to the same assessment rules as physicians.

Rule 1 Services rendered for or at the request of a third party are not entitled services under Medicare.

Rule 2 Consultations, examinations or written reports for medico-legal purposes are not entitled services under Medicare.

Rule 3 Certification for a driver's license is not an entitled service under Medicare.

Rule 4 Mileage is not an entitled service under Medicare, except as specifically provided for in the Schedule of Fees.

Rule 5 Telephone advice is not an entitled service under Medicare

Rule 6 Services listed in Schedule 2 of the Regulations under the *Medical Services Payment Act* are not entitled services under Medicare.

Rule 10 Visit codes cannot be submitted for days on which a nurse practitioner provides psychotherapy services to a patient (or vice versa) except when the visit is for a consultation.

Rule 11 Shadow billing claims for a consultation under Medicare will be adjusted to a non-referred office visit if the recorded medical history for the patient does not indicate a prior service rendered by the practitioner shown on the consultant's claim form as the referring practitioner.

Rule 12 If a sickness-related complete physical examination has been performed on the patient by the same nurse practitioner in the preceding 42 days a second complete medical examination may not be shadow billed.

Rule 13 When the performance of a List A or List B procedure is the sole purpose of attendance in an emergency department, the procedure alone should be shadow billed. Also, if any visit or consultation has been submitted during the preceding 30 days, no further visit may be claimed on the day of the List A or B procedure.

Rule 17 Detention: The total time (visit + detention) spent with the patient must be provided using the start time of the visit to the end time of the detention. Number of services will represent extra time above and beyond initial service.

Rule 28 For surgical procedures (List D) the normal postoperative period will be taken as 30 days.

Rule 30 When more than one List A or List B procedure is done, the fee for the principal procedure will be paid in full and the additional procedure, when payable, will be paid at 75% of the appropriate fee.

RECONCILIATION STATEMENTS

Nurse Practitioners have a responsibility to ensure the accuracy of information entered into the Medicare database. This is done by accessing the electronic Practitioner Reconciliation Statement and through shadow billing reports sent to NPs that summarize services provided to patients by NPs.

Reconciliation Statements

Reconciliation statements can provide valuable billing feedback and indicate cancelled claims that need to be resubmitted.

Reconciliation Statements can be accessed through the Electronic Communications to Physicians (ECP) website (<https://hps.gnb.ca>). The website also contains the Practitioner Run Schedule, Service Provider Reference List, and general communication from Medicare to Practitioners. The Department of Health does not distribute these documents via non-electronic methods. While some Third Party billing systems offer reconciling options within the billing system practitioners still must review their Medicare Reconciliation Statement through ECP to ensure accuracy.

In order to access ECP website, NPs are required to have a username and password that is associated with their Government of New Brunswick (GNB) account or with a Regional Health Authority account. Please contact the IT Helpdesk in your region for questions regarding this (see ECP User Guide).

If a nurse practitioner chooses to have a delegate submit shadow billing claims and access Reconciliation Statements on their behalf they must complete a “**Medicare Account Delegate Authorization Form**” which will provide the delegate with their own access to the ECP website.

This form can also be obtained through the GNB website or through Medicare Payments. Please refer to your contact information sheet at the end of the manual.

The Practitioner Run Schedule indicates the cut-off dates for claim submissions (every second Thursday at 8:00am). Claims submitted prior to this cut-off date will appear on statements the following week (available Tuesdays).

The *Claims* section of the Reconciliation Statement identifies claims that have been processed appropriately by the Medicare System with the message “History Claim, Paid at zero”. If changes need to be made to claims listed in this section (i.e. change to service date or code) please **do not** resubmit a new claim electronically. Adjustments can be made in writing to Practitioner Enquiries (see contact information).

The *Claims to Correct* section of the Reconciliation Statement identifies the cancelled claims with an accompanying message to indicate what information is incorrect or incomplete. If these cancelled claims are not resubmitted as new electronic claims with corrected information within 92 days from the statement date the services will not be accounted for in the NP’s statistical information (Shadow Billing Report).

The *Outstanding Claims* section of the Reconciliation Statement identifies claims that have not been processed yet. These claims will appear on a future statement either under the *Claims* section or *Claims to Correct* section once they have been processed.

Additional questions regarding the Reconciliation Statements can be directed to Practitioner Enquiries.

NURSE PRACTITIONER MONITORING AND COMPLIANCE

General information

The services submitted by nurse practitioners to Medicare are subject to verification. This in no way implies criticism of persons providing or receiving services but assists in maintaining an efficient public program and as a check to confirm that information is recorded correctly. Reviews, audits and monitoring are conducted in a strict confidential environment.

