New Brunswick Provincial Assessments
Protocols for Accommodations and Exemptions

Preface

This document replaces the April 2010 version of Protocols for Accommodations and Exemptions published by the Assessment, Innovation and Technologies Branch.

The Protocols for Accommodations and Exemptions was developed in collaboration with New Brunswick teachers, Educational Support Teachers and the Educational Support Services (ESS) Branch of the Department of Education and Early Childhood Development (EECD) and is based on best practices for inclusion.

Provincial assessments are compulsory for all students enrolled in New Brunswick schools. Students who have a Personalized Learning Plan (PLP) are given the opportunity to participate and demonstrate the full extent of their knowledge and skill. As these assessments are meant to be inclusive, a host of accommodations are provided for students. Accommodations fall into two broad categories: universal and justified. Accommodations should be fully explored before an exemption is considered.

In certain circumstances, it is necessary and appropriate for students to be exempted from participating in provincial assessments if the testing format does not support the demonstration of learning, even with accommodations. Typically, academic exemptions are sought for students following individualized goals and outcomes in their PLP. Exemptions may also be considered for English Language Learners (ELL).
Accommodations

Definition

Accommodations are supports, methods and practices that enable a student to participate as independently as possible. Within the context of provincial assessments, *universal or justified* accommodations can be used to support students.

*Universal accommodations* are those strategies, technologies or adjustments (good teaching strategies) that enable a student to reach the prescribed outcomes and can be used as needed. These accommodations are not documented within the PLP.

*Justified accommodations* are documented strategies, technologies or adjustments without which the student would not be able to demonstrate knowledge. These accommodations are documented within the PLP and require prior approval to be accessed during provincial assessments.

For the purpose of large scale assessments, accommodations are alterations that do not jeopardize the integrity or content of the assessment, yet give students an equal opportunity to demonstrate what they know and can do as part of the assessment process.
**Types of Accommodations**

**Accommodations in presentation** affect the way directions and content are delivered to students. Students with visual, hearing or learning difficulties are much more able to engage in the content when it is presented in a form they can understand.

**Accommodations in response** offer different ways for students to respond to assessment questions. They help students with visual and hearing impairments, physical disabilities and organizational problems to structure, monitor or put words directly on paper.

**Accommodations in setting** affect either where a test is taken or the way in which the testing environment is set up. Changing the environment can be especially helpful to students who are easily distracted.

**Accommodations in timing or scheduling** allow flexibility in the timing of the assessment. Generally, these are chosen for students who may need more time to process information or who need breaks throughout the testing process to regroup and focus.

*Text-to-speech or reading aloud may be used under the following circumstances when assessing reading comprehension at the high school level: (1) a related learning disability is diagnosed and documented, (2) the dyslexia font is not suitable for the student, (3) and the accommodation is normally available to the student in daily work at school. This accommodation is not available to students in earlier grades where decoding is one of the skills being assessed.

Scribes are not appropriate accommodations for writing. Please see assistive technologies for appropriate accommodations for students.
Accommodation Procedure

Provincial Assessment Universal Accommodations

Universal accommodations are available to any student at the school’s discretion. It is not necessary to apply or provide any documentation for these accommodations for any provincial assessment. Refer to list of Universal Accommodations on page 5.

Provincial Assessment Justified Accommodations

1. Requests for justified accommodations must be submitted through the PAPAE site (see ONE site https://collabe.nbed.nb.ca). Refer to list of Justified Accommodations on page 6.

2. Under Request for Justified Accommodation on the PAPAE site, fill in all applicable areas, including grade level and date with the year.

3. Once an online request is completed at the school level, including verification from the administrator, it is received by the appointed district ESS Coordinator. On approval, the request will be forwarded to the Assessment, Innovation and Technologies Branch for approval.

4. Confirmation of requests will be sent electronically from the Assessment, Innovation and Technologies Branch to the ESS Coordinator at the district. Please check the PAPAE site for the status of requests.

Note: Check the due dates identified in the assessment timetable sent to your school’s administrators. It is important that requests for large-print, braille or other formats be submitted in a timely fashion to allow for the necessary arrangements.
**Exemptions**

**Definition**

In certain circumstances, it is appropriate for a student to be exempted from participating in a provincial assessment. Any decision to exempt a student must be made in collaboration with the student’s parent(s) or guardian(s).

