

| Project Type | Project Name | Project Lead | Project Description | Project Cost |
|---------------------|---|---------------------|--|---------------------|
| Mitigation | EV and GNB Building Study | DTI | Examining suitability of GNB buildings for EV charging infrastructure. | \$30,000 |
| Adaptation | Chignecto Dyke Assessment | DTI | Study to look at required changes to dykes in the Chignecto region to project community infrastructure. | \$200,000 |
| Mitigation | Greening GNB Fleet | DTI | Initial work to explore the opportunity for more electric and hybrid vehicles in GNB fleet | \$50,000 |
| Mitigation | NB Power Energy Efficiency Programming | NB Power | Energy Efficiency programming for low income, commercial, transportation and industrial clients. Online training for trade allies, development of communications and web materials and supporting energy efficiency education in schools (Gaia). | \$2,950,000 |
| Adaptation | Support CRI "Forest Hydrology: From Process to Meaningful Management" | NRED | Translate science into operational, decision making tools for forest and land-use planning including flood risks - actions related to landscape and sensitivity and resilience. | \$150,000 |
| Mitigation | Small Modular Reactors | NRED | Small Modular Reactors. | \$5,000,000 |
| Mitigation | Upgrade Metering in Schools and Hospitals | SNB | Upgrade metering in schools and hospitals | \$30,000 |
| Adaptation | Flood Mitigation and Communication Tools | ECC | Various projects related to flood mitigation and public communication around flooding (e.g. improvements to River Watch app, orthophotos layer release, flood advisory levels). | \$100,000 |
| Mitigation | CCS Website Updates | ECC | Initial work to enhance the existing GNB climate change website. | \$35,000 |
| Mitigation | Clean Tech Acceleration Strategy | ONB | Initial project work to explore the development of a clean tech acceleration strategy. | \$40,000 |
| Mitigation | Energy Retrofits of Government Owned Buildings | DTI | Various energy retrofits targeting efficiency upgrades to government owned buildings. | \$5,222,549 |
| Mitigation | Enhanced GPS Devices for Snow Plows | DTI | Enhanced GPS devices for snow plows to monitor fuel and salt and sand distribution. | \$300,000 |

| | | | | |
|--------------|---|---------|---|---------------------|
| Adaptation | Shoreline Protection | DTI | Various projects undertaken to maintain and protect DTI transportation infrastructure from the effects of climate change and storm events across the province. | \$1,000,000 |
| Adaptation | Dyke Maintenance | DTI | Ongoing maintenance of dykes, dams and water control structures, i.e., rock protection, aboiteau repair, dyke topping/repair, access road repair, seawall protection, concrete repair, etc. | \$675,000 |
| Adaptation | Non-Recoverable Flood Expenditures / Mitigation | DTI | Projects required to replace or repair infrastructure damage from past storm events and flood mitigation options. | \$2,580,000 |
| Adaptation | Chignecto Isthmus Study | DTI | The Chignecto Isthmus Climate Change Adaptation Project is a comprehensive engineering and feasibility study. Funding partners include Nova Scotia and the federal government. | \$154,000 |
| Adaptation | Culvert Replacements | DTI | Various culvert replacement projects to increase size and allow for increase flow. | \$3,799,000 |
| Mitigation | Energy Retrofits | Horizon | Various energy retrofit projects targeting efficiency upgrades to Horizon health care facilities. | \$1,088,782 |
| Mitigation | Energy Management | SNB | Various energy management and efficiency projects in government buildings. | \$2,505,000 |
| TOTAL | | | | \$25,909,331 |
