

Home First

New Brunswick's three-year strategy, that will help seniors maintain their independence and remain in their homes and communities for as long as possible.

Home First Vision:

Healthy aging enabled by appropriate supports and care within a responsive, integrated and sustainable system.

Healthy Aging

- Self-care and personal responsibility
- Targeted wellness to support aging in place
- Community capacity building

Appropriate supports and care

- Better specialized care options
- · Supports for caregivers
- Technology enabled homebased care

Responsive, integrated and sustainable system

- Coordinated case management and care navigation
- Accountability and performance management

The plan outlines a series of innovative approaches, strategies and initiatives to support seniors to live in their own homes and continue to be part of their communities.