Exemptions are permitted under the following circumstances:

- Students with individualized goals and outcomes outlined in either the learner’s PLP-I or Individualized Behaviour Support Plan (PLP-IBSP). For students who are not following a PLP-I and require an academic exemption, documentation must accompany the application detailing the necessity for exemption. Typically, these students are following a modified PLP (PLP-M).

- Students experiencing unforeseen circumstances* (e.g., serious illness, sudden bereavement, or other unusual circumstances requiring an exemption that could not be predicted prior to the administration of the assessment).

- English Language Learners should participate in provincial assessments when possible. In extreme circumstances—ELLS who would not be able to attempt any portion of the assessment, even with accommodations—an exemption will be considered. ELLs do not require a PLP to qualify for an exemption; however, documentation must accompany the application detailing the necessity for exemption, along with parental/guardian permission.

**Exemption Procedure**

1. Requests for exemption must be submitted using the PAPAE site (see ONE site https://collabe.nbed.nb.ca).

2. On the *Request for Exemption*, fill in all applicable areas, including grade level and date, with the year.

3. Confirmation of exemption requests will be sent from the Assessment, Innovation and Technologies Branch via the PAPAE site to the district ESS Coordinator.
*Unforeseen Circumstance Exemption must follow this protocol:

- Parent/guardian must be informed immediately for approval. If parent/guardian permission is not received, the request for exemption due to unforeseen circumstance will not be granted. The student’s results will be reported as a Did Not Write (DNW).

- Principal, District ESS Coordinator and the appropriate EECD Learning Specialist must be informed via email.

- The unforeseen exemption must be entered on the PAPAE site, following all protocols, including signed parent/guardian permission.
Exemptions from the English Language Proficiency Assessment/Reassessment (ELPA/R)

The following two types of exemptions have been developed specifically for the ELPA/R as it is a graduation requirement in New Brunswick. These exemptions must be submitted, following the proper procedures, on the PAPAE site.

Temporary exemptions: This type of exemption can be selected on a year-by-year basis. Students who will not be participating in the ELPA/R this year, but wish to write in the future, may be granted a temporary exemption. Reasons for temporary exemptions can range from academic readiness to absence during the time of writing. All of the proper signatures must be present before the temporary exemption can be considered for approval. If a student is approved for a temporary exemption, they will be registered for the next administration of the ELPA/R. Potential graduates are not eligible for a temporary exemption.

Permanent exemptions: Students who will not write the ELPA/R, at any point, may be granted a permanent exemption. These exemptions must be substantiated through a PLP. Once a permanent exemption is approved, there is no need to resubmit in any subsequent year. The student will be listed as a permanent exemption in the EECD database.

Process to reverse a permanent exemption:

- Request parent/guardian permission in writing
- Inform principal of request
- Request permission from district ESS Coordinator
- Originator of Permanent Exemption request (the staff member who entered the request to the PAPAE site) must be the one to cancel it; if the originator of the request is no longer at the school, please contact Kathy McCormack (Kathy.mccormack.gnb.ca) at the Assessment, Innovation and Technologies branch of EECD.
- Please notify the ELPA/R Learning Specialist and Kathy McCormack at EECD once the permanent exemption has been cancelled.

Please note: the original permanent exemption no longer applies to the student once reversed.
A Guide for Scribes

Do

be patient and make sure the student feels no undue pressure.
write down exactly and only what the student asks to have written.
ask the student to include directions for equation writing and punctuation, including periods, symbols, etc.
read back to the student what you have written.
make changes, only if the student requests them.

Do Not

explain or elaborate upon the question.
interpret or paraphrase.
make suggestions or offer advice.
imply that the student could/should write more or change an answer.
“help” the student with the problem or question, even if they request it.

Please remember that the student’s work should be as much their own as if they were writing it. Your part in the process should simply be a facilitator for the mechanical task of writing.

Note: All sessions that occur between a scribe and a student, in connection with administration of this assessment, must be recorded and the audio recording then sent to the Department of Education and Early Childhood Education along with the student’s other assessment materials.
