Honourable Cathy Rogers
Minister of Finance
Minister responsible for Literacy
P.O. Box 6000
Fredericton, NB E3B 5H1

Dear Colleague,  

New Brunswickers have entrusted our government with a mandate to move New Brunswick forward by providing clear and focused leadership. We have been listening to New Brunswickers and understand what matters most to them. We know the importance of creating jobs, growing the economy, and securing and enhancing health care and education. I appreciate the hard work you have undertaken on these priorities based on the mandate letter your predecessors received on October 7, 2014. This renewed mandate letter communicates our government’s priorities and expectations. It contains specific short-term and long-term priorities which are fundamental to implementing our vision.

Together, we have cut the deficit in half while creating jobs and making record investments in education and health care. While implementation continues, the tough decisions are now behind us. We have achieved results by engaging New Brunswickers, being strategic with our decisions, finding savings and efficiencies where they make sense, and focusing on the priorities of New Brunswickers.

We have a strong team and by working together, we can continue to advance our ambitious agenda. By building on the foundation our government established over the first half of our mandate, we will continue to honour our commitments.

Members of the Executive Council are to adhere to the conflict of interest provisions. It is not enough to avoid conflicts of interest; you must also be diligent in avoiding the perceptions of such.
Thank you and your department for:

**Government Commitments**
- Having lowered the small business corporate income tax rate to 2.5%.
- Having increased the Small Business Investor Tax Credit to 50% from 30%.
- Having worked with the federal government to try to get New Brunswick its fair share... Revisiting changes to federal health and social transfers ensuring they recognize the distinct nature of particular provinces, rather than the one-size-fits-all approach of per capita funding.
- Having provided tax breaks and grants to allow seniors or their families to renovate their homes to stay independent longer.
- Having improved policing of the illegal sale of contraband tobacco products and smuggling of tobacco and alcohol from other jurisdictions.
- Having increased taxes on the richest one percent.
- Having cancelled the property tax break for businesses.
- Having published and continuing to publish quarterly financial statements on fixed dates.
- Having invited civil servants and retirees who had pension reforms imposed upon them back to the negotiation table for an open, fair and transparent dialogue.
- Having implemented a comprehensive literacy strategy that involves the public education system, employers, and community agencies. Begin by restoring funding to adult literacy cut by the current government.

I. **PRIORITY DELIVERY UNIT**

Priority Delivery Units (PDUs) have been established to drive performance improvements and increase accountability with respect to New Brunswick’s priorities of Jobs, Education, Families, Federal and Aboriginal Relations and Smart Province.
