INTRODUCTION

Stakeholders throughout New Brunswick are committed to ensuring that persons with disabilities have the support services required to succeed in their efforts to become educated; trained and employed.

To achieve this objective; individuals; non-profit organizations and government have identified a wide range of support services currently available.

This listing may not include all services but attempts to link consumers and existing service providers together.

As service gaps are identified; efforts will be made to identify and include services as required.

Department of Post-Secondary Education, Training and Labour
Employment Development Division

Website: www2.gnb.ca/content/gnb/en/departments/post-secondary_education_training_and_labour.html

Training and Skills Development (TSD)

Website: www2.gnb.ca/content/gnb/en/services/services_renderer.5097.html

Training and Skills Development (TSD) program has been introduced in an effort to ensure that case managed individuals, whose employment action plan identifies skill development as being necessary, have access to funding to assist them in achieving their goal.

A participant must have an Employment Action Plan that has been developed with a Post-Secondary Education, Training and Labour Employment Counselor, who will determine eligibility based on program criteria.

The training must:

- ✓ be a required component of a participant's Employment Action Plan
- ✓ lead to sustainable employment

Training and skills Development (TSD) selectively provides grants to people who meet the program criteria. The focus of the program is to help clients receive training or educational programs which will allow them to return quickly to work.

The TSD duration is limited to:

- ✓ a maximum of two consecutive years for a regular training program
- ✓ a maximum of one year for academic upgrading for grade levels 7 to 9 and two consecutive years for grade levels 10 to 12
- ✓ a maximum of three consecutive years for a co-operative training program

The level of TSD funding is determined by an Employment Counselor and may cover a portion of tuition and books as well as other training expenses.

Services to persons with low vision/blind in Northeastern New Brunswick

This can involve low vision assessments, independent skill training, technology training and/or independent travel lessons (white cane). PETL has designated two employment counselors to provide service to people who are blind or partially sighted in this region and CNIB is providing training for these staff. Also, PETL is

contracting CNIB to do workplace assessments and consult on accommodation for individuals with vision loss who have secured employment.

Training and Employment Support Services (TESS)

Website: www2.gnb.ca/content/gnb/en/services/services_renderer.17056.html

Training and Employment Support Services assists individuals with permanent or long-term disabilities to gain access to training and employment opportunities.

A participant must:

- ✓ be a resident of New Brunswick or a First Nation Community in New Brunswick;
- ✓ be 18 years of age or a high school graduate who is 17 years of age;
- ✓ have a permanent or long-term physical, intellectual, psychiatric or cognitive disability;
- ✓ have an Employment Action Plan.

Provided as part of the Employment Services Program, Training and Employment Support Services (TESS) is directed towards individuals with physical, intellectual, psychiatric or cognitive disabilities. The purpose of these services is to offer training and employment support options to persons with permanent or long-term disabilities who need to develop marketable skills in order to assist them to enter the labour force. These services are provided in full collaboration with the person with a disability in accordance with his/her needs and capabilities.

By its nature, the process is time-limited in that provision of goods and services is aimed at attaining self-sufficiency. Therefore, TESS is limited to the concept of enabling persons with disabilities to either obtain employment or resume employment when it has been interrupted. The intent is designed to reduce or remove, to the fullest extent possible, the effects of a disability, which limits a person's potential to achieve a job.

It is not the intention of TESS to support training activities for individuals who already have marketable skills to enter the labour force, nor is it the intention of TESS to place persons with disabilities in a preferred position to that of the nondisabled. Rather, the purpose is to lessen the barriers a person with disabilities faces so that he/she may be as competitive as the non-disabled population when competing for employment. It should be noted that any individual with a disability, whether or not they are receiving income support benefits, could be eligible for services under TESS.

Universities and Community Colleges

Campuses of universities and colleges in New Brunswick also have coordinators to assist persons with disabilities adjust to post-secondary education facilities by assessing their needs and providing necessary supports. Students are encouraged to discuss their needs with an appropriate faculty member early on in order to minimize barriers to completing their diploma/certificate program.

FEDERAL GOVERNMENT

Service Canada

Vocational Rehabilitation program

Website: www.servicecanada.gc.ca/eng/isp/pub/factsheets/vocrehab.shtml

Telephone: (800) 277-9914

TTY: (800) 255-4786

Fax: (506) 452-4119

Mailing Address:

PO Box 250

Fredericton, NB E3B 4Z6

Region: New Brunswick

Services offered: The Canada Pension Plan Disability Vocational Rehabilitation Program is designed to help people who receive a Canada Pension Plan disability benefit return to work. In the past, many people receiving benefits because of a severe and prolonged disability believed that they were permanently out of the work force. Today, new technology, medical treatments and skills training are making it possible for some people with severe disabilities to become part of and remain in the work force. That is why the Canada Pension Plan is making vocational rehabilitation available to those who can benefit from it the most.

Candidates could:

- ✓ return to their former job with their former employer;
- ✓ return to a modified version of their former job;
- ✓ work at a different job with their former employer using their current or newly acquired skills;
- ✓ work at a different job with any employer able to use their current or new skills;
- ✓ be retrained for a job through skills or education upgrading;
- ✓ be helped to gain skills for self-employment.

Opportunities Fund for Persons with Disabilities

Telephone: 800 O-Canada
(800) 622-6232

TTY: (800) 926-9105

Mailing Address:

140 Promenade du Portage

Phase IV, 4th Floor

Gatineau, QC K1A 0J9

By providing contribution funding to organizations, employers and individuals, the Opportunities Fund for Persons with Disabilities helps people with disabilities prepare for, obtain and maintain employment or self-employment.

The Opportunities Fund for Persons with Disabilities program offers funding for local, regional, and national projects.

Funding for local and regional projects helps organizations create local or regional projects involving eligible activities. Through local and regional projects, recipient organizations deliver eligible activities to individuals.

Funding for national projects helps organizations create projects designed to provide and improve employment services and increase the labour market participation of people with disabilities across Canada. Through national projects, recipient organizations deliver eligible activities to individuals in various regions.