Documentation is an integral component of a medical service. Good medical records enhance quality and continuity of care and provide protection for both patient and practitioner.

All claims submitted to NB Medicare must be verifiable by patient records with respect to the service performed and claimed. If such records cannot be produced and a suitable explanation cannot be provided, then the specific service involved will be deemed invalid. A nurse practitioner shall make every effort to provide or make available, upon request by Medicare, patient records to clarify or verify services submitted.

For Medicare monitoring purposes, a practitioner must maintain records to support his/her claims to NB Medicare for a period of seven years.

1. Records standards

A clinical record of a service must include (at a minimum) the following legible information:

- Patient name, Medicare #, Date of Birth, Sex
- Date of Service
- Diagnosis/Reason for the service, i.e. Presenting complaint
- Name of referring practitioner, where applicable
- Name of Consultant, if referred
- Findings/evidence of physical examination (part or region) or emotional disorder– if applicable.
- Plan of investigation or treatment (including medications, if applicable)
- For procedures, in addition to the above, a brief description of the service performed should be included.
- For time based codes, e.g. Counseling, the start time and duration is required.
- For time of day codes, i.e. Emergency visits, the time of day is required.
- For procedures, in addition to the above; a Clinical Record/ Procedural Report or another type of supporting document providing the details of the procedure performed, including pathology reports (when applicable) must be included.

2. Interval

- All practitioners will be audited on a random basis.
- Non-random audit will be conducted as warranted, based on utilization review or other data.

