Honourable Roger Melanson
President of Treasury Board
Minister of Post-Secondary Education
Minister responsible for Aboriginal Affairs
Minister responsible for Trade Policy
P.O. Box 6000
Fredericton, NB E3B 5H1

Dear Colleague,

New Brunswickers have entrusted our government with a mandate to move New Brunswick forward by providing clear and focused leadership. We have been listening to New Brunswickers and understand what matters most to them. We know the importance of creating jobs, growing the economy, and securing and enhancing health care and education. I appreciate the hard work you have undertaken on these priorities based on the mandate letter your predecessors received on October 7, 2014. This renewed mandate letter communicates our government’s priorities and expectations. It contains specific short-term and long-term priorities which are fundamental to implementing our vision.

Together, we have cut the deficit in half while creating jobs and making record investments in education and health care. While implementation continues, the tough decisions are now behind us. We have achieved results by engaging New Brunswickers, being strategic with our decisions, finding savings and efficiencies where they make sense, and focusing on the priorities of New Brunswickers.

We have a strong team and by working together, we can continue to advance our ambitious agenda. By building on the foundation our government established over the first half of our mandate, we will continue to honour our commitments.

Members of the Executive Council are to adhere to the conflict of interest provisions. It is not enough to avoid conflicts of interest; you must also be diligent in avoiding the perceptions of such.
Thank you and your department for:

**Government Commitments**
- Having used technology to improve efficiency and service delivery and to ensure data and best practices are shared.
- Having required each Deputy Minister to identify specific opportunity to reduce costs through adoption of new technology.
- Having ensured government treats its employees with fairness by respecting the collective bargaining process and the language-of-work policy.
- Having developed a multi-year infrastructure spending plan.
- Having worked with the federal government to try to get New Brunswick its fair share... Ensuring that our aboriginal population has respectful and appropriate access to services in addictions and mental health, early childhood development and education comparable to those available to other New Brunswick children.
- Having properly discharged and continuing to properly discharge the province's Duty to Consult policy, ensuring that all departments of government respect their obligations in all matters that may impact Aboriginal rights and not delegate that responsibility to a third party.
- Having encouraged under-represented groups to attend college or university through education about education.
