Introduction

Background

The reading and writing achievement standards documents were developed by the Atlantic Provinces under the auspices of the Council of Atlantic Ministers of Education and Training (CAMET). The New Brunswick Department of Education had lead responsibility for the project, with input provided by the other provinces at defined points. The first draft of the achievement standards was developed in consultation with teachers and personnel from school districts/boards. Working groups of educators from various school districts/boards, provincial assessments, and the work of educational researchers documented in professional resources were consulted in ongoing revisions. Final draft versions of the documents were made available for field tests/reviews throughout the Atlantic Provinces. The resulting feedback informed the published versions of the achievement standards.

Purpose

The achievement standards are intended to establish common expectations in reading and writing among Atlantic Canadian educators for students at the end of designated grade levels (entry through grade nine). The standards address the question, “How well should students be able to read and write independently by the end of each grade level?”, and are based on both the reading and viewing outcomes and the writing and representing outcomes within the 1998 Atlantic Canada English Language Arts Curricula, Entry through Grade Nine. (See Appendix for outcomes alignment.) The project directive focuses only on defining reading and writing achievement standards. However, not to be diminished is classroom instruction in the other language arts outcomes (i.e. those outcomes not addressed from the reading and viewing, the writing and representing, and the speaking and listening strands).

The standards provide reasonable end-of-grade expectations for reading and writing through descriptions of two levels of student achievement:

- **The standard for appropriate achievement** describes what a student who meets intended grade-level expectations of the learning outcomes must know and be able to do.

- **The standard for strong achievement** describes what a student who demonstrates a high level of performance in intended grade-level expectations of the learning outcomes must know and be able to do.
Overview: Reading Achievement Standards

The reading achievement standards include three components to be considered when assessing students’ independent interactions with text. The three components are identified as:

- **Text Complexity** – characteristics of fiction/nonfiction (information) texts
- **Reading Strategies and Behaviours** – learning behaviours students should exhibit when reading texts independently
- **Comprehension Responses** – literal, inferential/interpretive, and personal/critical/evaluative responses to texts

Exemplars (samples) of comprehension questions and student responses are provided as a guide for teachers to use when formulating questions and promoting discussions with any classroom student texts.

Student responses were collected through fall provincial assessments (October and November) and by classroom teachers at the end of the school year. Students were provided with grade-appropriate reading passages and related open-response questions to complete independent writing tasks. No teacher assistance could be provided with the reading or interpretation of the passages or questions.

Overview: Writing Achievement Standards

The writing achievement standards include three components:

- **Text Forms** – characteristics of narrative, poetry and information texts
- **Reading Strategies and Behaviours** – learning behaviours students should exhibit when writing texts independently
- **Writing Traits** – describe what students should be able to demonstrate independently with respect to the six common traits when completing a piece of writing. The six traits are:
  - **Content/Ideas** – overall topic, degree of focus, and related details.
  - **Organization** – structure and form, dependent on purpose and audience
  - **Word Choice** – vocabulary, language, and phrasing
  - **Voice** – evidence of author’s style, personality, and experience
  - **Sentence Structure** – variety and complexity of sentences
  - **Conventions** – spelling, punctuation, capitalization, and usage (grammar)

The writing achievement standards for each grade level are clarified through student exemplars. The student exemplars, with supporting rationale, represent various forms of both narrative and expository writing. The majority of writing samples were drawn from provincial writing assessments; information is displayed within writing assessment booklets indicating student writing samples at this level may later be used in provincial publications.

Writing tasks included both a topic of student choice and assigned prompts. Students used space provided to plan and draft, revise and edit, before writing their final copy. All assignments were completed independently within a sixty-minute time frame. Students were reminded to use their writing tools (e.g., dictionary and thesaurus).
Guidelines for Copying from the Standards

Educators should note that the published fiction/nonfiction texts within the reading standards have been reprinted by permission of the publisher/owner; a citation appears at the bottom of each page to provide source information. The materials have been secured with an agreement that they will be viewed only within the document and/or in a read-only electronic version; therefore the reading passages may not be reproduced in any form. The student exemplars however, in both the reading and writing sections, can be reproduced but only for use within classrooms.

Application of Standards

When using the achievement standards for either formative or summative purposes, it is important to consider all elements of the standards and to give students multiple opportunities to demonstrate their abilities. For example, when assessing a student’s ability to read, the teacher must consider text complexity, reading strategies the student employs, and various types of responses to text. Similarly, when assessing a student’s ability to write, it is important to consider all traits that contribute to quality writing.

Application of the Reading Standard

Student reading comprehension exemplars reflect responses to grade-appropriate reading texts (i.e., text complexity defined as appropriate for the end of a given grade level). Student responses determined to be at an appropriate level reflect the criteria described for appropriate achievement; and student responses identified as strong achievement reflect the criteria described for the strong level. Comprehension responses are defined as:

Literal – students recall explicitly stated facts and/or ideas. Often the level of achievement is dependent upon the number of questions answered correctly; that is, for appropriate achievement a student responds accurately to most literal questions; for strong achievement a student responds accurately to virtually all literal questions. As the text complexity advances, strong responses may be distinguished by precision and the depth of response.

Inferential/Interpretive – students connect ideas within the text, demonstrating an ability to identify and understand messages that are implied, but not explicitly stated.

Personal/Critical/Evaluative – students make judgments about textual content.

It is expected that students who demonstrate a strong level of achievement will be capable of reading slightly more challenging texts than included within the grade-level documents. With more challenging texts, the student may not consistently demonstrate the criteria for responses defined under strong achievement.

Application of the Writing Standard

To obtain appropriate achievement in writing, student writing must consistently demonstrate the level of development described for each trait within the category of the standard. However, a student whose achievement in writing is identified at an appropriate level may be strong in one or more traits. Equally, to be identified at a strong level of achievement, the student must consistently demonstrate the level of development described within the standard for each trait in the strong category. When assessing a student’s writing achievement for formative purposes, a teacher could focus on the student’s ability with respect to each trait. The information gained could inform instruction to ensure a student achieves the overall level of development identified within
the end of grade level achievement standards. The goal is to develop students' proficiency in all the traits of writing as each is important and contributes to quality writing.

**Planning for Individual Instruction with the Standards**

The reading and writing achievement standards and accompanying exemplars may facilitate the design and implementation of individual learning plans for reading and writing outcomes. The descriptors in the standards are designed on a continuum; therefore, any grade level, indicative of a student's instructional level, may be used to guide planning. This can be achieved by matching the behavior descriptions of appropriate and strong achievement at a grade level reflective of the student's reading and writing ability. Once this level is determined, goals and specific outcomes may be written to reflect the reading and writing standards. The reading and writing standards provide a tool to focus literacy goals for the instructional level of any student.

**Conclusion**

The purpose of this CAMET initiative, standards for reading and writing - Entry through Grade 9, is to provide teachers with a tool for assessing student achievement that is consistent with other jurisdictions. The *Reading and Writing Achievement Standards* define how well a student should be able to read and write at the end of each grade and are intended as supplementary documents to the *Atlantic Canada English Language Arts Curriculum*.

