Wabanaki Wholistic Learning Framework

2022

## Introduction

The Wabanaki<sup>1</sup> wholistic Education Framework was developed based upon content provided by the EECD First Nation Elders Council and was informed and refined through co-construction and consultation with First Nation communities. This framework will be useful in de-centering dominant perspectives and honouring Wabanaki education. Please contact a Learning Specialist with the Office of First Nation Education with any feedbacks or suggestions for improvement.

## Purpose and use

The original purpose of the Wabanaki Wholistic Learning Framework is to guide learning specialists, curriculum writers and curriculum teams in the meaningful inclusion and centering of Wabanaki perspectives. All educators are welcome to use this Framework as a tool for embedding Wabanaki knowledge into their educational practice. This framework does not replace the important work of First Nation educators, curriculum writers, consultants, community members or Elders in the development of curriculum, but rather provides a guide for how the First Peoples of these lands can be centred in New Brunswick education. Nor does this framework mean that the work of partnership, co-construction, or consultation with Wabanaki partners, neighbours or Nations has been completed. Rather this framework should serve more as a starting point. This document is considered to be a living document, meaning that we will continue to add to it (and subtract if necessary) as well as make refinements to ensure it reflects the needs and desires of the community.

## Structure

The Wabanaki Holistic Learning Framework contains four general themes (**Wabanaki Societies, Wabanaki Identities, Treaty Education and Piluwitahasuwawakon/Piluiankita'suaqn wjit Teliqewey aq Kisaknutmaq**), each with a series of guiding foci. Content within each focus is described according to grade level program blocks along a continuum beginning with Kindergarten and ending with Grade 12. Content stated in one program block should not be treated as exclusive only to that program block as some major components, (such as Elders stories, for example) should be included across many program blocks and for a variety of purposes.

