Policy 250

Subject: Provincial Organization – Financial Reporting
Effective: December 12, 2001
Revisions: October 1, 2018

1.0 Purpose

1.1 The Sport and Recreation Branch provides funding to volunteer led provincial organizations to support the development of sport, recreation and active living opportunities. The Branch accounts annually for the public funding that it disburses. It must demonstrate that the contributions are used for the purposes intended. The Branch delegates its responsibility to account for the support received to the provincial organizations. The following policy statements outline the requirements made of Provincial organizations in accounting for the support received.

2.0 Purpose

2.1 This policy applies to provincial organizations that receive funding from the Branch through Funding Model I, II.

2.2 No funding application will be processed, with the exception of the High Performance Athlete Assistance Program, unless the organization is in compliance with this policy.

3.0 Definitions

3.1 Audit: The purpose of an audit is to have someone with a professional degree in accounting review an organization’s financial records to verify such records and to insure that the monies have been spent in accordance with the direction of the board of directors.

3.2 Review: The scope of a review is less than an audit and therefore the level of assurance that it provides is also lower. A review consists primarily of enquiry, analytical procedures and discussion related to information supplied by the organization with the limited objective of assessing whether the information being reported on is plausible.

3.3 Qualified Independent Source: Is preferably someone with a professional degree in accounting, but could be someone with expertise such as a bank manager or business manager. This person cannot be the treasurer. His or her signature provides credibility to the verification of the financial statement.

4.0 Legal Authority

4.1 The Youth Assistance Act
5.0 Goals / Principles

5.1 The Sport and Recreation Branch provides public funding to its partner organizations in support of its goals. It is important to ensure public confidence that funding provided is being effectively managed and accounted for.

6.0 Requirements / Standards

6.1 To be eligible for support a provincial organization must be financially responsible and provide an annual financial statement within 6 months of their fiscal year end.

   a) Provincial organizations receiving full-time staffing assistance must have their statements annually reviewed by someone with a professional degree in accounting, and must produce an audited financial statement at least once every four years.

   b) Provincial organizations receiving part-time staffing assistance must have their statements annually reviewed by someone with a professional degree in accounting.

   c) A provincial organization that does not receive staffing assistance but receives $10,000 or more from its Funding Model application must have its financial statement for that fiscal year reviewed by a qualified independent source.

   d) A provincial organization that receives less than $10,000 from its Funding Model application must have its financial statement for that fiscal year reviewed by a qualified, independent source or reviewed and signed by its Executive.

7.0 Guidelines / Recommendations

7.1 The Sport and Recreation Branch encourages provincial organizations to strive towards a position of financial strength through prudent financial management and establishing sources of non-government funding. The Branch encourages Provincial Organizations to build up a surplus in its general account equal to 3-6 months of its operating budget. However,

   a) any organization that accumulates a surplus in excess of 50% of its average expenditures (calculated over the previous 4 year period) must designate the excess funding towards a particular special project, special program or special fund (Capital or Legacy Fund).

   b) any organization whose expenditures in a given fiscal year do not exceed the funding provided through funding model phase I, will be subject to a reduction in funding in the subsequent year that is equal to at least the unspent portion of the grant provided.
7.2 A financially responsible organization:

a) Presents its reviewed statements to its membership at its annual general meeting.

b) Provides updated interim financial statements to its board at its regular meetings.

c) Develops and monitors a budget to guide expenditures throughout the year.

d) Maintains accurate records of its revenues and expenditures.

e) Requires two signatures for each cheque.