### Reading “the lines”

**Literal Response**

Students
- respond accurately to most literal questions; skim large amount of text in search of information, locate literal information from a variety of texts
- identify key story elements (setting, characters, events, problem/resolution, theme/lesson) of a narrative text; explain how events are related to the theme; graphic organizers (e.g. timelines, story maps) may be used
- distinguish between main ideas and supporting details; concisely summarize key information; graphic organizers (e.g., timelines, charts, webs) may be used

### Reading “between the lines”

**Inferential/Interpretive Response**

Students
- make logical inferences about multiple complex characters (i.e., motivations, traits, feelings, personality) and story events, referring to relevant textual details; describe relationships among characters and effect on plot or overall theme
- interpret relationships among ideas to draw conclusions (e.g., plot, sequence, cause/effect, problem/solution) or make comparisons; support responses with relevant details
- use context clues, prior knowledge, and reference tools (e.g., dictionary, glossary) to explain the meaning of new vocabulary/technical terms; interpret subtle shades of meaning, and figurative and descriptive language; interpret symbols (objects, events, motifs) used by author to convey meaning
- interpret/use text features to understand the text (headings and subheadings, cut aways, legends, diagrams, maps, graphs, glossaries, captions, charts, feature boxes, sidebars); make general inferences using this information

### Reading “beyond the lines”

**Personal/Critical/Evaluative Response**

Students
- make personal connections: compare/contrast with personal experiences/relevant prior knowledge; make logical text-to-text, text-to-world comparisons; connect characters within and across texts/genres by circumstances, traits, or actions
- make connections between the social/moral issues of the present and those presented in realistic/historical fiction, biographies, and other genres
- express and support personal reactions, preferences for, and opinions about, particular texts, authors, illustrators, and genres using specific details/examples
- explain how the different elements of author’s style/technique (e.g., dialect, descriptions, figurative language, flashbacks, foreshadowing, symbolism) creates meaning and reaction; evaluate author’s effectiveness by providing relevant examples
- respond critically to texts: recognize language used to manipulate, persuade, or control; detect prejudice, stereotyping and bias; propose alternative perspectives
- evaluate purpose, structure, and characteristics of a variety of text forms (e.g. short story, ballad, report, explanation, persuasive, autobiography, science fiction, fantasy); explain how they contribute to understanding the text
### Comprehension Responses

**Strong Achievement**

**Sample Questions/Tasks**
The following types of questions/tasks may be used to assess students’ comprehension.

#### Literal Response
- **What new information did you learn from reading and viewing this selection?**
- **Summarize what you have found so far. What key words did you note to help you remember?**
- **Where would you begin to construct a timeline to plot the events in this autobiography?**
- **Why is ___ (event/action of character) important to the story?**
- **What were the key ideas in the information you read/viewed? Why did you identify them as important?**
- **Provide the “gist” of this article in twenty words or less.**

#### Inferential/Interpretive Response
- **Describe ___ (character) at the beginning of the story and at the end of the story. What caused this change?**
- **In what ways did the weaknesses/strengths of the character affect the chain of events in the story? How would the story be different if the character had acted differently?**
- **What is the theme or message of this selection? What do you think the author/poet wants you to think about and remember?**
- **What does this word mean? What helped you figure that out?**
- **Explain and give an example of how the author/poet used metaphor/simile/irony/personification/onomatopoeia.**
- **Show me how you used this key to understand the map.**
- **Look at this photograph and caption. What information do you learn that adds to the words of the text?**
- **How do the text features (e.g. headings, charts, questions…) help you understand what you have read?**

#### Personal/Critical/Evaluative Response
- **Which character is most like you? How?**
- **How would you have solved the problem?**
- **Tell me about your favourite genre. What is it about the genre that engages you?**
- **Does the author keep you interested in this selection? How?**
- **What does the author do to help you picture this character?**
- **The problem is described by ___. What do you think ___ would say about it?**
- **Whose viewpoint is presented? What, if any, opposing viewpoints are presented? Whose viewpoint is missing? Describe the biases and assumptions presented in this selection. Whose interests are served?**
- **What are some examples of how the author used persuasive language in this piece?**
- **What are some similarities and differences between one form/genre and another? (e.g. myths and legends)**

---

Students demonstrating strong achievement respond to questions/tasks described at the appropriate level with overall accuracy and precision. They **also**

- read large amounts of text and distinguish between important and unimportant details
- organize and present information gathered from a wide variety of texts

**synthesize knowledge/experience gained through reading extensively to make insightful and sometimes sophisticated connections**
### Text Complexity

Students select and read independently a variety of literary and information texts. Texts include:

- A wide range of genres; some texts (hybrids) combine genres; longer texts, beyond personal experiences, often requiring cultural, historical or social perspectives.

- Multidimensional mature/challenging themes/ideas (e.g. human problems: abuse, war, hardship, poverty, racism) that cultivate social awareness and provide insight into the struggles of humanity; age appropriate characters/information requiring the reader to interpret and connect information/ideas with other texts and subject areas; sometimes themes that evoke alternative interpretations.

- Many complex sentence structures (including sentences greater than 30 words); large amounts of description containing information vital to the understanding of the text; more complicated use of dialogue; wide range of declarative, imperative and interrogative sentences; embedded phrases/clauses.

- Challenging language (need context, glossary/dictionary); wide range of literary devices (e.g. figurative language, symbolism, flashbacks, flash forward, time lapses, stories within stories); dialects (regional/historical), some words from other languages, archaic words.

- Many long multisyllable words (require knowledge of root words/affixes), complex plurals/spelling patterns, many nouns/technical words that are difficult to decode.

- Variety of challenging illustrations/photographs/complex graphics that match/add meaning/extend text; much literary text with no or few illustrations.

- Many lines of print on a page; variation in layout/print styles/font within the same text (some examples of dense print); wide range of punctuation; may feature readers’ tools (e.g. glossary, pronunciation guide).

Note: Text complexity is not defined as appropriate or strong. The wide range of unfamiliar content at this level ensures sufficient challenges for all readers.

ROBINS AND RAVENS

Yesterday morn, two robins perched
On a branch of a tall birch tree,
And the liquid notes from their swelling throats
Filled the day with melody.

They gladdened the air with their merry song,
The world seemed happy and bright,
And the memory of beauty remained with us
From morn ‘till the fall of night.

Alas! Today a lone raven perched
On a branch of that same birch tree,
And its angry cries pierced the morning skies
With its woe and misery.
The day, though bright, had a gloomy cast,
Our hearts less cheerful and bright,
And the memory of harshness remained with us
From dawn ‘till the failing light.

We mortals are much like those morning birds,
As we face life’s surging sea,
And our habits diverse, for better or worse,
Leave their mark on humanity.
Will we face the world with a gladsome heart,
Or with manner sad and craven –
The choice is ours, which will we be
A robin, or a raven?

— Jessie H. Moffitt
Literal Response – Reading “the lines”

1. When did the robins come to the birch tree?

(This question generates one level of response.)

Criteria for Response
Students respond accurately to the literal question, stating the time that the robins perched on the tree.

Student Exemplars (Appropriate – In students’ words and spelling)
- The robins came yesterday morn.
- Yesterday morn, two robins perched on the branch of a tall birch tree.
- The robins arrived in the birch tree yesterday morning.

Inferential/Interpretive Response – Reading “between the lines”

2. Tell why the day was gloomy, as stated in line 13.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students interpret the relationship between the gloomy day and the raven.

Student Exemplars (Appropriate – In students’ words and spelling)
- The day was gloomy because the raven was in misery.
- The day was gloomy because the raven pierced the skies with loud noises.
- The raven’s angry cries made a dark and gloomy day.

Criteria for Strong Response
Students interpret the relationship between the gloomy day and the raven and demonstrate an understanding of the poetic symbolism.

Student Exemplars (Strong – In students’ words and spelling)
- The day was gloomy because of the raven was in misery. It’s talking about if you choose to be a robin then you will be a happy person and if you choose to be a raven you will be a sad mean person. It means you can choose your own path if you want to. The ravens angry cries with its woe and misery, shows no one really likes it, it is dull. You can choose to be dull and no one would like you.
3. Explain why the poet chose robins and a raven as her examples in the poem.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students make connections with prior knowledge/experience (i.e. a robin as a cheerful bird and a raven as the disturber) in order to explain the poet’s choice of birds as her examples.

Student Exemplars (Appropriate – In students’ words and spelling)
- Everyone knows about those birds and what they are like.
- The poet chose robins because everybody likes robins, and people think ravens are mean.
- She wanted to show that “angry cries” like the cries a raven makes can ruin a good day, but happy people like “cheerful” robins make a “happy and bright’ world.

Criteria for Strong Response
Students draw on extensive experience with other texts/prior knowledge to provide more sophisticated reasons underlying the poet’s choice (i.e. the comparison to Robin Redbreast or the cheerfulness of a robin in spring).

