On all other highways in the Province not listed in Items 3 and 4 of this Notice, vehicles may be operated with each axle weight not exceeding eighty percent (80%) of the axle weights, as specified in Regulation 2001-67 as amended from time to time made under the Motor Vehicle Act, Chapter M 17, provided that each axle weight does not exceed that upon which the registered vehicle weight of the vehicle is based.

6. Should extensive deterioration occur on any highway, the Minister of Transportation and Infrastructure or someone authorized to act on his behalf, may reduce the allowable axle load or close the highway to all trucking by posting such notice to this effect.

7. Passenger buses and the following service vehicles are exempt from these restrictions:

- (a) a wrecking or tow truck when stopped at the scene of an accident or returning from the scene of an accident with a damaged vehicle in tow,
- (b) any private or public utility corporation vehicle while engaged at the scene of repair work,
- (c) snow removal equipment when engaged in snow removal operations.
- (d) vehicles operating under a special permit issued pursuant to section 36(12) of the Highway Act

8. Vehicles found to have an axle, or axle group or gross weight exceeding that prescribed in these restrictions shall not be permitted to proceed until all axle weights of the vehicle are within the limits prescribed above, either by redistribution of load or by off-loading onto another vehicle.

9. There will be no additional axle weight or vehicle weight allotted, in excess of the limits prescribed above, during the period these restrictions are in effect.

10. The Minister of Transportation and Infrastructure reserves the right to change any of these restrictions at any time. These restrictions can be put in place sooner if weather conditions warrant.

11. These restrictions will be strictly enforced.

12. This notice supersedes any previous "Notice to Truckers" in regard to 2023 Spring Weight Restrictions.

Hon. Richard Ames
Minister of Transportation and Infrastructure