## Finding support

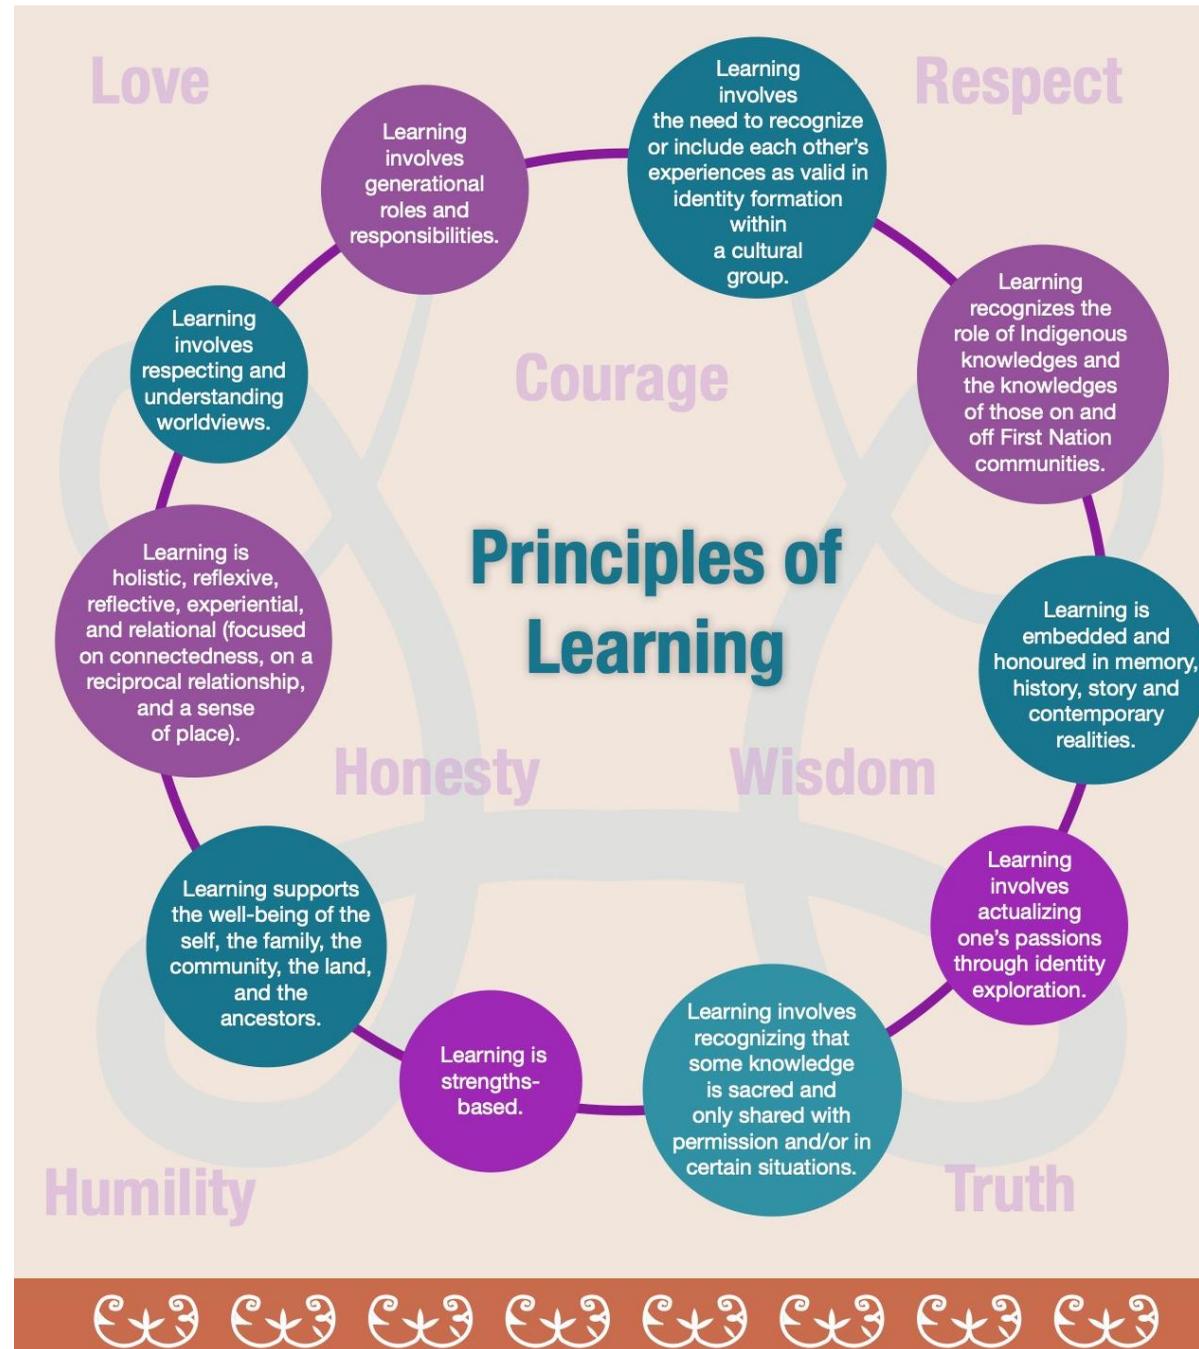

The Office of First Nation Education has produced a companion document (contact a Learning Specialist with the Office of First Nation Education to obtain a copy which contains important information for engaging Wabanaki Elders, Ceremony Keepers, language Keepers and Knowledge Keepers). That document also includes contact information for First Nation Subject Coordinators in each district, who would be the first point of contact for an educator, as well as information on the World of Wisdom platform for digitally connecting classrooms with Knowledge Keepers. We further encourage you to reach out to the Office of First Nation Education, knowledgeable contacts across Educational Services, and to draw upon other relationships you have developed with Indigenous Peoples and communities.

## Note on Ceremony

Ceremony must be conducted **only by those who legitimately hold the right to perform them** as they are sacred to Wabanaki Peoples. Ceremonies could include activities involving making Talking Sticks, naming ceremonies, regalia, making drums or drumming, and smudging. Activities for students should not include these activities unless under the leadership of a Ceremony Keeper. **Any curriculum which references ceremony must have Elder guidance.** Contact a learning specialist with The Office of First Nation Education for more information on how to do this, and refer to the companion document for further information.
