<p>¹ In Rural Communities (RC) and Regional Municipalities (RM) some services continue to be administered by the Department of Environment and Local Government until such time the new council requests to administer the service. In most RC & RM, the rate includes the provision of police protection, fire protection and unsightly premises.</p> <p>² The Special Provincial Levy is a levy charged to all residential owner-occupied properties in former Local Service Districts, that are now part of a new entity or a rural district, for the administration of road related services. This rate is not new. It is a continuation of the rate that has been applied to former Local Service District prior to Local Governance Reform.</p> <p>³ Through Local Governance Reform, flexibility was given to Local Governments and Rural Districts to set a different tax rate for non-residential properties and heavy industrial properties. The tax rate ratio is within the range of 1.4 and 1.7 times the residential rate. Prior to local governance reform, the ratio was defaulted to 1.5. If there is no heavy industrial ratio for the entity, it is because there are no heavy industrial properties in the entity.</p> <p>⁴ The non-residential and heavy industrial ratio in the budgets of the services provided by the Minister is defaulted to 1.5.</p>		<p>¹ Dans les communautés rurales (CR) et les municipalités régionales (MR), certains services sont toujours administrés par le ministère de l'Environnement et des Gouvernements locaux jusqu'à ce que le nouveau conseil décide qu'il veut administrer et fournir le service. Dans la plupart des CR & MR, ce taux sert à assurer la prestation des services de protection policière, de protection incendie et de l'administration des lieux inesthétiques et dangereux.</p> <p>² Le prélèvement provincial spécial est un prélèvement sur toutes les propriétés résidentielles occupées par le propriétaire dans les anciens districts de services locaux, qui font maintenant partie d'une nouvelle entité ou d'un district rural, pour l'administration des services routiers. Il ne s'agit pas d'un nouveau taux, mais d'une continuité du taux qui a toujours été appliqué aux districts de services locaux avant la réforme.</p> <p>³ Avec la réforme, de la flexibilité a été donnée aux gouvernements locaux et aux districts ruraux pour établir un taux d'imposition différent pour les propriétés non résidentielles et les propriétés industrielles lourdes. Ce taux d'imposition doit se situer entre 1,4 et 1,7 fois le taux résidentiel. Avant la réforme, ce ratio était par défaut à 1,5. S'il n'y a pas de ratio industriel lourd pour l'entité, c'est qu'il n'y a pas de propriétés industrielle lourdes dans l'entité.</p> <p>⁴ Le ratio non résidentiel et industriel lourd dans les budgets pour les services fournis par le ministre ont tous été fixé à 1.5.</p>