Student Exemplars (Strong – In students’ words and spelling)
- The reason the poet chose the birds is because robins are thought of as cheerful birds like little Robin Redbreast. They welcome spring with their “merry song” while the raven is black and dark to represent gloom and sadness with its “woe and misery”.
- The raven shows how bad habits affect people and can ruin a good day, but if we “face the world with a gladsome heart” like cheerful robins, we leave our mark on the world for good.
- The poet wanted to remind us that we can have a good effect on people or a bad effect so she used the birds as examples. We have to choose how to act but we should make a good choice as we face the world because we leave a mark whatever way we choose.

4. Explain what you think the poet means in line 17 when she writes, “We mortals are much like those morning birds.”

(This question generates two levels of response.)
Criteria for Appropriate Response
Students explain what they think the poet means by making a simple personal connection.

**Student Exemplars (Appropriate – In students’ words and spelling)**
- The poet means we are like the birds because we choose how we act.
- The poet means we make choices about how we act, much like the birds.
- The poet means some people are merry and some people are gloomy.

Criteria for Strong Response
Students make sophisticated text-to-self/text-to-world connections by identifying key ideas to explain what the poet means. Responses at the strong level include textual references/evidence of mature understanding.

**Student Exemplars (Strong – In students’ words and spelling)**
- I think that the poet means that humanity can make the world a better place, but it all depends on our attitudes. We all have an influence on the lives of others just like the morning birds.
- I think the poet is saying that people are like two different birds. A cheerful person is a robin and a grumpy person is a raven. She says, “The choice is ours, which will we be?” I would rather be a robin so “the world will be happy and bright.”
- We all have an influence on the lives of others just like the morning birds. A grumpy person will leave a bad impression while we all can create a happier place if we are always cheerful. You see this influence in “The memory of beauty remained with us.” (Line 7).
Save the Amazon Rainforest!

The Amazon rainforest is one of the world’s most fascinating ecosystems. It is so thickly wooded that there are as many as 200 different species of trees in each square kilometre. The Amazon River flows through the rainforest. It is the second longest river in the world and contains more than 3000 species of fish. Plant and animal life in the Amazon rainforest is also extremely rich and diverse. Researchers continue to discover new species, in addition to the millions that have already been identified.

Why Should We Care?
Since the Amazon rainforest is so far from Canada, you might wonder why we should care about it. Does it really make any difference to us? Well, you decide.

With an area of about six million square kilometres, the Amazon rainforest is the world’s largest rainforest. Because of its size, it has a major effect on the world’s climate. How? The rainforest absorbs carbon dioxide—one of the harmful gases that produces the “greenhouse effect.” It also gives off a by-product necessary for all life: oxygen. In addition, the Amazon rainforest’s dark forest cover absorbs heat from the sun. Without this rainforest, Earth’s temperature would rise. Even as far away as Canada, winters would be considerably warmer and summers much hotter and drier.

You may have heard that this valuable resource is in grave danger. Over the past 50 years, we have lost about half of the world’s tropical rainforests to both natural and human causes, such as fires and chainsaws. Enormous chunks of the Amazon rainforest are being clear-cut for farms, cattle ranches, lumber, development, and gold mines.

Negative Effects
Clearing the rainforest has many damaging effects, including soil erosion. Without trees and their root structure to hold the soil in place, it is easily washed away. The land gradually turns into a desert where nothing will grow. The disappearance of the rainforest also threatens many species with extinction. The jaguar, for instance, needs large areas of forest for its hunting grounds. Because the rainforest is shrinking, the jaguar is now on the endangered species list. Furthermore, about 25 percent of cancer medications used today come from organisms found only in the rainforest.

What You Can Do

Help save the Amazon rainforest! There are several things you can do.

1. Join a conservation group, such as Greenpeace or the World Wildlife Fund, to learn more about the Amazon rainforest ecosystem.

2. Raise money to “adopt” a piece of the rainforest.

3. Do a Web search under Amazon and rainforest (or rain forest) to see what other students are doing to stop the destruction of this wonderful ecosystem. If young people like you work toward the conservation of tropical rainforests, the benefits to our world will continue for many generations.

The destruction of the Amazon rainforest has reduced habitats for many species, including the jaguar.

Literal Response – Reading “the lines”

1. What is the main idea of the opening paragraph?

(This question generates two levels of response.)

Criteria for Appropriate Response
Students locate and identify the main idea of the text.

Student Exemplars (Appropriate – In students’ words and spelling)
- The main idea is that the Amazon rainforest is one of the world’s most fascinating ecosystems.

Criteria for Strong Response
Students identify the main idea of a text. Responses at the strong level demonstrate precise understanding of the intention of the text.

Student Exemplars (Strong – In students’ words and spelling)
- The main idea is that the Amazon Rainforest is a great ecosystem for thousands of plants and animals to inhabit.
- The main idea of the rainforest is that the rainforest has numerous forms of life within it and that it is plentiful in resources.

2. List four relevant details that support this main idea.

This question generates one level of response.)

Criteria for Response
Students distinguish between main ideas and supporting details and concisely summarize key information.

Student Exemplars (In students’ words and spelling)
- It is very thickly wooded, with as many as 200 different tree species in each square kilometre of the rainforest. The second-largest river in the world, the Amazon River, flows through the rainforest. The Amazon River is also home to more than 3,000 species of fish. The plant and animal life in the rainforest is very diverse.
- There are as many as 200 species of trees in each square kilometre. The Amazon river is the 2nd longest river in the world. The Amazon river is home to “more than 3000” species of fish. Researchers continue to discover new species in addition to the millions that have already been identified.
Inferential/Interpretive Response – Reading “between the lines”

3. How does the information found in the map and in the graph help you to understand the situation in the rainforest?

(This question generates two levels of response.)

Criteria for Appropriate Response
Students interpret text features (i.e., the map and graph) and explain how they support the reader’s understanding of the selection.

Student Exemplars (Appropriate – In students’ words and spelling)
- The map shows the size of the Amazon rainforest. It is large. The graph is good to have to show how much humans have already affected it.

- The map shows that the Amazon Rainforest is a huge rainforest, and if we cut it down, it will have an enormous impact on wildlife and the environment. The graph helps me to understand how desperate humans are to get land for themselves.

Criteria for Strong Response
Students interpret, with overall accuracy and precision, text features (i.e., the map and graph) and explain, citing specific examples, how they support the reader’s understanding of the selection.

Student Exemplars (Strong – In students’ words and spelling)
- The map helps us understand where the Amazon rainforest is in the world and how far away from Canada it is. The graph helps understand how much rainforest has been cleared in 1970 and 2000 and how much more we cut down in 2000 as opposed to 1970. There was almost a 10% increase in rainforest cleared over a time span of 30 years.

- The graph shows us the increasing percentage of the cleared rainforest. In 1970, that percentage was about 4%, but over the next 30 years, it jumped to 14%! This shows how quickly the devastation is growing. The map shows where the rainforest is found. That region is quickly being cleared for people which is destroying the rainforest.
4. The author tells us that the loss of the rainforest will have serious consequences. Why should Canadians be concerned about this? Give at least 3 reasons.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students interpret relationships among ideas to draw conclusions and provide support with at least three relevant details.

Student Exemplars (Appropriate – In students’ words and spelling)
- Canadians should be concerned about loss of the rainforest because the Amazon absorbs a lot of carbon dioxide, which produces the “greenhouse effect”, the rainforest absorbs heat that the sun gives off, which, if it was cut down, would make it hotter all over the world, and 25% of medicines that treat cancer come from organisms in the rainforest.
- Canadians should be concerned because this rainforest has an impact on a lot of places. Without this forest, earth’s temperature would rise. Winters would be considerably warmer and summers much hotter and drier. This rainforest absorbs a lot of carbon dioxide, a harmful gas, and it produces lots of oxygen for us.