NURSE PRACTITIONER SERVICE CODES		
Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
10	MAJOR / REGIONAL CONSULTATION	<p><i>Used when NP sees a patient for the first time based on a referral from a physician, nurse practitioner, or another approved professional due to the complexity of the situation and the NP's extensive knowledge in the area. A formal written referral request and consultation report is necessary.</i></p> <p><i>A consultation refers to a full history of the presenting complaint and detailed examination of the affected part(s), region(s) or system(s) as needed to make a diagnosis, exclude disease and/or assess function on a patient previously assessed by the referring nurse practitioner or physician or; will include a review of pertinent x-ray and laboratory data and such special examinations as are considered to be essential to a complete assessment in this specialty. The consultant's opinion and recommendations shall be submitted to the referring practitioner in writing.</i></p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<p>Required on claim: Referring Practitioner #, Date of Referral (date patient was seen by referring practitioner), and Type 2 – Referred From.</p> <p><i>Code 10 cannot be billed more than once in a 30 day period and is not used for follow-up visits for referred patients. Code 10 should also not be used in the instance that the patient is referred to the NP for a procedure as the NPs opinion is not required.</i></p> <p><i>If consultation exceeds 1 hour, Code 200 may apply to extra time.</i></p>
1	OFFICE VISIT	<p><i>Used for a face-to-face encounter, within the context of a community-based family practice, for diagnosis and treatment of a medical complaint. The NP maintains a comprehensive patient chart to record all encounters, provides all necessary follow-up care for that encounter, and takes responsibility for initiation and follow-up on all related referrals, including referrals to specialists.</i></p> <p><i>Examples of activities/interventions included in the initial visit claims that should not be shadow billed under additional codes or services are: follow-up phone calls to patients, ordering additional blood work, maintaining files, updating files, informing another healthcare provider about a patient's health status and advocacy on behalf of a patient with mental illness. These services are considered part of the Office Visit.</i></p> <p><i>Outreach services are included in Code 1, as they are considered an extension of an office visit.</i></p> <p><i>If time spent with the patient exceeds 30 minutes, Code 200 - Detention can be considered. Note: It is recognized that not all visits require 30 minutes.</i></p> <p><i>Do not bill Code 1 in addition to another visit or consultation.</i></p> <p><i>Not for use by NP working in nursing home as their primary location.</i></p>
8101	SENIOR'S OFFICE VISIT	<p><i>Refers to complex case assessment for seniors 70 years of age and over, presenting with multiple systems pathology and may include medication review, as required. (Used in place of Code 1 if patient meets the above requirements).</i></p> <p><i>When Shadow Billing Code 8101 is used for the first time, multiple pathology must be indicated in the Diagnosis field.</i></p> <p><i>On subsequent submissions of Code 8101, presenting complaint only is required.</i></p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<p><i>Not for use by NP working in nursing home as their primary location.</i></p>
3	WALK-IN-CLINIC - VISIT	<p><i>Refers to a visit that occurs in a location designated as an after-hours walk-in that has an established site code that has been issued by the Department of Health (300 series).</i></p> <p><i>Does not apply to unscheduled walk-in patients at CHCs or community practices.</i></p> <p><i>To determine if a setting has been designated as an after-hours walk-in clinic, contact Practitioner Enquiries and Liaison Services (see contact list provided in NP Training Manual).</i></p> <p><i>Use appropriate office visit codes (1; 8101) for walk-in visits at Community Health Centres or community-based practices as Code 3 does not apply in this instance.</i></p>
7	COMPLETE EXAMINATION	<p><i>Refers to visits where patient presents with symptoms that require multiple systems exam to make a diagnosis.</i></p> <p><i>To meet the requirements of service code 7, a complete examination must comprise at least the following:</i></p> <ul style="list-style-type: none"> <i>-Taking or updating full past patient history (including family history)</i> <i>-Physical examination of multiple pertinent major body systems</i> <i>-Keep a written record of all findings, lab work, advice, treatment.</i> <p><i>For NPs accepting new patients in an established practice or new practice, code 7 may be claimed at the first visit only if the complete examination is warranted by the nature of the presenting complaint(s). Code 7 cannot be claimed for routinely doing a complete assessment of a new patient.</i></p> <p><i>Service code 7 does not apply to a complete examination for the purpose of a periodic check-up, or to a third-party request, as these are excluded services under Medicare. Third-party requests include examinations done in connection with employment, insurance, legal proceedings, admission to educational institution or camp and similar requests.</i></p>
200	DETENTION (per 15 minutes)	<p><i>For use when the NP is required to spend considerable extra time in immediate attendance on the patient (and to the exclusion of all other work).</i></p> <p><i>This code applies only after the appropriate time for a visit has elapsed:</i></p> <ul style="list-style-type: none"> <i>-30 minutes for any visit (ex: codes 1, 8101, 3, 16, 19, 5, 2001, 9, 4, 2021, 2858)</i> <i>-1 hour for consultation /complete examination (ex: codes 10, 7, 2000, 15)</i>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<p>The billing of the detention claim must indicate the total time including start time, end time, and number of services (per 15 mins):</p> <p>Start time = start of initial service (visit, consult, etc) End time = end of contact with patient Number of services = number of 15 minute intervals for extra time above and beyond initial service only (as outlined above)</p>
15	PRENATAL COMPLETE EXAMINATION	Refers to the first complete prenatal exam after pregnancy has been diagnosed. Billable once per pregnancy.
16	PRE / POSTNATAL VISIT	Refers to pre or postnatal visit, other than the first complete exam.
