¹ In Rural Communities and Regional Municipalities some services continue to be administered by the Department of Environment and Local Government until the local government council decides to assume the service. ² The Special Provincial Levy is a levy charged to all residential owner-occupied properties in a rural district or in former Local Service Districts, that are now part of a new local government, for the administration of road related services. This rate is not new. It is a continuation of the rate that has been applied to former Local Service District prior to Local Governance Reform. ³ Through Local Governance Reform, flexibility was given to Local Governments and Rural Districts to set a different tax rate for non-residential properties and heavy industrial properties. The tax rate ratio has to be within the range of 1.4 and 1.7 times the residential rate. Prior to local governance reform, the ratio was defaulted to 1.5. If there is no heavy industrial ratio for the entity, it is because there are no heavy industrial properties in the entity. ⁴ The non-residential and heavy industrial ratios in the budgets for the services provided by the Minister are defaulted to 1.5.		¹ Dans les communautés rurales et les municipalités régionales, certains services continuent d'être administrés par le ministère de l'Environnement et des Gouvernements locaux jusqu'à ce que le conseil du gouvernement local décide de prendre en charge l'administration du service. ² Le prélèvement provincial spécial est un prélèvement sur toutes les propriétés résidentielles occupées par le propriétaire dans les districts ruraux et dans les anciens districts de services locaux, qui font maintenant partie d'un nouveau gouvernement local, pour l'administration des services routiers. Il ne s'agit pas d'un nouveau taux, mais d'une continuité du taux qui a toujours été appliqué aux districts de services locaux avant la réforme. ³ Avec la réforme, de la flexibilité a été donnée aux gouvernements locaux et aux districts ruraux pour établir un taux d'imposition différent pour les propriétés non résidentielles et les propriétés industrielles lourdes. Ce taux d'imposition doit se situer entre 1,4 et 1,7 fois le taux résidentiel. Avant la réforme, ce ratio était par défaut à 1,5. S'il n'y a pas de ratio industriel lourd pour l'entité, c'est qu'il n'y a pas de propriétés industrielle lourdes dans l'entité. ⁴ Les ratios non résidentiel et industriel lourd dans les budgets pour les services fournis par le ministre ont tous été fixé à 1.5.