Criteria for Strong Response
Students interpret relationships among ideas to draw conclusions providing thoughtful/well-supported responses using at least three specific examples.

Student Exemplars (Strong – In students’ words and spelling)
- Canadians should be concerned because all the trees in the rainforest provide oxygen, which is very important, and they also absorb carbon dioxide that creates the “greenhouse effect” which isn’t good for the environment. 25% of our cancer medications come from organisms that can only be found in the rainforest. Also, many species, including the jaguar, are now on the endangered species list and could become extinct.
- Canadians should be greatly concerned for several reasons. One of the benefits of the rainforest is that it absorbs carbon dioxide and produces oxygen so that the people of the world can live and breathe. The darkness of its foliage absorbs the Sun’s heat, keeping summers and winters within their correct temperature ranges. The article also states that out of the cancer medications for the world, about 25% of them are from species that rely on the resources of the Amazon rainforest.
5. What do you think it means to “adopt” a piece of the rainforest?

(This question generates two levels of response.)

Criteria for Appropriate Response
Students use context clues and prior knowledge to provide obvious interpretations of the word “adopt”.

Student Exemplars (Appropriate – In students’ words and spelling)
- When you adopt a part of a rainforest, you buy some land within the rainforest, and the land will be protected and not be cleared or destroyed in any way. It becomes a small reserve.
- I think that when you “adopt” a piece of the rainforest that you are responsible for keeping it clean and unpolluted. Perhaps if you “adopt” a piece of rainforest, it means people cannot go onto that piece and clear cut it or hunt endangered animals on it.
- It means to raise enough money to protect a piece of the Amazon. Companies would not be allowed to clear cut over that piece of land. I bet if enough people “adopted” a section of the Amazon, it would eventually be saved.

Criteria for Response: Strong
Students use context and prior knowledge to provide thoughtful interpretations of the word “adopt” with specific and relevant examples.

Student Exemplars (Strong – In students’ words and spelling)
- I think it means to try and save some of the rainforest with the power you have to save it, such as donating money to a company or group that are working on saving the Amazon rainforest.
- I think to “adopt” a piece of the rainforest means that you raise money and it goes towards a conservation group and helps them try to save the Amazon rainforest.

6. The writer tells us about a problem and makes some suggestions to solve the problem.
(a) What is the problem?

(This question generates two levels of response.)

Criteria for Appropriate Response
Students interpret relationships to summarize the ideas and articulate the problem.
Student Exemplars (Appropriate – In students’ words and spelling)

- The problem is that the Amazon Rainforest could be in danger due to human activities, and if humans are not careful, the rainforest could be gone forever.
- The problem that the writer has posed is that the Amazon rainforest is quickly disappearing and must be protected in order to save this precious ecosystem from extinction.

Criteria for Strong Response
Students interpret relationships to summarize the ideas and provide thoughtful inferences supported by specific and relevant examples to articulate the problem.

Student Exemplars (Strong – In students’ words and spelling)

- The problem is that clearing the rainforest has many damaging effects. Some of the effects are soil erosion, animal extinction, and there wouldn’t be much cancer medication because 25 percent is found only in the rainforest.
- The problem that is being discussed is that the Amazon rainforest is being cut down to make way for other things like ranches and gold mines. These huge chunks of land are being cut down and being taken away from the wildlife which are now becoming extinct, or endangered.

Personal/Critical/Evaluative Response – Reading “beyond the lines”

(b) Do you think that young people can make a difference and help solve this problem? Explain your answer.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students make personal connections with social issues and provide reasonable suggestions in the response.

Student Exemplars (Appropriate – In students’ words and spelling)

- I think that young people can make a difference in solving this problem, because if everyone does even a little bit to help, it will add up to a lot to help. There are many conservation groups who aim to help the rainforest, so joining one of them, or even donating to their cause, can be helpful. Even something as simple as recycling can make the world a better place.
- Yes, adolescents can help with this problem. As the article suggests, teens could adopt part of the rainforest, join a conservation group or learn what other people are doing. Closer to home, anybody could recycle old items and make a compost heap for a garden. Instead of buying items covered in plastic and wrappings, only buy things without much wrapping. Students could take a lunch bag instead of taking a paper bag to school every day. There are several ways to protect the rainforest. Every effort helps.
Criteria for Response: Strong
Students make personal connections with social issues and provide insightful suggestions in the response.

Student Exemplars (Strong – In students’ words and spelling)

• To save the rainforest we could join a conservation group to learn more about it. We could “adopt” a piece of the rainforest. We could search for things we can do to help on the internet. I think that young people can certainly make a difference. Young people are usually keen to save the environment, and we can be very tech-savvy, making it easier to research the Amazon rainforest. If we, as young people, make a difference today, the benefits will continue for our children and grandchildren and for many generations to come.

• Yes I think that young people can help save the rainforest because every little bit helps. If young people started spreading the word and saving a little bit of time and money to send to people who are saving the rainforests the results would be astonishing. Things would really add up fast and the movement might inspire more people to do the same. That is why I believe that young people can help save the rainforest.

Mrs. Buell

For years and years, for what seems like forever, I've gone to BUELLS when I had a dime to spare. It's a run-down, not very clean, corner store. Kids go there mostly, for licorice and bubble gum and jawbreakers and Popsicles and comic books and cones. She only has three flavours and the cones taste stale. Still, she'll sell you one scoop for fifteen cents. It's not a full scoop but it's cheaper than anywhere else. It's the only place I know where a kid can spend one penny.

Mrs. Buell is run-down too, and a grouch. She never smiles or asks how you are. Little kids are scared to go in there alone. We laugh at them but really, we understand. We felt it too, when we were smaller and had to face her towering behind the counter.

She was always the same except that once. I tripped going in, and fell and scraped my knee. It hurt so much that I couldn't move for a second. I was winded too, and I had to gasp for breath. I managed not to cry out but I couldn't keep back the tears.

Mrs. Buell is big but she moved like lightning. She hauled a battered wooden chair out from behind the curtain that hung across the back. Then, without a word, she picked me up and sat me down on it. We were alone in the store but I wasn't afraid. Her hands, scooping me up, had been work-roughened; hard but kind.

She still didn't speak. Instead, she took a bit of rag out of her sweater pocket, bent down and wiped the smear of blood off my knee. The rag looked grayish but her hands were gentle. I think she liked doing it. Then she fetched a Band-Aid and stuck it on.

"Does it still sting?" she asked, speaking at last, in a voice I'd never heard her use before.

I shook my head. And she smiled. At least I think she did. It only lasted a fraction of a second. And I wasn't looking straight at her.

At that moment Johnny Tresano came in with one nickel clutched in his fist. He was so intent on the candies he hardly noticed me. He stood and stood, trying to decide.

"Make up your mind or take yourself off," she growled.
She had gone back behind the counter. I waited for her to look at me again so that I could thank her. But when he left she turned her back and began moving things around on the shelves. I had meant to buy some jujubes but I lost my nerve. After all, everybody knew she hated kids. She was probably sorry now that she’d fixed my knee. I slunk out without once opening my mouth.

Yet, whenever I looked down and saw the Band-Aid, I felt guilty. As soon as one corner came loose, I pulled it off and threw it away. I didn’t go near the store for weeks.

She was terribly fat. She got so hot in summer that her hair hung down in wet strings and her clothes looked limp. In winter she wore the same sweater every day, a man’s gray one, too big, with the sleeves pushed up. They kept slipping down and she’d shove them back a million times a day. Yet she never rolled up the cuffs to make them shorter.

She never took days off. She was always there. We didn't like her or hate her. We sort of knew that selling stuff to kids for a trickle of small change wasn’t a job anybody would choose - especially in that pokey little place with flies in summer and the door being opened all winter, letting in blasts of cold air. Even after that day when she fixed my knee, I didn’t once wonder about her life.

Then I stopped at BUELLS one afternoon and she wasn’t there. Instead, a man and woman I’d never laid eyes on were behind the counter sorting through stacks of stuff. They were getting some boxes down off a high shelf right then so they didn’t hear me come in. I was so amazed I just stood there gawking.

