

Should I get screened?

	BREAST CANCER	CERVICAL CANCER	COLON CANCER
WHO	Women, trans men or gender diverse people aged 40 to 74	Women, trans men or gender diverse people with a cervix aged 25 to 69 who have ever been sexually active	People aged 50 to 74
WHAT	Mammogram	Pap test	Fecal immunochemical test, also called a FIT
WHEN	Every one to two years for people aged 40 to 49 and every two to three years for people aged 50 to 74	Yearly until three negative tests in a row. Then, every three years	Every two years
HOW	Contact a breast cancer screening site	Talk to a doctor or nurse practitioner or contact a cervical screening clinic	To find out if a FIT is the right screening test for you, fill out the questionnaire you got in the mail or call 1-844-777-3443

Regardless of your age, talk to a doctor or nurse practitioner if you have any symptoms, concerns, or a family history of cancer.

Visit GNB.CA/Screening or call 1-844-777-3443 for more information.
