

SCHEDULE - C
(Revised January 2018)

SPILL PREVENTION UPGRADES

FOR OFFICE USE ONLY

Distribution List:

Program Mgr.: _____

Data Manager: _____

All sites that have submitted a passing precision test report, required for 20-year-old underground systems, shall upgrade their systems to have an overfill containment box and overfill prevention valve installed.

All the spill prevention upgrade work is to be completed by a licensed petroleum installer. When the installer has completed the upgrade work, they shall submit this form verifying that both a fill tube spill containment device and an overfill protection device has been installed on the subject systems.

In order to confirm that the upgrade work has been completed, please submit this form to:

New Brunswick Department of Environment and Local Government
Authorizations Branch
(20 McGloin Street, Fredericton, NB E3A 5T8)
P.O. Box 6000
Fredericton, New Brunswick E3B 5H1

Telephone: (506) 453-7945

Fax: (506) 453-2390