19	WELL BABY CARE	<p>Refers to growth and developmental examinations of a healthy baby until 12 months of age (includes instructions regarding health care).</p> <p>If the baby is being seen for a medical reason Code 1 would be used.</p> <p>Routine immunization codes can be used in addition to this code per the Public Health Immunization Schedule.</p>
8803	PATIENT NO-SHOW (per 15 minutes)	<p>Refers to occasions when a patient did not present for an appointment.</p> <p>Valid diagnosis is required. If the diagnosis is not available, indicate "Patient No-Show" in the diagnosis field.</p> <p>Even though patient did not present themselves this code requires start time, end time, and number of services per 15 minutes.</p> <p>Ex: Start time = time patient was scheduled End time = time next patient was seen or next patient was scheduled (i.e. 15 mins)</p>
20	PSYCHOTHERAPY (per 15 minutes)	<p>Refers to therapeutic interaction between an NP and patient, to provide counseling and address issues/concerns related to mental health, psychological and emotional well-being.</p> <p>This code requires a start time, end time, and number of services per 15 minutes (reflecting total time per 15mins).</p> <p>Code 20 cannot be billed on the same day as a visit (1, 8101, etc...).</p> <p>A key consideration in selecting the appropriate code: If the primary reason for the visit is psychological, use Code 20 Psychotherapy.</p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<p><i>If the visit is primarily an assessment, use the visit code.</i></p> <p>Use visit code, instead of Code 20 when:</p> <ul style="list-style-type: none"> • <i>Establishing initial diagnosis, i.e. the patient's assessment includes a history, physical examination and/or lab investigation in order to eliminate or identify potential organic causes.</i> • <i>Seeing the patient for reassessment and/or adjustments to the treatment plan, for example, when modifications to pharmaceutical treatment are made.</i> <p><i>When psychotherapy is part of the treatment of the patient without any other type of intervention on the NPs part during the encounter in question, code 20 would be more appropriate to shadow-bill than a visit code.</i></p>
2858	EMERGENCY VISIT - OFFICE	<p><i>Refers to bona fide emergency visits that are made to the office (NP's primary location). An emergency visit refers to a situation where the demands of the patient and/or the NP's interpretation of the condition require immediate response at the sacrifice of regular office hours or routine.</i></p> <p><i>Immediate response is the intended controlling feature. Immediate attendance because of personal choice or availability of the NP is not considered an emergency visit. Urgent visits for acute or chronic conditions, which do not interfere with routine medical practice, do not constitute emergency visits.</i></p> <p><i>This code does not apply to unscheduled walk-ins, home visits, nursing homes visits (unless nursing home is the NP's primary location of practice) or to visits in an outpatient department (unless the OPD is considered an extension of the NP's primary location of practice) or emergency department.</i></p> <p><i>All claims for emergency based visits must show the time of day the services were rendered (Indicate in Start Time field).</i></p>
2 List C	INJECTION (List C Procedure)	<p><i>Refers to administration of intradermal, intramuscular, subcutaneous and therapeutic injection</i></p> <p><i>This code cannot be billed in addition to other services such as a visit code. If the patient presents themselves for another medical reason aside from the injection a visit code should be used instead of Code 2.</i></p> <p><i>Ex: B12, Depo-Provera</i></p> <p><i>Note:</i> <i>Excludes immunizations. Use individual codes assigned for vaccines.</i></p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
1898 List C	ANTICOAGULANTS (List C Procedure)	<p>Refers to telephone supervision of long term anticoagulation therapy. (Service rendered by telephone).</p> <p>Note: Code can only be used once per month per patient regardless of how many times the NP calls the patient during the month.</p> <p>A valid/acceptable diagnosis must be provided in the diagnosis field. Code 1898 is not on the same day as a visit or consultation.</p>
2021	EMERGENCY ROOM VISIT	<p>Refers to all patients seen by NP during a scheduled shift in the ER or Urgent Care centre.</p> <p>Code requires time of day (start time), site code, and location 3 must be used. Procedure codes may be added (refer to the Legend and Rule 13).</p>
4	HOME VISIT	<p>Refers to medically necessary visit to a patient at his/her personal residence, including special care homes. This does not apply to patients in nursing homes.</p> <p>Location 4 must be entered on all claims submitted for services provided at home.</p> <p>Location 9 must be entered on all claims submitted for services provided in a special care home.</p> <p>For Medicare purposes, the civic address of the special care home is considered the personal residence of the patient.</p> <p>No site code is needed.</p>
5	HOME VISIT, ADDITIONAL PATIENT	<p>Refers to any additional patients seen during home/special care home visit at same civic address</p>
2000	PRE-ADMISSION NURSING HOME COMPLETE	<p>Refers to complete examination required before client can be admitted to Nursing Home to determine level of care required (Preadmission Form).</p> <p>Note: Not open to nursing homes as exam must be done prior to being admitted to the nursing home. Service may be billed from the office, home, or special care home if Preadmission Form is completed.</p>
2001	NURSING HOME VISIT	<p>Refers to first patient seen during a visit to a designated nursing home.</p> <p>Location 2 and Site Code are required.</p>
9	NURSING HOME VISIT, ADDITIONAL PATIENT	<p>Refers to on-site visit to resident of a nursing home, other than the first resident.</p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<i>Location 2 and Site Code are required.</i>
1893	ATTENDANCE FEE - VICTIMS OF ALLEGED SEXUAL ASSAULT	<p><i>Refers to services provided to sexual assault victims.</i></p> <p><i>Includes examination and early attendance to include necessary examinations, medical attendance and patient counseling, as well as taking of specimens, completion of reports and forms and other medico-legal requirements and liaison with other parties. (Rape Kit must be used to use this code).</i></p> <p><i>Add a detention if service exceeds two (2) hours.</i></p>
