### COVID-19

Testing and Isolation Requirements after Travel

Guidelines for how to self-isolate can be found [here](#).

#### Mandatory 14 day self-isolation

- **NB resident returning to NB from post-secondary education or unnecessary domestic travel**
- **NB resident returning to NB after working in another jurisdiction** *(including rotational workers)*
- **International travellers into NB** *(including temporary foreign workers, international students, workers)*
- **Individuals moving to NB**
- **Canadians coming to a NB post-secondary institution or a school setting**
- **NB resident returning to NB after picking up or dropping off a student in another province.**
- **Non-resident of NB coming to work in NB**

#### Mandatory Work Isolation and Weekly COVID-19 Testing

- **NB resident returning to NB after medical care in another province** *(except those entering from NS or PEI)*
- **NB residents returning to NB after accessing urgent or specialized veterinary care** *(except those entering from NS and PEI)*

* Individuals in work isolation must travel to and from their destination without making any additional stops. They must wear a mask at all times in public and stay in their household bubble.

#### No isolation required; testing required or recommended

- **Operators of commercial air, rail, marine and trucks who have entered NB** *(mandatory periodic testing for NB residents only)*
- **Residents of Campobello Island** *(exempt based on approved stops; weekly testing available)*
- **Regular cross border commuters** *(for work and post-secondary education; mandatory weekly testing)*
- **Cross border child custody/care** *(mandatory weekly testing for persons ages two and up; parents and children travelling to and from NS and PEI exempt)*
- **Residents of Listuguj First Nation and Pointe-à-la-Croix entering Campbellton for essential goods/services** *(mandatory weekly testing)*
