

Vaccines and Biologics Loss Summary Report

CONFIDENTIAL WHEN COMPLETED

Wasted or expired products and completed report should be returned to the replenishment source (e.g. Central Serum Depot, Public Health or Sub Depot). Central Serum Depot will then return products to manufacturer for credit or proper disposal.

It is the responsibility of immunization providers to follow Standards 3.4 - Vaccine Storage and Handling and 3.7 - Management of Storage Excursions of the New Brunswick Immunization Program Guide. Loss of vaccine results in a loss to the New Brunswick health care system.

Type of vaccine loss: Storage excursion Expired product

Other (explain) _____

This section to be completed by immunization provider

Report completed by: _____

Address: _____