193	PATIENT COUNSELING (per 15 minutes)	<p><i>Refers to discussion with a patient on health matters dealing with the "family" unit, such as marriage counseling, contraceptive advice and sexually transmitted diseases.</i></p> <p><i>This code cannot be used in addition to a visit or a consultation and detention cannot be applied.</i></p> <p><i>Code requires start time, end time, and number of services per 15 minutes (reflecting total time).</i></p>
216	FAMILY COUNSELLING (per 15 minutes)	<p><i>Refers to discussion of a patient's health with family member(s) when necessary for a treatment decision or for arranging support services. The patient is not present.</i></p> <p><i>This service code applies when the counseling of a family member is necessary in order for the family to make a treatment or placement decision (ex: DNR, admission to nursing home) on the patient's behalf for patients with severe life-threatening conditions or major chronic health problems.</i></p> <p><i>Service is billed under the patient's Medicare number with the following information indicated in the diagnosis field: the patient's actual diagnosis, who the discussion was with (relationship to patient), and what was discussed (treatment, placement, etc.).</i></p> <p><i>Code requires start time, end time, and number of services per 15 minutes (reflecting total time).</i></p> <p>Explanatory notes:</p> <p><i>a) Only informing or discussing with family members a patient's condition, as opposed to formal counseling, even in cases of serious illness is considered to be included in patient care fees, and such exchanges cannot be billed to Medicare.</i></p> <p><i>However, if counseling of the family member themselves is required the services would be billed under that family member's Medicare number.</i></p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<i>b) Except as provided under certain specific codes, the fees for attending children include any exchanges with accompanying persons whenever the interview, advice, etc. would take place with the patient alone were it not for his/her age. More particularly, family counseling fees do not apply to the parents unless they obtain true counseling in serious circumstances as outlined in the above definition.</i>
211	CASE CONFERENCE DEALING WITH FAMILY VIOLENCE (per 15 minutes)	<p><i>Refers to case conference with allied health workers and teachers on behalf of the patient, where suspected family violence is an issue.</i></p> <p><i>Code requires start time, end time, and number of services per 15 minutes (reflecting total time).</i></p>
8104	CASE CONFERENCE WITH GP (per 15 minutes)	<p><i>Refers to case conference between collaborating physician and NP (in person or by telephone) to review care and treatment plan/decision for continuing care in the collaborative model.</i></p> <p><i>Both parties bill this service. Must indicate Service Provider Number of GP in the "Referring Physician" field.</i></p> <p><i>Code requires start time, end time, and number of services per 15 minutes (reflecting total time).</i></p>
8105	PATIENT TRANSFER TO GP (per 15 minutes)	<p><i>Refers to time spent with physician (in person or by telephone) to review care and treatment plan of a patient when the patient is transferred to the care of the collaborating physician.</i></p> <p><i>Both parties bill this service. Must indicate Service provider Number of GP in the "Referring Physician" field.</i></p> <p><i>Code requires start time, end time, and number of services per 15 minutes (reflecting total time).</i></p>
ADMINISTRATIVE CODES		
<p>When indicated below "dummy patient" may be used in place of actual patient information. Use the Medicare # 11111126. The Name (Services, Admin), DOB (01/01/2005), and Sex (M) will automatically populate with Medicare #.</p>		
8801	PATIENT-CENTERED CARE CONFERENCE (per 15 minutes)	<p><i>Refers to meetings between interdisciplinary team to discuss one or multiple patients. Meetings may be face-to-face or by audio/video conference.</i></p> <p>Note: <i>This is separate from the collaborating codes 8104 and 8105.</i></p> <p><i>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required).</i></p>
8802	CLINICAL TEACHING	<i>This code refers to time spent teaching students of a health related discipline concerning a specific patient in a primary care setting.</i>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		<p>Patients may be present or teaching may follow the clinical patient service. This code is meant to reflect the EXTRA time it takes to do this teaching in addition to the normal clinical care.</p> <p><i>This code may be used with specific patient information including a valid Medicare number and a diagnosis OR by using the Medicare # 11111126, and is billed in 15 minute increments,</i></p> <p>Example: If teaching is done during the encounter with the patient or after several patients are seen in a primary care setting:</p> <ul style="list-style-type: none"> • Bill the normal clinical services provided during the encounter with the patient in a primary care setting (ex: visit). • Bill Code 8802 in addition ONLY for the additional time spent <u>over and above what it would normally take to render the service.</u> • Additional time spent must be at least 15 minutes and billed in 15 minutes increments. <p>Two options for billing 8802:</p> <ul style="list-style-type: none"> • Code 8802 can be billed against each individual patient if teaching follows the clinical service or occurs during the service and takes more than 15 minutes above and beyond the clinical service to the patient. (ex: Patient X – code 1 + Code 8802 x 2; Patient Y – Code 1 + Code 8802 x 1) <p>OR</p> <ul style="list-style-type: none"> • The extra time spent teaching throughout the whole day can be added together and billed once as Code 8802 using the “dummy patient” 11111126 even if the teaching did not last 15 minutes per patient. (ex: Patient X – Code 1; Patient Y – Code 1; Dummy patient – Code 8802 x 3)
8893	INDIRECT PATIENT CARE	<p>This code is used for any solo activities related to patients when patients are not present.</p> <p>This code does not require a valid Medicare number: Use Medicare #11111126. Total time is required to be identified in the Count.</p> <p>Examples:</p> <ul style="list-style-type: none"> • Reviewing charts, laboratory results or patient history. • Telephone contact with patient. • Updating patient charts, dictation, or literature review pertaining to treatment or diagnosis of a patient. • Contacting a pharmacy regarding a prescription renewal.
8805	COMMUNICATION WITH ALLIED HEALTH PROFESSIONAL RE.	<p>This code can be billed when a nurse practitioner initiates or receives written, verbal, or electronic communication (i.e. fax, email) with an allied health professional regarding a specific patient. This</p>

