

Department of Transportation Contact: Susan Andrews-Caron, (506) 453-2802	Special Permit <i>Motor Vehicle Act</i> Regulation 89-65
Current Fee: N/A Proposed Fee: \$847 Effective Date: January 1, 2009	New Annual Revenue Estimate: \$0 Change in Annual Revenue: \$0
Comments: This new permit fee is to meet the requirements of the Memorandum of Understanding regarding the Harmonization of Special Permit Conditions for Movement of Overdimensional Vehicles and Loads in Atlantic Canada, which came into effect January 1, 2009. The new fee is for a new annual oversize/overmass permit for construction and industrial equipment. It is expected however that there will be very little interest from the trucking industry in this permit since it is not valid during the spring weight restriction period and therefore less attractive to industry than the three-month permit currently available. The new permit is nonetheless offered to industry to meet the requirement of the Memorandum of Understanding.