"How Ma stood this cruddy hole I’ll never know!" the woman said, backing away from a cloud of dust. "Didn't she ever clean?"

"Give the subject a rest, Glo," he answered. "She’s dead. She won’t bother you any longer."

"I tried, Harry. You know I tried. Over and over, I told her she could move in with us. God knows I could have used a bit of cash and her help looking after those kids."

I think I must have made a sound then. Anyway, she whirled around and saw me.

"This place is closed," she snapped. "Harry, I thought I told you to lock the door. What did you want?"

I didn't want anything from her. But I still could not believe Mrs. Buell wasn't there. I stared around.

"I said we're shut. If you don't want anything, beat it," she told me.

The minute I got home I phoned Emily. She said her mother had just read it in the paper.

"She had a daughter!" Emily said, her voice echoing my own sense of shock. "She died of a heart attack. Kate, her whole name was Katharine Ann Buell."

"Katharine," I said slowly. My name is really Katharine although only Dad calls me by it. "I can't believe it somehow."

"No," Emily said. "She was always just Mrs. Buell."

I told her about Glo and Harry. After we hung up though, I tried to imagine Mrs. Buell as a child. Instead, I saw her bending down putting that Band-Aid on my knee. Her hair had been thin on top, I remembered, and she'd had dandruff. She had tried not to hurt me. Glo's voice, talking about her, had been so cold. Had she had anyone who loved her? It seemed unlikely. Why hadn't I smiled back?

But, to be honest, something else bothered me even more. Her going had left a hole in my life. Because of it I knew, for the first time, that nothing was safe - not even the everyday, taken-for-granted, background of my being. Like Mrs. Buell, pushing up her sweater sleeves and giving me my change.

Literal Response – Reading “the lines”

1. **What is the price for one scoop of ice cream at BUELLS?**

   (This question generates one level of response.)

   **Criteria for Response**
   Students respond accurately to the literal question, giving the price of a scoop of ice cream, as specifically stated in the story.

   **Student Exemplars (In students’ words and spelling)**
   - It was 15¢ a scoop of ice cream.
   - The price of one scoop is 15 ¢ (line 5).

2. **Line 7 says that Mrs. Buell is “run-down” and “never smiles”. What other clue leads you to believe that Mrs. Buell is “run-down”?**

   (This question generates one level of response.)

   **Criteria for Response**
   Students identify key information about the character.

   **Student Exemplars (Appropriate – In students’ words and spelling)**
   - Another clue is “her hair hung down in wet strings and her clothes looked limp” (lines 34-35) so I think she looked kind of run-down.
   - Mrs. Buell “wore the same sweater every day” and it was too big so she must have been too run-down to care what she wore.
   - Mrs. Buell would have to be run-down because it says “she never took days off and she was always there.”

Inferential/Interpretive Response – Reading “between the lines”

3. **Why is the narrator feeling guilty in line 32?**

   (This question generates one level of response.)

   **Criteria for Response**
   Students make logical inferences about the characters feelings referring to relevant textual details.
4. Explain how Mrs. Buell and her daughter are different.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students interpret relationships among ideas, recognizing an inferred difference between Mrs. Buell and her daughter.

Student Exemplars (Appropriate – In students’ words and spelling)
- Mr Buell was caring but Glo wasn’t.
- Mrs. Buell didn’t clean her store but the daughter would have kept it cleaner.
- Mrs. Buell had no one to love her but her daughter had Harry.

Criteria for Strong Response
Students interpret relationships among ideas, recognizing an inferred difference between Mrs. Buell and her daughter, and supporting the response with a specific textual reference.

Student Exemplars (Strong – In students’ words and spelling)
- Mrs. Buell was caring but she didn’t show it (lines 26-31). Glo was not caring and she showed it (lines 56-60).
- As her daughter says “How ma stood this cruddy hole I'll never know!” showing the reader her daughter would’ve kept the store much neater than her mother did, if she’d keep it at all.
- Mrs. Buell was alone (lines 71-72) but her daughter wasn’t. (“Over and over, I told her she could move in with us.”)
5. Explain the expression “nothing was safe” as found in the last paragraph.

(This question generates two levels of response.)

Criteria for Appropriate Response
Students use context clues/prior knowledge to interpret subtle shades of meaning and provide a picture of Kate’s future following the death of Mrs. Buell.

Student Exemplars (Appropriate – In students’ words and spelling)
- It means Kate’s world would change now without Mrs. Buell around.
- Kate is worried that everything will change now without BUELLS on the corner.
- Kate thinks nothing will be the same now without Mrs. Buell and her store so the author said “nothing was safe”.

Criteria for Strong Response
Students provide thoughtful inferences supported by specific and relevant examples as they explain both the significance of Mrs. Buell's absence, after being such a routine part of Kate’s life, and its impact on Kate’s future.

Student Exemplars (Strong – In students’ words and spelling)
- I think the author is saying that “nothing was safe” because now Mrs. Buell is not there anymore, and it felt not real, as if it was all a dream. Kate couldn’t believe she was really gone and all that was left was short, simple memories so there was a big hole in her life.
- The author says “nothing was safe” because Kate knows now that she will miss Mrs. Buell and her store. Even her feelings weren’t safe because now she realizes that she liked Mrs. Buell and Mrs. Buell must have liked kids to sell candy in her store cheaper than anywhere else.

## Writing Strategies and Behaviours

### End of Grade 8

**Students:**

- select and develop a topic; demonstrate awareness of audience and competence crafting a variety of text forms (including hybrids)
- write with purpose and understand the influence of the writer
- gather ideas from a variety of sources and use a framework (e.g. web, graphic organizer) to sort and classify the information/ideas, recognize different perspectives, and make new connections; apply knowledge of copyright/plagiarism
- draft a piece of writing making critical choices about ideas/content based on the purpose and intended audience
- independently re-read to add to, delete from, or reorganize the text to clarify and strengthen content
- request, obtain, and make decisions about, constructive criticism
- refine writing to enhance impact
- select linguistic (e.g., analogy, colloquialism, figurative language, flattery) and print devices (e.g., print size, font, page design) designed to influence audience
- reread writing aloud for fluency; make changes to sentence structures and word choices to provide variety
- use appropriate tools (e.g., dictionary, thesaurus, grammar checker, and text models) to edit conventions, and strengthen word choice
- use a variety of publishing formats (e.g., books, pamphlets, posters, web sites) with appropriate text and text features
- use specific devices to achieve purpose (instruct, persuade, entertain)
- explain form choice as it pertains to purpose and intended audience

Students demonstrating **strong achievement** consistently apply the strategies and behaviours listed above. They take more risks and attempt techniques observed during independent reading.

### Text Forms

The following describe the specific elements of common text forms explored in grade six, seven, and eight. Refer to the Organization Trait to distinguish between appropriate and strong achievement.