NURSE PRACTITIONER SERVICE CODES

<i>Service Codes/List</i>	<i>Service Code Definition</i>	<i>Nurse Practitioner Code Description</i>
	PATIENT	<p>communication must relate to the management of a specific patient and represent a reasonable amount of time that is spent communicating about a specific patient. This excludes routine communication with team members who are part of the usual care team for that patient at that time (as this represents usual patient care).</p> <p>This code requires specific patient information including a valid Medicare number, start/end time, count per 15 minutes, and a diagnosis.</p> <p>Examples: Contact with Adult Protection Services, another nurse practitioner or physician, the Department of Social Development, an allied health professional working outside the facility, nursing home staff or special care home staff (this is not an exhaustive list).</p>
8886	INDIVIDUAL OR GROUP TEACHING	<p>This code refers to teaching any type of learners on an individual or group basis. This code differs from Code 8802 (Clinical Teaching) as it is not to be used for teaching during the encounter with the patient, patient-centered teaching, or “hands-on” teaching.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required).</p> <p>Examples: Presentations at grand rounds, journal club, case review sessions. There may be other nurse practitioners, medical or nurse practitioners students or other allied professionals present at these sessions.</p> <ul style="list-style-type: none"> • Educational sessions offered by nurse practitioners to members of the community and/or to a group of patients (e.g. regarding chronic diseases management, Crohn’s disease, cancer). • Presentations to nurse practitioner students/residents on a variety of topics. • Classroom teaching for NP Program courses. • The preparation time for these teaching sessions can also be shadow-billed using this code.
8887	ADMINISTRATIVE DUTIES	<p>This code is used for administrative duties such as scheduling program development and day to day activities related to managing an office.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required)</p> <p>Examples:</p>

NURSE PRACTITIONER SERVICE CODES

Service Codes/List	Service Code Definition	Nurse Practitioner Code Description
		For non-clinical administrative work; such as reviewing NP's own mail and paperwork (e.g. filling out forms), contact with IT services, scheduling of shifts, vacations and rotations with colleagues.
8888	RESEARCH	<p>The New Brunswick Regulation 84-20 (Schedule 2, f.1 and f.2) under the <i>Medical Services Payments Act</i> indicates that Medicare does not pay for applied research and services that are provided in conjunction with or in relation to applied research; however, this code is to be used when the nurse practitioner is required to spend time in the design and participation of research projects <u>as directed by the employer</u>.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required). The diagnosis field must be used to indicate the nature of the research.</p>
8890	PROFESSIONAL DEVELOPMENT	<p>This code is used for activities that develop the nurse practitioner's professional skills and knowledge related to the medical field.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required).</p> <p>This may include attendance at grand rounds, case presentations, journal clubs, or events that are organized within the facility where the NP is employed, organized by the employer or departments with the intention of developing and maintaining knowledge or skills in a professional area. Examples of such activities, but not limited to are:</p> <ul style="list-style-type: none"> • Continuing Professional Development activities • Activities designed to maintain certification <u>required by the employer</u> such as CPR, ACLS, etc. • Nurse Practitioners who are on leave when they travel to a conference supported by the employer and include the travel time and the conference time. • Any activities designed to monitor the quality of care/service delivery for a department/facility.
8891	MEETINGS AND COMMITTEES	<p>This code is used when attending or preparing for a meeting or committee, <u>as directed by the employer</u>, but does not apply to travel time related to committees or meetings.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required).</p> <p>Examples: Department/program/facility meetings or other related committee meetings that the nurse practitioners attend as part of their usual</p>

NURSE PRACTITIONER SERVICE CODES

		employment.
8892	TRAVEL	<p>This code is used when travelling during working hours in order to provide services to patients or attend a required meeting <u>as directed by the employer</u>.</p> <p>This code does not require a valid Medicare number: Medicare #11111126 is used, and is billed for 15 minute increments (start time, end time, and count per 15 minutes is required)</p> <p>Examples: Travelling to conduct or participate in a clinic or attend a required meeting.</p> <p>This code does not apply for travel between home and work.</p>
8804	UNPLANNED DOWN TIME	<p>This code is used when the nurse practitioner is unable to perform scheduled activities due to a patient not presenting themselves for an appointment or other unforeseen circumstances (e.g. equipment malfunction, storm, etc.) and the nurse practitioner is unable to fill the down time with another activity or service (i.e. paperwork).</p> <p>This code requires specific patient information including a valid Medicare number, a diagnosis, the start/end time, and count per 15 minutes. If the diagnosis is unavailable, indicate "Patient No-Show". Medicare #11111126 may be used if the unplanned downtime is unrelated to a specific patient.</p> <p>If the Unplanned Down Time is a result of a patient not presenting themselves for an appointment, this code would be used in addition to Code 8803 (Patient No-Show).</p>

