

SOIRÉE DE RÊVE INCLUSIVE

CHIC Collège hôte de l'inclusion communautaire.

© Comité CHIC, Réseau mieux-être du Nord-Ouest

Saturday May 25th, 2019

4:00 p.m.

Convention Center
74 Canada road
Edmundston (New-Brunswick)

The CHIC committee, **Community Inclusion Group**, is a committee within the North West Wellness network. The members of this committee *want to open the door to people living with a disability, and to allow them to fully participate in the community life in our region, to realize their dreams, and thus improve their well-being.* To do this, we work based on the CAA practices of the theory of self-determination. This means, that we strive to recognize, use and develop our skills, improve autonomy, in order to have a voice, to be able to make choices and the feeling of belonging in order to create a community that proves resilience.

The CHIC Committee is organizing a fourth evening of inclusion to allow people living with a disability to spend a dream evening with people from the community. The activity is an evening that brings together 150 influential people in the community (sponsors) matched with 150 people living with a handicap (their guests). **This year the Premier's Council on Disabilities (PCD) chose our event as the provincial launch site for the 32nd Disability Awareness Week (DAW) which will take place from May 26th to June 1st, 2019.**

During this evening, all activities will be presented by both groups. The whole thing will happen in the form of a gala style evening that our business people know well. This is a 4-course dinner interspersed of shows and music.

Our presidents of honor for this evening are:

Claude Beaulieu and Thérèse Hébert and will be happy to surprise you.

The participation of your guests in all the stages of this evening will allow them to live an exceptional experience. This kind of evening is usually out of their reach, but thanks to your participation, their dream becomes reality. And throughout the evening, the guests will have the chance to surpass themselves by presenting themselves on stage in various roles, or by simply being present in a universe that they do not know and that asks them a whole new mode of preparation.

The purpose of this evening is to: Introduce and let you know who the people with disabilities in the region are, allow people in the community to see the challenges of everyday life but especially the often-unknown forces of our people living with a disability and above all, create long term links.

By matching the sponsors to their guest, we can ensure that all participants will experience an evening high in emotions. In the long term, we are convinced that this reconciliation, of the community and people with disabilities, will have a positive and lasting influence. It will break down the isolation, create strong ties, increase knowledge and social skills, promote community participation, and improve favorable environments to the development of wellness. For example, the municipal effort that happened in Edmundston after the 2nd Evening, making the pedestrian crosswalks safer for our blind people.

The region includes a large number of people living with a disability and/or a difference. We want to make a place for them in all spheres of community life. For the North West Wellness Network, by using CAA practices, it is possible to engage people in change, and to influence a whole culture.

You are already several to have experienced such an evening, but allow us the pleasure of surprising you again.

Thank you for your support.

YOU CAN SUPPORT US IN TWO WAYS.

- By being present during the evening, \$100 the ticket for you and your guest and/or
- A table advertisement at \$100 to have a table that will bear the name of your company

Note: if a profit is generated during this evening, these funds will be used in the region to promote inclusion in the various activities.