#### Form: Persuasive

**Purpose:** to discuss and/or debate ideas developing an argument to convince the reader to agree with the writer’s premise

**Opening Statement:** provides an overview of the topic and states the writer’s position (e.g. *Racial slurs are damaging and should not be permitted.*)

**Arguments and Reasons:** provides three or more arguments or assertions that have supporting statements (I believe... because...) drawn from facts or personal experience; begins to identify other points of view and counter-arguments

**Conclusion:** includes a statement to reinforce or summarize position

**Special Features**
- persuasive devices (quotes from experts, examples, anecdotes, flattery, authorial intrusion, irony, wit, humour)
- linking words/phrases (because, however, also)
- present tense
- first person singular or plural (I, we)
- persuasive adjectives/adverbs (most, must, strongly)
- technical terms which are often verbs changed into nouns (e.g. new corners becomes immigrants)

#### Form: Explanatory Report

**Purpose:** to tell how/why something came to be or to explain how something works

**Statement or definition:** identifies topic with a statement, question or definition

**Explanation or how or why:** to analyze a process (movements in the earth’s crust) showing the relationship among the parts including cause and effect connections

**Summary:** can state unusual features of the phenomenon and/or reiterate the main points

**Special Features**
- may include a title, illustrations or diagrams
- connecting words to signal cause-effect (if, because, then)
- present tense
- first person singular or plural (I, we)
- present tense often written as commands
- numbered-steps or words showing sequence (first, next, then)
- may include headings, illustrations, diagrams or labels
- present tense often written as commands
- technical language- verbs, adverbs and adjectives (e.g., whip the cooled creme vigorously)

#### Form: Memoire

**Purpose:** to capture a defining personal memory

**Orientation:** begins with a purposeful lead, identifies the personal event and may give the reason for selecting the topic

**Key Events:** has key events in logical order (e.g. single day, flashback) with sufficient relevant details including the subjects feelings revealed through describing actions or using quotes

**Conclusion:** communicate the larger meaning or reason for the writing

**Special Features**
- literary language (powerful nouns and verbs, figurative language)
- linking words and phrases (later that afternoon, as I walked out)
- past tense

#### Form: Biography and Autobiography

**Purpose:** to give a true or fictionalized account of a person’s life

**Orientation:** identifies the subject, the important events in the subject’s life, and the reason for the selections

**Events:** important events are described in a logical order (e.g., chronological, categories); provides reasons for omitting significant parts of the subject’s life (e.g., only focusing on the childhood or adult years)

**Conclusion:** includes a personal response, evaluative statement, or a comment on the significance of the subject

**Special Features**
- subjects feelings may be revealed in quotes
- supplemental texts (e.g., interviews, awards, newspaper clippings, foreword, afterward)
- dialogue

#### Form: Hybrid Texts (multigenre texts)

As writers become familiar with certain writing forms and as they read mentor texts that mix two or more genres, they begin to produce hybrid texts to communicate information in different ways (e.g. procedures and explanation, narrative and letters). The different forms to be combined are chosen with a clear purpose and integrated into one harmonious text that communicates a message.

#### Form: Descriptive Report

**Purpose:** to describe a topic

**Introduction:** introduces a manageable topic with a definition or a classification (Three types of soil are)

**Description of Topic:** includes factual details, from a variety of sources (books, photographs, websites), to support sub-topics (e.g., attributes, weather systems) sequenced in a specific way

**Conclusion:** summarizes, or restates, key ideas; may include an impersonal evaluative comment

**Special Features**
- includes a title, headings, illustrations, maps, or photographs with labels or captions
- connecting words and phrases (also, many other, has a variety of)
- present tense
- language to show comparisons/contrasts (as hard as), definitions (are called), classification (belong to)

#### Form: Instructions/Procedures

**Purpose:** to tell how to do something

**Goal or aim:** identifies topic by title or opening statement(s)

**Materials/ingredients:** lists materials

**Method/process –** includes key steps in correct order with adequate details focusing on how/when

**Conclusion or Evaluation:** includes a closing statement or an evaluation which may be a photograph or drawing of the completed item

**Special Features**
- may include headings, illustrations, diagrams or labels
- numbered-steps or words showing sequence (first, next, then)
- may include a title, headings, illustrations, maps, or photographs with labels or captions
- present tense
- present tense often written as commands
- technical language- verbs, adverbs and adjectives (e.g., whip the cooled creme vigorously)

#### Form: Narrative (short story)

**Purpose:** to entertain with an imaginative experience

**Orientation (time, place and characters):** attempts to establish an emotional response through the development of character, setting, and plot and setting the mood or tone (e.g. humor, personalization, sarcasm)

**Events:** involve the main character development, including insights into their actions and feelings, and building the tension that leads to the climax

**Resolution:** the complication is generally resolved and the loose ends are tied up

**Special Features**
- literary devices used to create imagery (metaphor, personification, idiom, hyperbole)
- connecting words related to time (later on, after that,)
- action verbs and verbs related to character’s thoughts and feelings include dialogue (with change in tense from past to present)
- pronouns refer to specific characters

#### Form: Poetry

**Purpose:** to entertain, communicate deep meaning or create a new perspective on a subject

**Organization:** a variety of forms with specific structures (e.g. ballad, Haiku, Cinquain, sonnet, diamante) as well as free verse which has no set structure or conventions

**Special Features**
- title communicates the meaning of the poem
- lines of text usually short and concise
- words evoke strong images, moods, and/or emotions
- poetic devices (e.g., repetition, refrain, rhyme, rhythm, sensory images)
- literary devices are used (e.g. alliteration, assonance, onomatopoeia, symbolism, personification, rhetorical question)
- the line breaks and white space on the page can have meaning

Prompt provided.

“To my most treasured friends,”.

To my most treasured friends,

On December 4th, as you know, I will turn 15.

In honour of this important day, I have been planning a spectacular party. You, my best friends, are all invited.

The party will have an outer-space theme... It will feature a clown that juggles plastic UFO's, a cake shaped like a space shuttle, a demonstration from a man pretending to be a Jedi Master, and a game of musical craters. It’s going to be a blast!

On the 4th of December, all six of you will meet by the football field.

As a group you will advance to my house.

To get to my house you must first descend Main Street for 5 blocks, then turn right on Melba Street. Continue down Melba street past the ESSO station until you reach the University. Turn left down University Avenue and you will see my house on the corner of University and

"A great person once said..."

1. Keep Your Eyes on the Sun.

A great person once said, "Keep your eyes on the sun and you won't see the shadows." To do this, you must set goals for the future, focus on the good in life, and never give up.

Set goals for yourself in life. After you set your goals, strive to achieve them, make a plan for your life. Setting goals for your life will help you in the future, like after you graduate and are looking for a college or university. You accomplish more in life when you have goals in which you have set.

Focus on the good things in life. Do not let the bad or negative things interfere with what you are doing. Remember, bad things happen to both good and bad people. So when bad things happen, do not dwell on them, look for the positive in the situation. Be a positive thinker!

Another great person once said, "If at first you don't succeed, try, try again." So in other words, never give up. Life isn't always going to be easy. So when bad things happen, "focus on..."

Prompt provided.

"Keep your eyes on the sun and you won't see the shadows'...different ways."

The quote, "Keep your eyes on the sun and you won't see the shadows," can be interpreted in many different ways. It could mean to focus on your goals in life, or it could mean to ignore minor setbacks and to concentrate on the big picture. However, in my personal opinion, I believe it means to be optimistic.

Although this interpretation is rather obvious, I believe it has a strong message. Many people say to stay positive, but when the going gets tough, it's incredibly hard to do so. At times of depression and peri, we tend to wallow in our own self-pity, forgetting that a new day will come and that we have to continue living our lives. To be optimistic is to look past all the sadness and to be strong and carry on with our lives. However, this is just one of many different interpretations.

The quote could also depict how, in a bad situation, there is always something good that comes out of it. Whether you made a mistake, or you're just having a lot of bad luck, if you have a positive attitude, you can almost always see the silver lining on the cloud. In almost any situation, there is something good that comes with it; it just takes an optimistic outlook on life to see it. As my father says, "What doesn't kill you, makes you stronger."

In fact, this interpretation reminds me of my own outlook on life. I believe that everything happens for a reason, whether it be good or bad. We make millions of decisions everyday, and every single one has an effect on our lives. One bad decision may cause a lot of heartache, but it also enables...
“Keep your eyes on the sun and you won’t see the shadows’...different ways.”

us to learn and grow from our mistakes. For example, this year I hurt my knee just before our last and most important, soccer game. I couldn’t play the game, which hurt a lot more than my knee, but the experience wasn’t all bad. I learned that sports aren’t everything, and as a “jock,” I had a hard time understanding that. In the end though, I learned a valuable lesson.

“Keep your eyes on the sun and you won’t see the shadows” is a strong and inspirational quote. It may mean many different things for many different people, however, for me it means to be optimistic. It means that some good can always come from some bad luck, and that you need to find the strength within yourself to see it.
This writing sample begins with “The quote, ‘Keep your eyes on the sun and you won’t see the shadows’...different ways.”