LEGEND

All procedures listed have been assigned a letter code (A, B, C or D) under the heading "List" to identify how they are processed by the Medicare System. The meaning of these letters is as follows:

"A" & "B" - List A and B procedures may be shadow billed in addition to a visit, consultation, or another List A or B procedure (service with lower fee billed at 75%) on the same day. List B procedures can also be shadow billed in addition to List D procedures (at 75%).

NOTE: Rule 13 - When the performance of a List A or List B procedure is the sole purpose of attendance in an emergency department, the procedure alone should be shadow billed. Also, if any visit or consultation has been submitted during the preceding 30 days, no further visit may be claimed on the day of the List A or B procedure.

“C” - List C procedures **cannot** be shadow billed in addition to same-day visits, consultations, or procedures. They are considered “stand alone” procedures.

“D” - List D identifies surgical procedures, which carry 30-day pre and postoperative restrictions. Consultations and List B procedures can be billed on the same day but no visits can be billed 30-day prior to the List D procedure or 30 days after.

IMMUNIZATIONS

Only those immunizations covered by Medicare require Shadow Billing. For immunizations **not** covered by Medicare, there is no need to Shadow Bill.

The attached list of vaccines has been provided by Public Health Services. Vaccine Lot Number is required for all immunizations billed. Only active lots can be submitted.

Submit a claim for each immunization given.

Claims for the provincially funded immunizations require that these billings:

1. Meet the criteria for vaccines supplied by the Public Health Services;
2. The vaccine lot number must be indicated in the appropriate field designated for this purpose on the electronic claim. Lot number must be active on date of service.

Note: When the location is invalid for the Service Code used, submitted claims get pulled out for manual review by Medicare, and may be cancelled.

Immunizations **with a visit** are open to locations 1, 4 and 9.

Immunizations **without a visit** are open to locations 0, 1, 2, 3, 4 and 7.

This section also contains information regarding **Eligibility Criteria for Publicly Funded Vaccines/Biologics** and Hepatitis guidelines.

FREQUENTLY ASKED QUESTIONS

Cancelled Claims

What do I do when a claim has been cancelled by Medicare?

If a claim appears on the “Claims to Correct” section of the NP’s Reconciliation Statement, it has been cancelled and will not appear in the shadow billing statistics.

Review the message below the cancelled claim to determine if the claim needs to be resubmitted with corrected information. If a claim has been cancelled because it is against an Assessment Rule or is a duplicate claim, it should not be resubmitted. Otherwise, the claim should be submitted as a new electronic claim with the corrected information as indicated in the message.

Location Code

What location code is appropriate to use?

The location code refers to the location the service was rendered. With the exception of NPs who work in the ER (Location 3), “Location 1 – Office” will be used for the NPs primary location.

Location 1 – Office; Location 2 – Nursing Home; Location 3 – Emergency Room ; Location 4 – Home ; Location 9 – Special Care Home; Location 11 – Sexual health Clinic.

If a nurse practitioner’s time is divided equally between two nursing home facilities, Location 1 is used for claims rendered in either location.

If a nurse practitioner works primarily in one nursing home but also renders services at another Location 2 would be used for the secondary nursing home along with the appropriate site code.

Site Codes

When do I use site codes and service codes?

Site codes are not required for the majority of nurse practitioner codes as the services are rendered in the office location. Site codes are required for services rendered in the Emergency Room, designated walk-in clinics, and nursing homes (when they are not the NPs primary location). Site codes are not required for Community Health Centres.

Group Sessions

Is there a code for group/health promotion sessions?

Yes, Code 8886 – “Individual or Group Teaching” may apply.

New Patients

Is there a code for a new patient or for opening a new file on a patient?

No, this is included in visit, consult, or complete exam code. Medicare can track new patients based on patient history. A complete exam cannot be routinely claimed for doing a complete assessment of a new patient and/or comprehensive initial documentation unless it meets the criteria outlined under Code 7 – “Complete Exam”. If the visit takes more than 30 minutes or the complete exam takes more than 1 hour, Code 200 – “Detention” may apply.

