

Department of Environment Contact: Mark Boldon, (506) 453-7945	Water Quality Approval to Operate – Class 14 <i>Clean Water Act</i> Regulation 93-201
Current Fee: \$2,000 Proposed Fee: \$2,200 Effective Date: April 1, 2012	New Annual Revenue Estimate: \$0 Change in Annual Revenue: \$0
Comments: This regulatory charge is designed to recover the costs of issuing Land-based Dredging Material Disposal Site Approvals (less than 10,000 cubic metres), which are intended to provide direction for the safe disposal of dredging material on land in New Brunswick. This includes an application review, technical site review, approval development and issuance, compliance verification, data management and the possibility of emergency responses. This proposed fee increase is based on increased costs of issuing these approvals.