Content/Ideas
- introduces a specific topic with a main idea that clearly defines the purpose and engages the audience in determining the meaning of the quote
  line(s) 4-5 “...in my personal opinion, I believe it means to be optimistic.”

- includes original and thoughtful ideas
  line(s) 7-8 “Stay positive”
  line(s) 16 “see the silver lining”

- supports the strong main idea with relevant details and examples
  line(s) 3 “focus on your goals in life,...ignore minor set backs”
  line(s) 4 “to concentrate on the big picture.”
  line(s) 5 “means to be optimistic.”

Organization
- begins with an engaging lead that indicates purpose
  line(s) 1-2 “The quote, ‘Keep your eyes...shadows’ can be interpreted in many different ways.”
  line(s) 30-32 “It means that some good...to see it.”

- connects sentences and ideas through smooth transitions

"We all have lost someone very close to us from drinking and driving."

Drinking and Driving

1. We all have lost someone very close to us from drinking and driving. It's a very stupid mistake to go behind the wheel while your intoxicated, and it only takes that one time to make the biggest mistake of your life.

2. When someone dies from drinking and driving it hurts the family and friends. It hurts the whole community. I never got to see my grandparents because they were killed by a drunk driver.

3. There was a boy on our reserve that made the biggest mistake one night. If only he was in the right state of mind he could of still been here with us today. He got into a vehicle of a drunk driver and before they knew it they were mangled to a telephone post. The girl is still alive today but suffers from brain damage which causes her not to be the same as she was before the accident. But the boy died instantly. He was only 16 years old. He left behind a big family, 4 brothers and one sister, also a lot of hurting friends. I still remember that day, everyone looked depressed. It hurted the

24 Yet people still dare to hold danger into
25 there own hands. When will they learn that it
26 is NOT ok to drink under the influence. I have
27 a cousin that drinks all the time which means
28 he does alot of drinking and driving. I kept
29 telling him not to drive while he is drunk. I
30 also told him "When are you going to stop, when
31 you kill someone?" but he didn't listen to me.
32 And just a few weeks ago he was with a friend
33 and they were both intoxicated. He lost con-

"Back in grade three, guests...."

1. Back in grade three, guests came into our classes to talk about recycling and its importance in the community. They would repeat over and over again the significance of the three Rs until they were drilled into our brains. At fourteen years old, you should understand the global situation well enough to understand that this is not just for little kids. It saves trees, money, and gives a person the satisfaction of doing the right thing.

2. Recycling's main point is obvious: to conserve trees and the environment. As one of the world's main suppliers of oxygen, we should keep as many trees intact as possible. With the world's trees being felled all the time, we are beginning to see the proof that we need to save them in the form of global warming. That alone should make people willing to recycle.

3. Not only does the globe's health improve, but humans benefit directly. Recycled paper is cheaper than newer material. Many books are printed with one hundred percent recycled paper, and gain from it. More practical people would recycle just by looking at the issue economically.

4. If none of this interests a person, they should try to recycle anyway, because it will give them a sense of satisfaction. Just doing what they should be doing can be

“Hockey is a very challenging and fast-paced game.”

Hockey is a very challenging and fast-paced game. It is played on ice with equipment, sticks, and skates. The object of the game is to score on the other teams net while defending your own. There are six players on the ice for each team, including the goalie.

There are three forwards, two defense, and a goalie on the ice. The forwards job is to put the puck in the other teams net, the defenses job is to stop the other team from scoring while helping the forwards score, and the goalies job is stop the other teams attempts to score.

People think that the goalies have the easiest job on the ice. They think this because the net is small and you have lots of equipment on, but it's harder than it looks. You have to have good hand-eye coordination because pucks can be shot up to 100 miles per hour depending on where shooting it, and you need to watch for deflections, dekes, and fakes because they usually beat the goalie.

There are many rules in the game of hockey, and if you don't go by them you get
“Hockey is a very challenging and fast-paced game.”

23 a penalty which disadvantages your team because
24 you are about a player. In higher leagues of hockey
25 you can check but not in lower levels. In any
26 league of hockey you can't trip, slash, block, open
27 or fight or you will get a penalty automatically.
28 If it's serious then you will be thrown out
29 of the game.
30 Hockey is a very exciting game and is
31 enjoyed by many youths and elders. Even if you

"I recycle every day."

1. I recycle every day. It is of high importance to me. But although I strongly encourage recycling, it is an act that globally is not of high importance. This is wrong, and needs to change. In order to maintain and sustain a healthy environment, the world needs to grasp the initiative of recycling.

2. Recycling is the act of recirculating used materials. Rather than placing bottles, plastic, and paper products in the garbage, one may place these articles in a recycling container. It may appear to make such a miniscule difference that has no effect on society. However on a global scale if everyone recycled, the difference would be substantially great. Let’s take a look at the effects of recycling.

3. In global economy, recycling has a very positive effect. It creates hundreds of thousands of jobs around the world and saves people a lot of time and money producing more product. Consequently this reduces pollution and ensures the protection of our valuable natural resources. This is of high importance when ensuring a better future for future generations. We must leave behind and bestow upon our future citizens a healthy environment in which they can live. We must respect their right to live in a clean, prosperous, and resourceful environment as past generations have done so to us.
At the end of the day, the world is a better place due to the efforts of those who recycle. The world is clean and uniform environment is maintained and its natural beauty shines. I strongly encourage every citizen to recycle and to contribute to this global effort. We must all cohesively work together to maintain and sustain a healthy, beautiful environment.

"The day my brothers and I received our dog was...."

1. The day my brothers and I received our dog was one of the most wonderful days of our lives. I can still remember how excited we were and the look on my younger brother's face as my dad walked in the door with the puppy in his arms. His eyes were sparkling with joy and excitement. We let my other brother, Jamie, pick her name. He picked Daisie.

2. Her soft golden fur was so beautiful, and it felt so good to hold her in my arms. My oldest dog, Fanny, was treating Daisie like her own child and would follow her everywhere. It was adorable.

3. The first few nights we had her were terrible. She would cry all night, and I mean cry. Her bed was in my room, so I was the one who had to get up and put her back to sleep. She was like a real baby! It was getting very frustrating, but eventually, she became a lot better and would sleep all night.

4. As time went by, my family and I were trying to train her so she would stop using the bathroom on the floor. It was disgusting when she would pee on the floor, and we would step in it. It was very hard to get up early in the morning to take her outside before she did anything on the floor.

"It was the first day of third grade..."

It was the first day of third grade, and I was having a great day.

I had a large classroom, a couple of friends as classmates, a friendly teacher,

and best of all, I was going to take the bus home for the first time.

I was waiting anxiously as the seconds ticked by on the clock, until

eventually, the last bell rang. I strutted out of the classroom, walked

up a set of stairs, and stood in my bus line. I was a bus student

now, not a walker, and my new journey was about to begin.

After standing in the line for what seemed like hours, I heard

the sound of something large pulling up to the school, and the

squeaking of brakes. My time has come. Quickly, I ran down the

stairs, out the door, and climbed into the large, yellow automobile.

I stood near the bus driver, looking at the crowd of unfamiliar

faces, until I saw a seat near the back that looked inviting

and sat in it. I was seated on the bus. I couldn't believe it.

I watched as my peers filed into the seats around me. How

can they treat such an exciting experience with little to

no enthusiasm?

At last, after a couple of minutes of sitting there, jumpily

up and down from the bumps, the bus drove over my

exciting adventure was about to end. I stood up as the

driver neared my spot, and to my surprise, he just kept

going. He missed my stop! What was I going to do? I
"It was the first day of third grade..."