Advocacy

Is there a code to use when a nurse practitioner advocates on behalf of a patient with mental illness?

No, this is considered part of a visit/consult code. If the patient is present and advocacy takes more than 30 minutes, Code 200 – “Detention” may be used.

Special Tests – i.e. Ankle Brachial Index, Spirometry Testing

Is there a code for special tests such as ankle brachial index or spirometry testing?

No, Ankle Brachial Index and Spirometry testing are part of a visit, complete exam, or consultation code. There is not a separate code for tests unless otherwise specified.

Immunizations

Are all immunizations recorded in shadow billing?

No, only those immunizations covered by Medicare require Shadow Billing. As an example, Zostavax is not covered by Medicare, so it should not be shadow billed. Immunizations for travel purposes and immunizations outside the Public Health regulations should not be shadow billed.

Does the nurse practitioner shadow bill for an immunization, even if she does not actually give it?

Yes, this is a requirement of Public Health for publicly funded vaccines. NPs should be advised that ordering immunizations alone can't be shadow billed; however, the administering of immunization and/or the on-site supervision of registered nurses who administers the immunization would qualify as services that should be shadow-billed. The date of service should be the date of the administration and not of the ordering of immunizations.

Pap Tray Fees

When a Pelvic exam is done, why bill for a Pap tray fee for a specific test (Pap test) rather than a procedure?

This is an exception and is one way of showing women's health interventions.

NB: Code 1999 *Tray Fee For Office Pap Tests* is an add-on code to either an office visit, a consultation fee or minor procedures/surgery (i.e. IUCD insertion, removal of cervical polyp, etc.) **when a pap smear is actually performed.** It is not intended as a tray fee for any other procedure when a pap smear is not performed (i.e. IUCD insertion alone).

Provision of information to care providers

Is it possible to capture information sharing regarding patients? Example: A NP cares for a patient in a Special Care home (SCH). The patient was discharged from the hospital and the SCH worker requests the NP to call in regard to the patient's care?

Yes, Code 8805 – “Communication with Allied Health Professionals” will advise Medicare that information is being shared with another health professional regarding a specific patient.

Manual Forms

Are manual forms available to resubmit codes not accepted in Purkinje?

No, manual forms are not an option. Users should contact the FacilicorpNB representative in their region with questions regarding resubmission or any other Purkinje related questions/concerns.

Purkinje and Medicare Shadow Billing databases

Is all shadow billing information from Purkinje crossing to the Medicare shadow billing database?

These data were reviewed with nurse practitioners who had questions. No errors were found, therefore, it appears that Purkinje information is being captured accurately.

SERVICE PROVIDER NUMBER

What is a Service Provider Number?

A newly employed NP must complete and submit an “Application for Nurse Registration” to Medicare. The Medicare Service Provider Registrar will issue a letter of confirmation, along with Medicare Service Provider Number for the purpose of submitting Shadow Billing Claims. This process generally takes 3-5 weeks. The Service Provider Number is also the NP’s Medicare Account number.

Medicare offers training to NPs on the submission of shadow billing claims as well as the use of Medicare Claims Entry (MCE) billing system. Submission of claims through other independent providers is not part of the training provided. Once an NP has received confirmation of registration from the Service Provider Registrar and has received a Medicare Service Provider Number, he/she should contact a Medicare Practitioner Liaison Officer at (506) 457-6441 to arrange training. See additional information under “*What is a prescriber number?*”

Service Provider Reference List

Do I need to report changes to my name or address?

It is important to report any name or address change as soon as possible to the Service Provider Registrar in order to ensure that the information is current. To change your information, contact the Medicare Registrar, by e-mail at Medicare.Practitioner.Registrar@gnb.ca, or by telephone at 506-444-5376.

The Service Provider Reference List is available on the ECP website and is updated periodically. Any name changes are updated in the system as soon as the Service Provider Registrar receives the information. Please note: when referring patients to other practitioners please indicate the name registered with Medicare on the referral in order for the other practitioners to find the appropriate service provider number.

If you are unable to locate the name of a referring practitioner on the Service provider list, contact Practitioner Enquiries or Physician Liaison Services to obtain the information (see contact list provided in NP Training Manual).

Prescriber Number

What is a prescriber number?

As of May 3rd, 2016 the government of New Brunswick no longer issues a prescriber number. Instead of a prescriber number, nurse practitioners will be identified in the system, by their NANB registration number. Therefore, NPs are to include their registration number from NANB when filling out prescriptions

Note: The Prescriber Number is different from the Service Provider Number.
