ARTIST-IN-RESIDENCY SCHOOL PROGRAM 2019 – 2020 GUIDELINES

The *Artist-in-Residency School Program* funds fine art projects based on curricular outcomes within Fine Arts (Music, Visual Art, Drama and Dance) and is a collaboration between one or more teachers and one or more artists. This program is jointly funded by the Departments of Education and Early Childhood Development and Tourism, Heritage and Culture.

The *Artist-in-Residency School Program* places professional artists in rural and urban schools to broaden and develop the arts education program by bringing together the creative potential of students and the unique energy of artists.

It is intended to provide students and their teachers with the opportunity to spend a **minimum of three days (minimum of 15 hours)** working closely with artists to enhance the students' artistic perception and appreciation.

The residencies can include any of the arts disciplines (music, visual arts, writing, theatre, cinema, dance, etc.). The artist and the teacher shall work in close collaboration in order to plan and carry out the project to ensure that the artistic activity corresponds to curriculum based outcomes within the Fine Arts.

The residencies must include at least one (1) performance by the artist (Ex: a short 10 to 15 minute stage performance; In the case of a visual artist, a mini exhibit and/or a live demonstration by the artist.)

The artist can propose a project idea to a teacher or a team of teachers but the project must be developed in collaboration with the lead teacher. It is possible that several meetings with the teacher(s) will be required before the artistic discipline, which best meets the curriculum based outcomes, is chosen. One must not lose sight that these projects are not purely art classes but rather experiences in artistic creation allowing students to deepen their knowledge of the related Fine Arts academic material. Teachers are encouraged to guide the artists in their approach to ensure that the project meets all the objectives of the program and appropriate pedagogical practices. Multidisciplinary projects (collaboration between artists of different disciplines) are permitted.

1. OBJECTIVES

- To encourage and provide opportunities for students to express themselves and take part in the creative process at the earliest possible age and throughout every stage of their formal education;
- To allow students to think creatively and critically through education in the arts;
- To give students a lifelong appreciation for the arts and ensure a knowledgeable audience for the work of professional artists by encouraging arts literacy;
- To encourage students to be creative from the time they are very young is one of the best guarantees of self-fulfillment, self-respect and the respect of others, all essential components of a culture of tolerance and peace;
- To offer students the possibility to work with professional artists while actively participating in artistic projects in the context of their academic curriculum;
- To develop a better appreciation of culture and the arts as well as local artists;
- To awaken the creative side of all students while exploring a variety of different arts disciplines;
- To witness a live performance, demonstration or exhibit by a professional artist;
- To give students the opportunity to develop their passion (for learning).

2. TARGET OUTCOMES

- Students gain a new level of appreciation for the arts combined with an increased level of understanding of the Fine Arts curriculum matter targeted by the residency;
- Students will think creatively and understand deeply as they explore and develop their creative abilities while applying them in a variety of ways;
- Students will think critically while communicating effectively through the arts;
- Students will manage, access, process, evaluate and present information aesthetically for a variety of audiences;
- Students will be able to use various art forms, skills, language and techniques as a means of formulating, exploring and expressing ideas, perceptions and feelings.

3. ELIGIBILITY CRITERIA

Each residency proposal must meet the following criteria to be considered for funding through this program:

- Professional artists **must** register with the *Artist Registry* to be eligible to participate in a residency ([download form](#));
- Professional artists work with the students and teaching staff at a maximum of **two** schools within a district for a minimum of 15 hours;
- The same project may only be presented once every three years in the same school and no more than twice in any given year across all districts;
- Acquisition of the necessary equipment and materials are the responsibility of the artist(s) and must be described in their proposal and included in the budget;

- The residency will:
 - Enhance student knowledge, skill and creativity in relation to the Arts;
 - Enable students to develop a deeper appreciation for the value of the Arts;
 - Connect learning to specific provincial Fine Arts curriculum outcomes;
 - Include a performance component by the artist(s) with or without the participation of the students. In the case of a visual artist, the performance could take the form of a demonstration session and/or a mini exhibit.
- Preference will be given to schools which have not received a residency in the previous year;
- Residencies must start as soon as possible after approval is received and completed no later than the end of the school year.

NOTE: By failing to file a final report in due time, a school may be denied future grants.

4. APPLICATION SUBMISSION

- All applications will be evaluated at the same time and receive equal consideration.
- The applicant must email **2 copies** of the application form, one to culture@gnb.ca and one to Andrea.Gaujacq@gnb.ca.
- **NEW: Rather than requiring multiple signatures, the application form now has a single check box which acts as a signature for the lead teacher, lead artist and the school principal.**