23 set back down, with tears in my eyes, I was miserable: How
could someone do that to a poor little eight year old?
24 I stared out the window and watched the kids climb out of
the bus, with jealousy in my eyes, as they stepped home
happily to tell their parents about their first day back in
school. Why couldn't I be the lucky one who was able to
get off the bus? What if I was going to be on this
bus forever?
28 After a couple more stops, a girl that looked a bit older
30 than me said,
31 "Hey! There's a crying kid back here!" I was offended
by her rudeness, but it was the least of my worries. The bus
driver seemed quite surprised, and he asked me to come up
front to talk to him. Apparently, the stop where I wanted to
38 stop wasn't in his route. Then how come they told me to
39 go on this bus? He did say that he could drop me off
40 free everyday, and I thought that would be great.
43 As I was getting a bus drive home, I was glad that things were
resolved. When I look back at it, it doesn't seem
that bad of an experience. At least I got a tour
of the bus route!

  line(s) 4 “…waiting anxiously as the seconds ticked by...”
- uses a variety of ways to focus the topic (time structures, theme)
  line(s) 4 “until eventually”
  line(s) 8 “after standing”
  line(s) 18 “At last”
  line(s) 31 “After a couple more stops...”
  line(s) 36 “Apparently,”
- thoughtfully develop characters showing how they change and create tension
  line(s) 1 “first day of third grade”
  line(s) 3 “take the bus home for the first time”
  line(s) 41 “When I look back...”
- provides an effective ending that communicates the larger meaning of the piece
  line(s) 40 -43 “I was glad that things were resolved….bus route.”

Word Choice
- effectively includes vivid descriptive vocabulary
  line(s) 4 “I was waiting anxiously”
  line(s) 10 “My time has come.”
  line(s) 12-13 “unfamiliar faces”
  line(s) 20 “exciting adventure”
  line(s) 23 “I was miserable”
  line(s) 26 “with jealousy in my eyes”
- uses figurative language
  five rhetorical questions
This writing sample begins with “It was the first day of third grade...”

Voice
- skillfully connects with the audience by sharing thoughts, feelings, inner conflict, convictions through inner dialogue
  line(s) 6-7 “I was a bus student now, not a walker, and my new journey was about to begin.”
  line(s) 23 “How could someone do that to a poor little eight year old?”
- demonstrates strong commitment to the topic
  line(s) 22 “He missed my stop! What was I going to do?”
  line(s) 33 “Hey! There’s a crying kid back her! I was offended by her rudeness,...”

Sentence Structure
- uses a striking variety of complex sentence structures and types
  line(s) 2-3 “I had a large classroom, a couple of friends as classmates, a friendly teacher”
  line(s) 16-17 “How can they....enthusiasm?”
- connects ideas with smooth transitions to add flair
  line(s) 8 “After standing in line for what seemed like hours,”
  line(s) 23-24 “How could someone do that to a poor little eight year old?”

Conventions
- uses effective sentences that maintain precise punctuation
  Exclamatory and interrogative sentences are used effectively to capture a heightened emotional appeal.
  line(s) 14, 15-17, 23-24, 33, 37-38
- uses correct internal punctuation (dash, ellipsis, colon, semi-colon, parentheses, etc.)
  line(s) 2-3, 8-10, 10-11, 20-22, 22, 25-28
- uses correct grammatical structures
  line(s) 6-7, 18-20, 28-29, 33
- make informed decisions about text layout when publishing
  (it would be interesting to see page break- illustration connections)
My name is Leo, or my name was Leo. Nobody has names here. I am known to the Ring as 206385R and to my friends as Red, the colour of the shirt I was wearing when I was brought in. I live in Barrack R, hence the suffix at the end of my number. I am 13 years old and ready for active service in the army of the emperor. My barrack leader, a member of the ring, says I should do well in the service of the emperor. I hope so, as I have been training for 10 years, longer than anyone else in Barrack R. I don’t remember much about my life before training, just my name and a voice. I know my name because I asked my barrack leader, and I know the voice because I have dreamed of it. I told my barrack leader this and he said keep that to yourself, 206385, and would speak no more of it.

One morning, at 0500 hours, I was woken up by a huge shake. Knowing this could be important, I leaped out of bed and was met by a ring member I had never seen before. He said, “Get dressed quickly.” And handed me a sword. This was no practice blade but a real weapon expertly ground to the sharpest of edges. I followed the man out of the barrack and down the main street. I was surprised when he turned left towards the gate instead of towards the palace. He held his finger to his mouth. “Shhhhh,” he whispered and then we were through the gate and running towards a tree behind which two horses were tied. He jumped on one and I got on the other. He said, “Follow me.” And we galloped down the road away from the emperor’s city.

By the end of the day we had reached the foothills of the Boelsbon Mountains. He said, “Quick follow me.” and he jumped off his horse and jogged towards the base of the cliff. Me, still believing him to be one of the emperor’s men, a member of the ring, quickly followed. He pushed hard against a small lump in the cliff face and a small door slid open. We lead our horses inside and the door slid shut. “Welcome to the base of the rebellion, Leo,” he said.

Unknown to me, the emperor was my father and he had put me into basic training to hide me from his enemies. But now they had found me and I wondered what would happen to me. “We are not going to kill you,” said the man, “but you will be staying with us for a long, long time.”
The writing sample begins “My name is Leo…”

**Content/Ideas**
- selects a specific topic with a main idea that supports the purpose and audience to entertain with imaginative fiction
  line(s) 1 “Nobody has names here.”
- includes ideas relevant to the topic
  line(s) 5-6 “My barrack leader, a member of the ring, says I should do well in the service of the emperor.”
- includes relevant/well-researched details to enhance the ideas
  line(s) 3-4 “I live in Barrack R, hence the suffix at the end of my number.”
  line(s) 23 “…still believing him to be one of the emperor’s men…”
  line(s) 27-28 “…he had put me into basic training to hide me from his enemies.”

**Organization**
- gives a thoughtful introduction, establishing purpose
  line(s) 1 “My name is Leo, or my name was Leo. Nobody has names here.”
- uses transitions between and within paragraphs to show sequencing and connections
  line(s) 21 “By the end of the day….”
  line(s) 12 “Knowing this could be important…”
- has clearly developed paragraphs
  line(s) 1-10 Paragraph # 1 – Introduces the military type setting and characters
  line(s) 11-20 Paragraph # 2 – events leading to the complication being led away from the emperor’s city
  line(s) 21-26 Paragraph # 3 – events leading to and the complication taken to the enemy’s base
  line(s) 27-30 Paragraph # 4 – Conclusion capture and uncertain future

**Word Choice**
- interesting words and/or technical/subject-specific language to enhance meaning
  line(s) 14 “…a real weapon expertly ground to the sharpest of edges.”
  line(s) 3-4 “…Barrack R, hence the suffix at the end of my number.”
- uses figurative language
  line(s) 9-10 “…keep that to yourself…”
The writing sample begins “My name is Leo…”

Voice

- skilfully connects the audience to the subject
  line(s) 4 “I am 13 years old and ready for active service in the army of the emperor.”
  line(s) 8-9 “..and I know the voice because I have dreamed of it.”

- generates strong feeling, energy, and individuality
  line(s) 7 “I don’t remember much about my life before training,…”
  line(s) 28-29 “But now they had found me and I wondered what would happen to me.”

Sentence Structure

- includes different kinds of sentences with a variety of complex structures
  line(s) 2-4 “…and to my friends as Red, the colour of the shirt I was wearing when I was brought in.”
  line(s) 27-28 “Unknown to me, the emperor was my father and he had put me into basic training to hide me from his enemies.”

- includes a variety of sentence lengths and beginnings to create fluidity
  line(s) 6-7 “I hope so, as I have been training for 10 years, longer than anyone else in Barrack R.”

Conventions

The student demonstrates skill in this area with occasional errors.

- makes use of internal punctuation (apostrophe, dash, comma, etc.) to create fluency in the writing
  line(s) 5-6, 10, 20

- spells almost all words correctly
  line(s) 11 “morning”

- uses correct grammatical structures (numbers, contractions, plurals, all parts of speech, verb tense, subject/verb agreement,)
  line(s) 1, 7, 18,
